R?ja-vidy? The Bhaktivedanta Book Trust Renunciation Through Wisdom is a collection of essays originally written in Bengali and published by Srila Prabhupada in India during

the 1940s. They were later translated into English by his disciples. In these essays Srila Prabhupada expands on themes found in the Bhagavad-gita, discussing such topics as why people are averse to God, the ultimate causes of suffering, and how the world's troubles are extraordinarily fleeting when seen from the standpoint of eternity. Students of Srila Prabhupada will recognize the same common-sense writing style in Renunciation Through Wisdom as in his later, well-known works such as Srimad-Bhagavatam and Bhagavad-gita As It Is, as well as his expertise at distilling the essence of India's ancient Vedic wisdom into powerful, convincing, practical, and easily readable directives.

Although there are many types of yoga practice, the Vedic literature explains that no matter which practice you choose, success is only achieved when bhakti is present. What is bhakti-yoga, and how can you add it to your life or your current yoga practice? As bhakti is a pivotal element in any yogic or religious practice, it is known as the topmost yoga. In the Bhagavad-gita, Krishna explains bhakti-yoga to his dear friend Arjuna, and here Srila Prabhupada expands these concepts in this introductory text.

Srila Prabhupada-lilamrta tells the story of a remarkable individual and a remarkable achievement. The individual is A. C. Bhaktivedanta Swami Prabhupada: philosopher, scholar, religious leader, saint. The achievement is the revolutionary transplantation of a timeless spiritual culture from ancient India to twentieth-century America. This first of two volumes begins with the story of the events leading up to Srila Prabhupada's meeting his guru, an encounter that ignited in Srila Prabhupada a slowburning flame of desire to take Krishna consciousness to the Western world. His early life was a period of patient and transcendent determination as he prepared for a mission that would later be crowned with astounding success. In August and September of 1965 Srila Prabhupada traveled alone aboard a steamship from India to New York City, with no more than the equivalent of eight dollars in his pocket and no institutional backing, but with unshakable faith in Lord Krishna and the instructions of his spiritual master. It is the 1960s, an era in which the children of those who fought World War II were leading a sweeping revolt against a society losing its soul to godless mass consumerism. Into this milieu Srila Prabhupada brought a vision for a new kind of society, a society born of a radical transformation of human

consciousness from materialism to the loftiest spiritual and ethical idealism. By 1967 he had arrived in San Francisco's Haight-Ashbury district, America's counter-culture capital, where he continued his work of calling America's youth to live up to their higher spiritual ideals and distributing the holy name of Krishna indiscriminately. By the end of the volume, we have seen Srila Prabhupada in England (meeting the Beatles), Holland, Japan, Africa, and finally back in India, where he triumphantly returned with his "dancing white elephants" – a group of his mostly Caucasian Western followers. The research team assembled by the author traveled throughout the world to gather thousands of hours of interviews with hundreds of people who knew Srila Prabhupada; diaries and memoirs from his students; and more than seven thousand of Srila Prabhupada's letters. Then the author and his team distilled this voluminous firsthand source material into a rich composite view of Srila Prabhupada, a dazzling and colorful picture of one of the most remarkable lives of our times.

From the flat earth to the sun's chariot - traditional spiritual texts seem wedded to outmoded cosmologies that show, at best, the scientific limitations of their authors. The Bhagavata Purana, one of the classical scriptures of Hinduism, seems, at first glance, to be no exception. However, a closer examination of this text reveals unexpected depths of knowledge in ancient cosmology. Mysteries of the Sacred Universe shows that the cosmology of the Bhagavata Purana is a sophisticated system, with multiple levels of meaning that encode at least four different astronomical, geographical, and spiritual world models. By viewing the text in the light of modern astronomy, Richard Thompson shows how ancient scientists expressed exact knowledge in apparently mythological terms. Comparison with the ancient traditions of Egypt and the Near East shows early cultural connections between India and these regions - including a surprisingly advanced science. However, quantitative science is only part of the picture. Mysteries of the Sacred Universe also offers a clear understanding of how the spiritual dimension was integrated

into ancient Indian cosmology.

The quality of our consciousness can go up or down based on how we see the world and act in it. When we act like the eternal spiritual beings that we are – small parts of a supreme whole – makes us happy. But if we focus our attempts at happiness on the temporary body and mind – on matter – and make those our life's priority, our consciousness will shrink and we 'll be miserable. Spiritual elevation – raising our consciousness to higher levels – happens quickly when we revive our God consciousness. In this compact book, Srila Prabhupada recommends seeing the world as it is – a temporary place full of anxiety – and then taking the road to higher consciousness by rediscovering our relationship with the Supreme Person, Krishna. Anyone can become elevated; the journey begins with a single step up.
