The 6 cylinder, 7 litre Perkins 1106
range of ElectropaK engines gives you
all the power you need for electric
power generation. The engines in the
range share a common platform with
the option of mechanical and common
rail fuel systems enabling use of the
same platform over different
emissions territories. Reliable,
dependable and with a low cost of
ownership, the engines can cope with
variations in fuel quality that occur in
different parts of the world.
