Brest, 29 au 29 novembre 2000. C'est aujourd'hui une certitude que certaines vagues outrepassent en hauteur et en cambrure les prédictions fondées sur les modèles courants. L'amélioration de la compréhension des raisons, des mécanismes, et des circonstances de leur apparition se doit donc d'être une priorité de recherche. Le colloque Rogue Waves 2000 a rassemblé à Brest nombre des scientifiques et ingénieurs actifs sur le sujet, qui y ont trouvé l'occasion de confronter et discuter leurs avancées les plus récentes en termes de définition, de statistiques, de modélisation et de prédiction de ces vagues anormales. Mots-clés : vagues, extrêmes, non-linéarités, vagues anormales, vagues scélérates.

Following the extirpation of the peregrine falcon (*Falco peregrinus*) population in Virginia by the early 1960s and an aggressive restoration program during the 1970s and 1980s, the population has undergone a slow but steady recovery to more than 30 breeding pairs. Bridges have played a significant role in this recovery, consistently supporting more than 30% of the known population. Due to regulatory restrictions, this role has increased operational costs and caused concerns for bridge management and maintenance. One of the ongoing challenges faced by the Virginia Department of Transportation (VDOT) is the uncertainty and associated financial risk stemming from not knowing the occupancy status of many bridges. The objectives of this study were (1) to determine occupancy for bridges in the Coastal Plain, (2) to test a rapid survey protocol for determining occupancy, (3) to assess bridge characteristics that attract falcons to bridges, and (4) to conduct a retrospective assessment of current peregrine management techniques used on bridges. The authors conducted 166 surveys of bridges ( $n = 83$ ) in coastal Virginia using a call-broadcast protocol. Eleven (13.3%) bridges were occupied by falcons, including 10 pairs that produced 11 young. Broadcast calls were extremely effective in eliciting a response from falcons with nearly 60% and 100% of falcons responding within five and 30 seconds of call initiation, respectively. Occupied bridges were not a random subset of those surveyed but supported more potential nest sites, were longer and higher, and were embedded within landscapes with more foraging habitat compared to unoccupied bridges. Lift and draw bridges were particularly attractive, with 60% of those available supporting pairs. The current practice of installing nest boxes or trays has resulted in higher breeding success and reproductive output. Findings from this study have implications for reducing uncertainty in peregrine falcon management on bridges. Call-

broadcast surveys were effective and should be used to expand the set of bridges monitored annually to improve the planning and scheduling of maintenance projects. Current peregrine management techniques improve breeding performance but may also reduce maintenance conflicts and should be continued. The bridges identified in this study as occupied by falcons or that have a high potential to be occupied in the near future will be communicated to the appropriate VDOT staff.

The Handbook of Methods in Cultural Anthropology, now in its second edition, maintains a strong benchmark for understanding the scope of contemporary anthropological field methods. Avoiding divisive debates over science and humanism, the contributors draw upon both traditions to explore fieldwork in practice. The second edition also reflects major developments of the past decade, including: the rising prominence of mixed methods, the emergence of new technologies, and evolving views on ethnographic writing. Spanning the chain of research, from designing a project through methods of data collection and interpretive analysis, the Handbook features new chapters on ethnography of online communities, social survey research, and network and geospatial analysis. Considered discussion of ethics, epistemology, and the presentation of research results to diverse audiences round out the volume. The result is an essential guide for all scholars, professionals, and advanced students who employ fieldwork.

A Rose with Thorns By: R. R. Kendall About the Book Vengeance. That was all Gwen had wanted for as long as she could remember. She hardly recalled who she had been before the festering agony and pain of loss had twisted her heart and mind into something she hardly recognized, the burning hate consuming every part of her. The grief and bitter anguish she felt became her constant companions, steering her every step toward one sole purpose. She did not care who she would be when it was over. Nothing would stand in her way. All that mattered was that he ended up dead.

Christiani esse non licit. "It is not lawful to be a Christian!" From the time of Nero in the mid-first century, these four words hung over the heads of every Christian for the first three centuries of the nascent Church of the Christos, the God-man. To be a Christian was to be subject to execution. So it was... In 116 AD during the reign of the Emperor Trajan, Ignatius, bishop of Syrian Antioch, heard those four words sentencing him to death in the Roman Colosseum. His condemnation and martyrdom were witnessed by Gaius Segusivus, the "Peregrine," a wealthy Gallo-Roman merchant and Ignatius' lifelong and closest friend. Against the backdrop of Trajan's Roman Empire, Gaius is inexorably drawn into the Christian world as "The Way" spreads throughout the Empire and into Gaius' own family. We encounter the Christians of Rome, those in Asia and Bithynia; the emperor Trajan, successful in war, reshaping the face of Rome with his monumental building projects; the decorated centurion Maximus who befriends Gaius; the eloquent Roman senator, Pliny the Younger, through whose letters we live the lives of noble Romans; and a vengeful, banished son who will haunt the last days of the "Peregrine." Over the course of twenty years the lives of Gaius and Ignatius are increasingly intertwined: Ignatius the martyr who becomes one of the most famous and iconic of the early Church Fathers; Gaius who seeks understanding of his closest friend's faith, while fearing the possibility of hearing those deadly four words. History and fiction meet in a story of the love of two "brothers" and the Love that conquers all.

with the dead. Her lifelong ambition is to see a ghost. Inadvertently aiding her in this quest is her new assistant, Quentin Pike, world traveler, adventurer, and mapmaker, and Lydia Webkin, a septuagenarian comic book collector. Ghostly doings will ultimately unite Hesper and Quentin in romantic love, while Lydia, haunted by the spirit of a dead cartoonist with whom she had an affair forty years ago, attracts evil in the form of twins: Argus and Audrey Malvin, a deadly brother-and-sister team prone to grave-robbing, counterfeiting and malice. *Peregrine's Rest* is full of comic book and cemetery lore, and Gostin spikes the spooky intrigue with deft approaches to the question of whether we are bound to our bodies, or whether something survives.
