"At last—a global plan that actually adds up."—James Hansen, former director, NASA Goddard Institute for Space Studies The world must reach negative greenhouse gas emissions by 2050 to avoid the most catastrophic effects of climate change. Yet no single plan has addressed the full scope of the problem—until now. In *The 100% Solution*, Solomon Goldstein-Rose—a leading millennial climate activist and a former Massachusetts state representative—makes clear what needs to happen to hit the 2050 target: the manufacturing booms we must spur, the moonshot projects we must fund, the amount of CO₂ we'll have to sequester from the atmosphere, and much more. Most importantly, he shows us the more prosperous and equitable world we can build by uniting the efforts of activists, industries, governments, scientists, and voters to get the job done. This is the guide we've been waiting for. As calls for a WWII-scale mobilization intensify—especially among youth activists—this fully illustrated, action-oriented book arms us with specific demands, sets the stakes for what our leaders must achieve, and proves that with this level of comprehensive thinking we can still take back our future.

The experts at The Princeton Review offer the most complete and effective preparation for two important secondary school admissions exams, the SSAT (Secondary School Admission Test) and ISEE (Independent School Entrance Examination). SSAT & ISEE Prep, 2021, previously titled Cracking the SSAT & ISEE, includes a thorough review of the fundamentals of the Math, Verbal, and Reading sections for both tests. About the tests- The SSAT has 2 levels (Lower- for students entering grades 6-8; Upper- 9-12), while the ISEE has 3 levels* (Lower- grades 5-6; Middle- grades 7-8; Upper- grades 9-12). Both exams test verbal skills, reading comprehension, and math/quantitative skills, and both have an essay. While most schools require one or the other exam, students who have a choice generally opt for the ISEE if they are better-skilled at math, and the SSAT if better-skilled in language arts. *The ISEE also has a Primary Level for grades 2-4, which is rarely taken; neither our title nor competitive titles address it.
