Companion to:
Reason, morality,
and beauty.
Perpetual Peace,
and Other Essays
on Politics,
History, and
Morals University

of Wales Press
This volume
critically examines
and elucidates the
complex
relationship
between politics
and teleology in
Kant's
philosophical
system. Examining
this relationship is
of key
philosophical
importance since
Kant develops his
political
philosophy in the
context of a
teleological
conception of the
purposiveness of
both nature and
human history.
Kant's approach
poses the dual task
of reconciling his
normative political

theory with both his
priori moral
philosophy and his
teleological
philosophy of
nature and human
history. The
fourteen essays in
this volume, by
leading scholars in
the field, explore
the relationship
between teleology
and politics from
multiple
perspectives.
Together, the essays
explore Kant's
normative political
theory and legal
philosophy, his
cosmopolitanism
and views on
international
relations, his theory
of history, his
theory of natural
teleology, and the

broader relationship between morality, history, nature and politics in Kant's works. This important new volume will be of interest to a wide audience, including Kant scholars, scholars and students working on topics in moral and political philosophy, the philosophy of history, political theory and political science, legal scholars and international relations theorists, as well as those interested broadly in the history of ideas.

Essays on Kant
Franklin

Classics Trade Press

An Essay on Kant's Theory of Evil shows the centrality of the doctrine of radical evil within Kant's critical philosophy. Combining textual accuracy with systematic ethical theory, it fills the gaps Kant left open in his own doctrine, and provides a non-mystifying account of h...

Perpetual War for Perpetual Peace
Vintage

This edition includes two important texts illustrating Kants's

view of history along with notes and a comprehensive bibliography. *Human Rights, Peace, Progress* Hackett Publishing Company Incorporated Immanuel Kant's views on politics, peace, and history have lost none of their relevance since their publication more than two centuries ago. This volume contains a comprehensive collection of Kant's writings on international relations theory and political philosophy, superbly translated and accompanied by stimulating essays. Pauline Kleingeld provides a lucid introduction to the main themes of the volume, and

three essays by distinguished contributors follow: Jeremy Waldron on Kant's theory of the state; Michael W. Doyle on the implications of Kant's political theory for his theory of international relations; and Allen W. Wood on Kant's philosophical approach to history and its current relevance.

Kant's Idea for a Universal History with a Cosmopolitan Aim
Cambridge University Press

This is the first book dedicated to a systematic exploration of Kant's position on colonialism. Bringing together a team of leading

scholars in both the history of political thought and normative theory, the chapters in the volume seek to place Kant's thoughts on colonialism in historical context, examine the tensions that the assessment of colonialism produces in Kant's work, and evaluate the relevance of these reflections for current debates on global justice and the relation of Western political thinking to other parts of the world.

Selected Essays

Routledge
This Element tries to answer three

questions about Kant's guarantee thesis by examining the 'first addendum' of his Philosophical Sketch; how the guarantor powers interrelate, how there can be a guarantee without undermining freedom, why there is a guarantee in the first place. Kant's conception of an interplay of human and divine rational agency encompassing nature is crucial: on moral grounds, we are warranted to believe the 'world author' knew that if he brought about the world, the 'supreme' good

would come about too. Perpetual peace is the condition enabling the supreme good to be realized in history.

Essays on the Philosophy of Immanuel Kant

OUP Oxford

Jefferson's

Political

Philosophy and the Metaphysics of Utopia argues that Jeffersonian republicanism was

fundamentally a political philosophy, content-rich and globally applicable.

Jefferson's philosophy is fleshed out and

critically analyzed by examining key writings over the years and philosophically important books Jefferson assimilated.

Saving

Oxford

Mansfield's

translation of this classic work, in combination with the new material added for this edition, makes it the definitive version of *The Prince*,

indispensable to scholars, students, and lovers of the dark art of politics.

To Perpetual

Peace Cambridge

University Press

Pacifism is

popular. Many hold that war is unnecessary, since peaceful

means of resolving conflict are always

available, if only we had the will to

look for them. Or they believe that

war is wicked, essentially

involving hatred of the enemy and carelessness of

human life. Or they posit the

absolute right of innocent

individuals not to be deliberately

killed, making it impossible to

justify war in practice. Against

the virus of

wishful thinking, and that love and the
ti-
military caricature,
and the
domination of
moral deliberation
by rights-talk In
Defence of War
asserts that
belligerency can
be morally
justified, even
while it is tragic
and morally
flawed.
Recovering the
early Christian
tradition of just
war thinking, it
argues in favour of
aggressive war in
punishment of
grave injustice;
that morality can
justify military
intervention even
in transgression of
positive
international law
(e.g., Kosovo);

