Building a Validity Argument for a Listening Test of Academic Proficiency Carson-Dellosa Publishing

This book presents the definitive exposition of 'prospect theory', a compelling alternative to the classical utility theory of choice. Building on the 1982 volume, Judgement Under Uncertainty, this book brings together seminal papers on prospect theory from economists, decision theorists, and psychologists, including the work of the late Amos Tversky, whose contributions are collected here for the first time. While remaining within a rational choice framework, prospect theory delivers more accurate, empirically verified predictions in key test cases, as well as helping to explain many complex, real-world puzzles. In this volume, it is brought to bear on phenomena as diverse as the principles of legal compensation, the equity premium puzzle in financial markets, and the number of hours that New York cab drivers choose to drive on rainy days. Theoretically elegant and empirically robust, this volume shows how prospect theory has matured into a new science of decision making.

Through the endless waltz of time, a man becomes a monster and a monster reclaims his humanity by saving one human soul. . . . 1863 Even the opium pipe and its dark dreams isn't enough to erase the memories that haunt Nathaniel Peregrine. His home destroyed, his wife and children butchered, his world shattered by civil war—he can find no reason to protect his soul from the intoxicating evil that pursues him. Willingly he bends his neck for the beautiful demon who will take away his pain and replace it with an otherworldly power too great and terrible to imagine. 1914 Years later, growing tired of living a vampire's restless existence, Peregrine travels to the wild island of Haiti, where shadow blends easily into the exotic flora and fauna.

There he meets Helen Fairweather, a woman who makes him yearn for a mortal life as he has not done for ages. The longing leads him to Dr. Lavalle, a man who may be able to give him back his soul. Once a foremost authority on diseases of the blood, the good doctor sets Peregrine on a steep descent that will end with salvation—or damnation. . . .

The New York Times #1 best-selling series. Includes 3 novels by Ransom Riggs and 12 peculiar photographs. Together for the first time, here is the #1 New York Times best seller Miss Peregrine's Home for Peculiar Children and its two sequels, Hollow City and Library of Souls. All three hardcovers are packaged in a beautifully designed slipcase. Also included: a special collector's envelope of twelve peculiar photographs, highlighting the most memorable moments of this extraordinary three-volume fantasy. MISS PEREGRINE'S HOME FOR PECULIAR CHILDREN: A mysterious island. An abandoned orphanage. A strange collection of very curious photographs. It all waits to be discovered in this groundbreaking novel, which mixes fiction and photography in a thrilling new kind of reading experience. As our story opens, a horrific family tragedy sets sixteen-year-old Jacob Portman journeying to a remote island off the coast of Wales, where he discovers the crumbling ruins of Miss Peregrine's Home for Peculiar Children. HOLLOW CITY: September 3, 1940. Ten peculiar children flee an army of deadly monsters. And only one person can help them—but she's trapped in the body of a bird. The extraordinary adventure continues as Jacob Portman and his newfound friends journey to London, the peculiar capital of the world. There, they hope to find a cure for their beloved headmistress, Miss Peregrine. But in this war-torn city, hideous surprises lurk around every corner. LIBRARY OF SOULS: A boy, a girl, and a talking dog. They're all that stands between the sinister wights and the future of peculiar children everywhere. Jacob Portman ventures through history one last time to rescue the peculiar children from a heavily guarded fortress. He's joined by girlfriend and firestarter Emma Bloom, canine companion Addison MacHenry, and some very unexpected allies.

Over the years, various approaches to validation have emerged in psychological and educational assessment research, which can be classified into traditional approaches and modern approaches. Traditional approaches view validity as a multicomponential concept including, for example, content, construct, and predictive validity, while modern approaches conceptualize it as a unitary concept evaluated through argumentation. Drawing on the modern approach, this book builds a validity argument for an International English Language Testing System (IELTS) listening test sample. The book provides some insights into the listening sub-skills that the test engages, the psychometric dimensionality of the test, variables that predict item difficulty parameters, bias across age, nationality, test experience, and gender, as well as predictive-referenced evidence of validity. A variety of techniques including the Rasch model and structural equation modelling are used to answer the research questions and to build a validity argument framework; this argument organizes the thematically related findings into a coherent treatment of the validity of the listening test. The book presents the first treatment of validity argument and related analytical tools in one volume and maps the psychometric/statistical analysis tools onto the validity argument framework. It also provides an extensive literature review of listening comprehension, validation, and psychometric modeling and proposes both methods for developing and validating self-assessment instruments and novel approaches to improving the quality of language assessments.
