The centrality of
the King James
Bible to early
modern culture
has been widely
recognized. Yet
for all the vast
literature devoted
to the
masterpiece, little
attention has been
paid either to the
scholarly
scaffolding of the
translation or to
the erudition of
the translators.

The present volume seeks to redress this neglect by focusing attention on seven key translators as well as on their intellectual milieu. Utilizing a wide range of hitherto unknown or overlooked sources, the volume furnishes not only precious new information regarding the composition and early reception of the King James Bible, but firmly situates the labours of the translators within the broad context of early modern biblical and oriental scholarship and polemics. Contributors are James P. Carley,

Mordechai Feingold, Anthony Grafton, Nicholas J. S. Hardy, Alison Knight, Jeffrey Alan Miller, William Poole, Thomas Roebuck, and Joanna Weinberg. Urban Land Penguin Group
"Section of Intellectual Property Law, American Bar Association."
Labourers in the Vineyard of the Lord
Barnes & Noble Publishing
Private Peaceful
relives the life of Private Tommo Peaceful, a young First World War soldier awaiting the firing squad at dawn.

During the night he looks back at his short but joyful past growing up in rural Devon: his exciting first days at school; the accident in the forest that killed his father; his adventures with Molly, the love of his life; and the battles and injustices of war that brought him to the front line. Winner of the Blue Peter Book of the Year, Private Peaceful is by the third Children's Laureate, Michael Morpurgo, award-winning author

of War Horse. His inspiration came from a visit to Ypres where he was shocked to discover how many young soldiers were court-martialled and shot for cowardice during the First World War. This edition also includes introductory essays by Michael Morpurgo, Associate Director of Private Peaceful production Mark Leipacher, as well as an essay from Simon Reade, adaptor & director of this stage

adaptation of Private Peaceful.

Dermatology Made Easy
SUNY Press
Shows how Alfred the Great's translations of Latin works exposed Anglo-Saxon elites to classical learning and Christian thought while bringing prestige to the king and his West Saxon dialect.

Slob Proof!
Manchester University Press
Focusing on knowledge, science and literature in early modern Germany, this collection presents 12 essays on emerging epistemologies

regarding: the transcendent nature of the Divine; the natural world; the body; sexuality; intellectual property; aesthetics; demons; and witches.

The Structure of Argument
Springer
Sebastian Münster's *Cosmographia* was an immensely influential book that attempted to describe the entire world across all of human history and analyse its constituent elements of geography, history, ethnography, zoology and botany. First published in 1544

it went through thirty-five editions and was published in five languages, making it one of the most important books of the Reformation period. Beginning with a biographical study of Sebastian Münster, his life and the range of his scholarly work, this book then moves on to discuss the genre of cosmography. The bulk of the book, however, deals with the *Cosmographia* itself, offering a close reading of the 1550 Latin edition (the last and definitive edition worked upon by Münster). By analysing the

contents of the *Cosmographia* it attempts to recreate how the world of the sixteenth century appeared to a scholar living in Basel, and understand what he saw and heard. Through this examination of Münster, his publications and scholarly networks, the conflicts and continuities between medieval scholarly traditions and the widening horizons of the sixteenth century are explored and revealed. Of interest to scholars of humanist culture, the Reformation

and book history, this ambitious work throws into relief previously overlooked aspects of the intellectual and religious culture of the time.

New Living Rooms Springer Nature

The use of innovative new materials is an important trend in landscape architecture today. These materials include biodegradable geotextiles, super-absorbent polymers, and plants that react to changing soil conditions. This book presents

the available materials and technologies in the context of practical applications.

Storey's Guide to Raising Chickens

Springer

When people think of hiring an interior decorator to help them design a house, an apartment, or just a room, they often have stars in their eyes.

This is the opportunity to live out their dreams-maybe not Architectural Digest dreams, but at least House Beautiful, Country Living,

or House & Garden. Then they spend a lot of time and money, admire their gorgeous home for a week or two, then realize that the one thing they should have considered was making the place . . . slob proof. In Slob Proof! Deborah Weiner passes on to readers real-life home decorating solutions that were previously available only to her clients at Designing Solutions in Silver Spring, Maryland-the secrets her

husband and two sons taught her through years of sad experience. When you live with 'slobs'-basically, when you really live in your home, without designating off-limits rooms and furniture-you need to choose sofas and tables, carpets and tiling, curtains and blinds, and every other element you can think of that can stand the wear and tear of real life and still look great. In Slob Proof! readers will find so much

advice: is not an option- practice while
 •Decorate for the way you really live-not the way you'd like to live-and spend money now on pieces that wear and clean well. •Lifestyle comes first-toys may never be put away, clothes may always be thrown on the bedroom floor, and feet won't be wiped, so dirt and mud is probably going to be tracked in every day. Plan ahead so these things won't ruin your home! •If you've got kids or a black Lab, white upholstery

and beige carpeting is on the endangered list, too. •If you think your family belongs in an institution, get institutional carpet! •Colour is your friend-you can use it to camouflage everyday life. And good lighting is a close second-it brings colour to life. Got a sloppy spouse who loves to eat late-night snacks while reclining on the living room sofa? Do your kids use your once-gleaming hardwood floors for indoor hockey

you're at work? Do your beds double as trampolines? Let Deborah Weiner take you by the hand, from room to room of your real-life house, filled with comfortable, functional furnishings that will hold up to the live-and we're not talking about plastic covers here!

