Marine Diesel Basics 1: Maintenance, Lay-Up, Winter Protection, Tropical Storage and Spring Recommission Top-Down Technicals, Macro Trading, not only builds upon the growing contributions by Arun S. Chopra, CFA, CMT to the world of market research and analysis, it outlines his process, displays his past successes, and highlights the advanced nature of his firm's work. It's a taught and highly informative discussion of the yen that also serves as the starting point for his forthcoming market observation book series. Inside Top-Down Technicals, Macro Trading, The Yen 2012, financial professionals and enthusiasts will find a detailed explanation of how they can take real-time market information to confirm macro-based trading and investment ideas. Chopra combines past editions of his monthly publication, "The Tape," with a closer look at an entire macro setup in order to create a high-level view of a macroeconomic, top-down technical cycle. The end result aids readers in

expanding upon simple, long-term trading levels, and introduces new concepts of how assets trade relative to one another based on macroeconomic principles. His discussion of these long-term charts and macroeconomic relationships, as well as intermarket analysis, shows readers how to optimize the strategies and timeliness of their setups. The result: not only will you better understand Chopra's methodologies, you will also gain practical insight into the potential power of a setup on its related markets.
