I'm trying to check the fuel pump timing (it is a Perkins AD3 152), because the engine is almost unstartable, it smokes badly when I give it throttle, it runs like crap (certainly not on all 3 or it is de-timed) and it sounds like it exhausts in the intake at low RPM (I can't say idle because it's too

rough to be called so).

There is a hole in bell housing on left side of engine but have also read there is marks on the pullys. Need to know this as this spot will be where I point the timing light. I believe the continental and perkins have different timing mark locations and that's why I cant seem to get a definitive answer. Any help is appreciated.

Re: Perkins Fuel Injection Pump Timing Problem I take back that I'm happy and satisfied with my retarded IP timing. My engine doesn't start nearly as easy as it used to when cold and it doesn't seem to have the power that I had before exchanging IP's.
