Solved: Bring window to front in Tk GUI in Windows ...

Perl Script to find & copy words from Web. I need to write a perl script to search for a specific set of numbers that occur after a series of words but before another. Specifically, I need to locate the phrase today at the summit, then immediately prior to the words tonnes/day copy the number that will be between 100 and 9,999, for example,... 7.

Using Perl to read Microsoft Word documents Perl; 1 Comment. 1 Solution. 893 Views. Last Modified: 2012-08-13. I have some code that uses Tk. It launches a word document then closes it. Problem is when it closes the word document the tk window falls back to where other apps are on top of it. I need the tk window to be the top most window after the word document closes.

Besides, since the content is in HTML, it can be assembled with any HTML tool, and therefore also requires little knowledge of Perl. One word of warning, however : opening MHT documents in MsWord is a bit slower than native binary or RTF documents, because MsWord needs to parse the HTML, compute the layout and convert it into its internal ...
