Under American law, kids convicted of serious crimes can be sentenced as adults. Two hundred and eighty of these child criminals live in the sunbaked desert prison of Arizona Max. In one of the most dangerous CHERUB missions ever, James Adams has to go undercover inside Arizona Max, befriend an inmate and then bust him out. "The working hypothesis is this: it is true that sexuality as experience is obviously not independent of codes and systems of prohibitions, but it needs to be recalled straightaway that these codes are astonishingly stable, continuous, and slow to change. It needs to be recalled also that the way in which they are observed or transgressed also seems to be very stable and very repetitive. On the other hand, the point of historical mobility, what no doubt change most often, what are

most fragile, are modalities of experience." - Michel Foucault In 1981 Foucault delivered a course of lectures which marked a decisive reorientation in his thought and of the project of a History of Sexuality outlined in 1976. It was in these lectures that arts of living became the focal point around which he developed a new way of thinking about subjectivity. It was also the moment when Foucault problematized a conception of ethics understood as the patient elaboration of a relationship of self to self. It was the study of the sexual experience of the Ancients that made these new conceptual developments possible. Within this framework, Foucault examined medical writings, tracts on marriage, the philosophy of love, or the prognostic value of erotic dreams, for evidence of a structuration of the subject in his relationship to pleasures (aphrodisia) which is prior to the modern construction of a science of sexuality as well as to the Christian fearful obsession with the flesh. What was actually at stake was establishing that the imposition of a scrupulous and interminable hermeneutics of desire was the invention of Christianity. But to do this it was necessary to establish the irreducible specificity of ancient techniques of self. In these lectures, which clearly foreshadow *The Use of Pleasures* and *The Care of Self*, Foucault examines the Greek subordination of gender differences to the primacy of an opposition between active and passive, as well as the development by Imperial stoicism of a model of the conjugal bond which advocates unwavering fidelity and shared feelings and which leads to the disqualification of homosexuality.

These thirteen lectures on the 'punitive society,' delivered at the Collège de France in the first

three months of 1973, examine the way in which the relations between justice and truth that govern modern penal law were forged, and question what links them to the emergence of a new punitive regime that still dominates contemporary society. Praise for Foucault's Lectures at the Collège de France Series "Ideas spark off nearly every page...The words may have been spoken in [the 1970s], but they seem as alive and relevant as if they had been written yesterday."—Bookforum "Foucault is quite central to our sense of where we are...[He] is carrying out, in the noblest way, the promiscuous aim of true culture."—The Nation "[Foucault] has an alert and sensitive mind that can ignore the familiar surfaces of established intellectual coded and ask new questions...[He] gives dramatic quality to the movement of culture."—The New York Review of Books

The Hermeneutics of the Subject is the third volume in the collection of Michel Foucault's lectures at the

Collège de France, one of the world's most prestigious institutions. Faculty at the Collège give public lectures, in which they present works-in-progress on any subject of their choosing. Foucault's wide-ranging lectures influenced his groundbreaking works like *The History of Sexuality and Discipline and Punish*. In the lectures comprising this volume, Foucault focuses on how the "self" and the "care of the self" were convinced during the period of antiquity, beginning with Socrates. The problems of the ethical formation of the self, Foucault argues, form the background for our own questions about subjectivity and remain at the center of contemporary moral thought. This series of lectures throws new light on Foucault's final works and shows the full depth of his engagement with ancient thought. Lucid and provocative, *The Hermeneutics of the Subject* reveals Foucault at the height of his powers.
