Each anatomic site in the *Topography Sect. of the Internat. Class. of Disease for Oncology -- 3rd Ed. (ICD-0-3)* has a corresponding summary staging scheme. Certain specific histologic types also have specific staging schemes. In some cases, sites which previously had separate guides (such as the segments of the colon) have a single staging scheme (colon), whereas some sites which previously had a single guide (e.g., larynx) have separate schemes for

each sub-site of the larynx. *Moody's Bank and Finance Manual McGraw Hill Professional The Definitive Guide to Membrane Bioreactors for Wastewater Treatment This Water Environment Federation resource presents best practices for the use of membrane bioreactors for wastewater treatment.
