This comprehensive
volume examines the
nature, causes, and
consequences of
state religion
policy in 183
countries between
1990 and 2014. Each
contribution uses
round 3 of the
Religion and State
dataset which
includes information
on 117 distinct
state religion
policies. Secular
and religious forces
in society and
government compete
in order to
influence state
religion policy in a
vibrant religious
economy. While
governments are more
involved in religion
in 2014 than they
were in 1990, most

states both added and
dropped religion
policies during this
period. This is
important because
these policies impact
on a number of
important political,
social, and economic
phenomena. In this
collection the
authors examine the
impact of state
religion policies on
interstate
militarized disputes,
violent domestic
conflict, terrorism,
and voting for
political parties.
They also examine
some of the factors
that influence state
religion policy,
including the
attitudes of citizens
toward religion and
religious minorities,
free and open
elections, and having

an independent judiciary. This book was originally published as a special issue of the journal Religion, State & Society.

Spearhead of Logistics is a narrative branch history of the U.S. Army's Transportation Corps, first published in 1994 for transportation personnel and reprinted in 2001 for the larger

Army community. The Quartermaster Department coordinated transportation support for the Army until World War I revealed the need for a dedicated corps of specialists. The newly established Transportation Corps, however, lasted for only a few years. Its significant utility for coordinating military transportation became again transparent during World War II, and it was resurrected in mid-1942 to meet the unparalleled logistical demands of fighting in distant theaters. Finally becoming a permanent branch in 1950, the Transportation Corps continued to demonstrate its capability of rapidly supporting U.S. Army operations in global theaters over the next fifty years. With useful lessons of high-quality support that validate the necessity of adequate transportation in a viable national defense posture, it is an important resource for those now involved in military transportation and movement for ongoing expeditionary operations. This text should be useful to both officers and noncommissioned

officers who can take examples from the past and apply the successful principles to future operations, thus ensuring a continuing legacy of Transportation excellence within Army operations. Additionally, military science students and military historians may be interested in this volume.

Travel with Olympic gold medalist Jessie Diggins on her compelling journey from America's heartland to international sports history, navigating challenges and triumphs with rugged grit and a splash of glitter Pyeongchang, February 21, 2018. In the nerve-racking final seconds of the women's team sprint freestyle race, Jessie Diggins dug deep. Blowing past two of the best sprinters in the world, she stretched her ski boot across the finish line and lunged straight into Olympic immortality: the first ever cross-country skiing gold medal for the United States at the Winter Games. The 26-year-old Diggins, a four-time World Championship medalist, was literally a world away from the small town of Afton, Minnesota, where she first strapped on skis. Yet, for all her history-making achievements, she had never strayed far from

the scrappy 12-year-old who had insisted on portaging her own canoe through the wilderness, yelling happily under the unwieldy weight on her shoulders: "Look! I'm doing it!" In *Brave Enough*, Jessie Diggins reveals the true story of her journey from the American Midwest into sports history. With candid charm and characteristic grit, she connects the dots from her free-spirited upbringing in the woods of Minnesota to racing in the bright spotlights of the Olympics. Going far beyond stories of races and ribbons, she describes the challenges and frustrations of becoming a serious athlete; learning how to push through and beyond physical and psychological limits; and the intense pressure of competing at the highest levels. She openly shares her harrowing struggle with bulimia, recounting both the adversity and how she healed from it in order to bring hope and understanding to others experiencing eating disorders. Between thrilling accounts of moments of triumph, Diggins shows the determination it takes

to get there—the struggles and disappointments, the fun and the hard work, and the importance of listening to that small, fierce voice: I can do it. I am brave enough.

Urban Peacebuilding In Divided Societies

Urban Peacebuilding in Divided Societies explores the effects of urban policy and planning in the management of ethnic conflict in strife-torn societies, focusing on the cases of Belfast and Johannesburg. It combines perspectives from urban geography, political science, social psychology, and urban planning to study the relationship between ethnic ideologies and the urban strategies that affect ethnic territoriality in the form of urban land use, housing, economic development, services, and citizen involvement. The book contrasts Belfast, embedded within an uncertain shift from conflict to political

settlement, with Johannesburg, engaged in post-resolution reconciliation, to analyze, along different points of societal transition, the contributions of urban policymaking to peacemaking and peacebuilding. It describes the differing rolesobstructive or facilitativethat contested cities can play amidst broader peacemaking efforts, consistent with Bollens contention that there are lessons in urban peacebuilding for constructing mutually tolerable living environments at the regional and national levels. Effectively, cities (and urban policies) are the locus for operationalizing national ideologies of ethnic coexistence. } Urban Peacebuilding in Divided Societies explores the effects of urban policy and planning in the management of ethnic conflict in strife-torn societies, focusing on the cases of Belfast and Johannesburg.