Handbook of Industrial Inkjet Printing BNA Books (Bureau of National Affairs) Unique in its integration of individual topics to achieve a full-

system approach, this book addresses all the aspects essential for industrial inkjet printing. After an introduction listing the industrial printing techniques available, the text goes on to discuss individual topics, such as ink, printheads and substrates, followed by metrology techniques that are required for reliable systems. Three iteration cycles are then described, including the adaptation of the ink to the printhead, the optimization of the ink to the substrate and the integration of machine manufacturing, monitoring, and data handling, among others. Finally, the book

summarizes a number of case studies and success stories from selected areas, including graphics, printed electronics, and 3D printing as well a list of ink suppliers, printhead manufacturers and integrators. Practical hints are included throughout for a direct hands-on experience. Invaluable for industrial users and academics, whether ink developers or mechanical engineers, and working in areas ranging from metrology to intellectual property. *Living Spaces* Ashgate Publishing, Ltd. A concise overview of the common dermatological conditions most

likely to present in general medicine From reviews: "... a perfect solution to the constant struggle that dermatology diagnosis presents to primary care physicians and other providers... This well-formatted book covers a vast array of topics ranging from common to rare skin disorders. The pictures are immensely helpful in the understanding of various skin rashes...." *Fam Med* 2019;51(5):451–452 . "... easy to read and informative. One cannot emphasise enough the quality and comprehensive nature of the photographic content.... As

someone who was interested in dermatology even as a medical student my only regret is that this book was not around when I was a student as it would have very adequately guided me into my beloved subspecialty.”
Ulster Med J 2017;86(3):1–1.
“The introduction outlines dermatological conditions by symptom, morphology and body site, providing an excellent index prior to delving into greater detail in the following chapters. The logical approach and level of detail make this text perfect for medical students, interns/residents, primary care

physicians and other specialists who wish to quickly identify differential diagnoses or refresh their knowledge of dermatological conditions.” A Lecturer in Dermatology Made Easy is based on the hugely popular DermNet New Zealand website and is designed to help GPs, medical students and dermatologists diagnose skin conditions with confidence. The book starts by providing a series of comprehensive tables, complete with over 500 thumbnail photos, to aid diagnosis according to symptoms, morphology, or

body site. Once you have narrowed down the diagnosis, cross-references then guide you to more detailed descriptions, and another 700 photographs, covering: common infections inflammatory rashes non-inflammatory conditions skin lesions Every section provides consistent information on the disorder: who gets it and what causes it? what are the clinical features and does it cause any complications? how do you diagnose it? how do you treat it and how long does it take to resolve? The book concludes with a comprehensive section on further investigations and

treatment options. Dermatology Made Easy combines the essential focus of the Made Easy book series with the authority and knowledge base of DermNet New Zealand's unparalleled resources. Printed in full colour throughout.

Living a Beautiful Life

Springer Science & Business Media
A writer whose work regularly appears in House Beautiful and Home introduces you to a whole new way of thinking about decorating. Her strategy: the problem in one area can solve a problem in

another. Rearrange spaces and uses, change lighting, switch adult and kids' living areas, house your hobby in your guest room, and much more. Before-and-after photos with call-out illustrations highlight each possible change. *Building Your Own Home For Dummies* CreateSpace
This book presents the story of a unique collection of 140 manuscripts of 'learned magic' that was sold for a fantastic sum within the clandestine channels of the German book

trade in the early eighteenth century. The book will interpret this collection from two angles – as an artefact of the early modern book market as well as the longue-durée tradition of Western learned magic –, thus taking a new stance towards scribal texts that are often regarded as eccentric, peripheral, or marginal. The study is structured by the apparent exceptionality, scarcity, and illegality of the collection, and provides chapters on clandestine activities in European book

markets, questions of magic, cultural of censorship regimes and efficiency, the use of manuscripts in an age of print, and the history of learned magic in early modern Europe. As the collection has survived till this day in Leipzig University Library, the book provides a critical edition of the 1710 selling catalogue, which includes a brief content analysis of all extant manuscripts. The study will be of interest to scholars and students from a variety of fields, such as early modern book history, the history

