This challenging book on jurisprudence begins by posing questions in the post-modern context, and then seeks to bridge the gap between our traditions and contemporary situation. It offers a narrative encompassing the birth of western philosophy in the Greeks and moves through medieval Christendom, Hobbes, the defence of the common law with David Hume, the beginnings of utilitarianism in Adam Smith, Bentham and John Stuart Mill, the hope for enlightenment with Kant, Rousseau, Hegel and Marx, onto the more pessimistic warnings of Weber and Nietzsche. It defends the work of Austin against the reductionism of HLA Hart, analyses the period of high modernity in the writings of Kelsen, Hart and Fuller, and compares the different approaches to justice of Rawls and Nozick. The liberal defence of legality in Ronald Dworkin is contrasted with the more disillusioned accounts of the critical legal studies movement and the personalised accounts of prominent feminist writers.

This Critical Perspectives on Language Teaching Materials brings together a collection of critical voices on the subject of language teaching materials for use in English, French, Spanish, German and Content and Language Integrated Learning (CLIL) classrooms. It is firmly located within the 'critical turn' in Applied Linguistics and seeks to build on the growing body of work in this vein. Collectively the authors take it as axiomatic that the politics of representation and identity, and issues of ideology and commercialism cannot be neglected in any serious study of language teaching materials. Rather, it sees these issues as central. The book draws on research carried out in the UK, Spain, North America and Brazil, and is aimed at language teachers, teacher educators, students, researchers, materials writers and those working in the materials publishing industry.

The first edition of Percorsi quickly became one of the best-selling elementary Italian texts. The new second edition features a new design, more focus on skills-development, updated cultural information and a full version of MyItalianLab. Percorsi is an introductory program that promotes the acquisition of Italian language and culture through the integration of the "5 Cs" principles of the National Standards for Foreign Language Education. Percorsi is designed to provide beginning learners with a variety of tools to develop their communicative competence in the four major language skills—listening, speaking, reading, and writing—as they acquire familiarity with Italian culture. All of the features in Percorsi have been carefully thought out to support the two key aspects of the language acquisition process: language

comprehension and language production. From the start, carefully structured communicative activities based on authentic materials and texts encourage students to use Italian in everyday situations. Generous use of authentic content also offers students a chance to develop reading skills while gaining cultural awareness and understanding of Italian communities and traditions throughout the world. In addition, each chapter explicitly promotes cultural exploration through illustrated presentations that are followed by activities facilitating comprehension and highlighting cultural comparisons. Students are encouraged to analyze and compare extremely varied aspects of Italian culture while making connections to their own experiences. This Books à la Carte Edition is an unbound, three-hole punched version of the textbook and provides students the opportunity to personalize their book by incorporating their own notes and taking only the portion of the book they need to class – all at an affordable price. It comes packaged with a MyItalianLab access code to which gives students access to all of MyItalianLab's grade-boosting resources... PLUS a complete e-book of the textbook!

"Truly something that's just a beautiful, slick, and very enjoyable little publication" – CreativeBoom  
"Graphic Design Play Book features a variety of puzzles and challenges, providing a fun and interactive way for young visual thinkers to engage with the world of graphic design" – Eye  
Understand how graphic design works and develop your visual sensibility through puzzles and activities! An entertaining and highly original introduction to graphic design, the Graphic Design Play Book uses puzzles and visual challenges to demonstrate how typography, signage, logo design, posters and branding work. Through a series of games and activities, including spot the difference, matching games, drawing and dot-to-dot, readers are introduced to graphic art concepts and techniques in an engaging and interactive way. Further explanation and information is provided by solution pages and a glossary, and a loose-leaf section contains stickers, die-cut templates, and coloured paper to help readers complete the activities. Illustrated with typefaces, poster design and pictograms by distinguished designers including Otl Aicher, Pierre Di Sciullo, Otto Neurath and Gerd Arntz, the book will be enjoyed both by graphic designers, and anyone interested in finding out more about visual communication. An excerpt from the book: How many ways are there of saying 'hello'? Probably a zillion. And there are surely just as many ways of writing it. In CAPITALS, and with an exclamation mark ! Or with a question mark ? Or maybe both ?! As a tiny black word in the middle of a white page; or with large, multi-coloured, dancing letters ; maybe with a simple shape or an image. Being interested in graphic design means looking at and understanding the world around us. And being aware of the multitude of signs that shape our daily life day after day and freight it with meaning – whether it's a stop sign, a cornflakes packet, a psychedelic album cover, a seductive headline on the cover of a magazine, the more subtle typography of a page in a novel, a flashing pharmacy sign or the credits of a sci-fi film. Thinking about this plethora of signs was what led us to conceive this introduction to graphic design as a collection of beacons and benchmarks – as a toolbox for exploring and learning in a simple and intuitive way through play, alone or with others, whether you're a child or an adult. These are experiments, a series of suggestions, with no right or wrong answers. The four sections of this book – typography, posters, signs, identity – are all invitations to dive in, explore and let your eyes and your hands take you on a voyage of discovery! – Sophie Cure and Aurélien Farina

Ever wonder "What if?" Everything That Makes You is a romantic, epic story about one girl—and her two possible lives after an accident changes her fate. Fiona Doyle's face was horribly scarred as a child. She writes about her frustrations and dreams in notebooks, penning song lyrics. But she'd never be brave enough to sing those songs in public. Fi Doyle never had an accident. She's the best lacrosse player in the state and can't be distracted by her friend who wants to be more than that. But then her luck on the field goes south. Alternating chapters between Fiona and Fi tell two stories about the same girl—hopes and dreams and crushes, fears and failures and loss. This beautifully written realistic contemporary novel with a twist is perfect for fans of If I Stay by Gayle Forman and Before I Fall by Lauren Oliver.

Self-Esteem and Foreign Language Learning deals with a topic which has been given surprisingly little attention in Second and Foreign Language Acquisition studies. Although there are several studies dealing with general education, this volume addresses the need to take self-esteem into consideration in the language classroom and adopts both theoretical/research and practical perspectives, with the hope of being useful for both researchers and practitioners. The book is organized into three main parts. Part I serves as an introduction to self-esteem. Part II reports on the existing literature about the theory and research dealing with self-esteem and foreign language learning, and Part III includes procedures for implementation and activities for classroom applications. Self-Esteem and Foreign Language Learning is edited by Fernando Rubio (PhD.), a researcher and teacher at the University of Huelva in Spain. Most of the chapters have been written by members of the research group "Affective factors in language learning", which has also published a book on Multiple Intelligences and the teaching of English (Dr. Jane Arnold, Dr. Carmen Fonseca, etc.). There are two outside contributions: one is by Andrew Wright, author of numerous publications for language teachers, and the other by Veronica de Andrés, teacher trainer from the University of El Salvador (Argentina) and member of the executive board of the International Council for Self-Esteem. Dr. Elaine Horwitz of the University of Texas has contributed a preface.