history, the sociology of religion, or the study of Western esotericism. The Wabi-Sabi House John Wiley & Sons This New York Times bestselling book is filled with hundreds of fun, deceptively simple, budget-friendly ideas for sprucing up your home. With two home renovations under their (tool) belts and millions of hits per month on their blog YounghouseLove.com, Sherry and John Petersik are home-improvement enthusiasts primed to pass on a slew of projects,

tricks, and techniques to do-it-yourselfers of all levels. Packed with 243 tips and ideas—both classic and unexpected—and more than 400 photographs and illustrations, this is a book that readers will return to again and again for the creative projects and easy-to-follow instructions in the relatable voice the Petersiks are known for. Learn to trick out a thrift-store mirror, spice up plain old roller shades, "hack" your Ikea table to create three distinct looks, and so much more. Nonhuman

voices in Anglo-Saxon literature and material culture

readers to packed ideas for their very own home. Home Decor Series is a collection of ten titles that are electric and stylish devoted to interior design and decoration that is presented in a handy format.

Elements of Social Organization
BRILL

Back by popular demand, these classic woodworking titles from Fine Woodworking magazine are filled with first-rate information that is as

timeless now as it was when first published. This is an essential reference for carpenters who hang doors every week or once a year, and it's perfect for beginners who want to learn the right way from the start. Good carpentry depends on simple techniques, each performed in a precise order. And Installing and Hanging Doors follows that order, describing in clear, easy-to-follow language and photographs

the step-by-step process of hanging doors and installing hardware. Getting a door to hang perfectly doesn't have to be a time-consuming struggle, however. *Installing and Hanging Doors* offers proven production methods and custom techniques collected from other finish carpenters and from the author's own trial and error. Even if you've never hung a door before, *Installing*

and *Hanging Doors* can make door hanging easy and enjoyable. And experienced carpenters will appreciate the depth of information provided in *Installing and Hanging Doors*, including: Choosing a door Hinges and hardware Installing jambs Installing prefit doors Hanging doors from scratch *Essentials of weatherstripping* **Atomic Ranch** BRILL Includes proceedings of

the Royal Society of London, Royal Society of Edinburgh, etc *Installing and Hanging Doors* Gibbs Smith Vernacular architecture represents a great resource that has considerable potential to define principles for sustainable design and contemporary architecture. This publication is the result of an overall aim to produce a valuable tool for analysis regarding vernacular heritage through

different assessments, in order to define principles to consider for sustainable development. This was possible through a comprehensive reflection on the principles established and the strategies to recognise in different world contexts. The present publication was the result of an in-depth approach by 46 authors from 12 countries, concerned with the analysis and critical assessment of

vernacular heritage and its sustainable perspective. The book presents 8 chapters addressing operational definitions and synopses advances, regarding the main areas of vernacular heritage contribution to sustainable architecture. It also presents 15 chapters and 53 case studies of vernacular and contemporary approaches in all the 5 continents, regarding urban, architectural, technical and

constructive strategies and solutions. VERSUS, HERITAGE FOR TOMORROW: Vernacular Knowledge for Sustainable Architecture is the result of a common effort undertaken by the partners ESG | Escola Superior Gallaecia, Portugal, as Project leader; CRAterre | École Nationale Supérieure d'Architecture de Grenoble, France; DIDA | Università degli Studi di Firenze, Italy; DICAAR | Università degli

Studi di Cagliari, Italy; and UPV | Universitat Politècnica de València, Spain. This is the final outcome of VerSus, an European project developed from 2012 to 2014, in the framework of the Culture 2007-2013 programme.

homesite * Navigate the plan approval process * Obtain financing * Hire the right contractor * Cut design and construction costs * Avoid common mistakes
Magical Manuscripts in Early Modern Europe
Bloomsbury Publishing
This book deals with basic and clinical aspects of monoamine oxidase (MAO) subtypes A and B highlighting its importance in neurological and psychiatric diseases. Consequently the therapeutic actions

of MAO-A and -B inhibitors in Parkinson's disease (PK) and depression are the focus of several chapters. As MAO is the basis of the development of the "oxidative stress hypothesis" of PD, several chapters are devoted to iron and iron-induced oxidative stress in various experimental studies and clinical conditions. Based on these findings, new compounds have been developed which not only block MAO, but are in addition, either inhibitors of acetylcholine esterase or have iron chelating properties. The aspect of "preclinical" and "clinical" neuro

protection as well as MAO neuroprotection are additional topics covered in this book. MAO, iron and neuroprotection are seen in the framework of general anti Parkinson's therapy with chapters on levodopa, dopaminergic receptor agonists and clinical issues.