doctrine of double
effect can survive
combat; that the
constraints of
proportionality are
sufficiently
permissive to
sanction Britain's
belligerency in
1914-18; and that
the invasion of
Iraq in 2003 was
justified.
Kant and
Colonialism
Cambridge
University Press
The extent to which
humanitarian
intervention has
become a
legitimate practice
in post-cold war
international
society is the
subject of this
book. It maps the
changing legitimacy
of humanitarian
intervention by

comparing the
international
response to cases
of humanitarian
intervention in the
cold war and post-
cold war periods.
Crucially, the book
examines how far
international society
has recognised
humanitarian
intervention as a
legitimate exception
to the rules of
sovereignty and non-
intervention and
non-use of force.
While there are
studies of each
case of intervention-
in East Pakistan,
Cambodia, Uganda,
Iraq, Somalia,
Rwanda, Bosnia
and Kosovo-there is
no single work that
examines them
comprehensively in
a comparative
framework. Each
chapter tells a story
of intervention that

weaves together a study of motives, justifications and outcomes. The legitimacy of humanitarian intervention is contested by the 'pluralist' and 'solidarist' wings of the English school, and the book charts the stamp of these conceptions on state practice. Solidarism lacks a full-blown theory of humanitarian intervention and the book supplies one. This theory is employed to assess the humanitarian qualifications of the cases of intervention analysed in the book, and this normative assessment is then compared to the moral practices of states. A key focus

is to examine how far humanitarian intervention as a legitimate practice is present in the diplomatic dialogue of states. In exploring how far there has been a change of norm in the society of states in the 1990s, the book defends the broad based constructivist claim that state actions will be constrained if they cannot be legitimated, and that new norms enable new practices but do not determine these. The book concludes by considering how far contemporary practices of humanitarian intervention support a new solidarism, and how far this resolves the traditional conflict

between order and justice in international society. The Universal Library Oxford University Press Through a reexamination of Immanuel Kant and his philosophical legacy, this volume explores the philosophic presuppositions of the possibility of progress and our belief in reason's capacity not only to improve the material well-being of humanity but also to promote our true vocation as moral beings. *Kant and the Possibility of Progress* Rowman & Littlefield Introduction by Mary Oliver Commentary by Henry James,

Robert Frost, Matthew Arnold, Oliver Wendell Holmes, and Henry David Thoreau. The definitive collection of Emerson's major speeches, essays, and poetry, *The Essential Writings of Ralph Waldo Emerson* chronicles the life's work of a true "American Scholar." As one of the architects of the transcendentalist movement, Emerson embraced a philosophy that championed the individual, emphasized independent thought, and prized "the splendid labyrinth of one's own perceptions." More than any writer of his time, he forged a style distinct from his European

predecessors and embodied and defined what it meant to be an American. Matthew Arnold called Emerson's essays "the most important work done in prose." INCLUDES A MODERN LIBRARY READING GROUP GUIDE *Essential Readings in World Politics* MIT Press *Essays on Kant* contains a collection of seventeen essays written by Henry E. Allison, one of the world's leading scholars on Kant. Although these essays cover virtually the full spectrum of Allison's work on Kant, most of them revolve around three basic themes:

the nature of transcendental idealism and its relation to other aspects of Kant's thought; freedom of the will; and the concept of the purposiveness of nature. The first two themes are intended as clarifications, elaborations, and further developments of Allison's previous work on Kant, while the essays on the third theme demonstrate the central place of Kant's 'critical' philosophy in his thought. Allison places Kant's views in their historical context and explores their contemporary relevance to present day philosophers.

Enlightenment Shadows
Cambridge University Press
This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally

available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The Radical Enlightenment in Germany Franklin Classics
The essays in this volume discuss the questions at the core of Kant's pioneering work in the philosophy of

history.

In Defence of War Oxford University Press
Attempts to find common ground between the language of morality and the language of strategy, considering fundamental values and their role in world peace

The Fate of Self-Government in Europe Hackett Publishing
This book focuses on Kant's analysis of three issues crucial for contemporary politics. Starting from a new

reading of Kant's account of our innate right to freedom, it highlights how a Kantian foundation of human rights, properly understood and modified where necessary, appears more promising than the foundational arguments currently offered by philosophers. It then compares Kant's model for peace with the apparently similar model of democratic peace to show that the two are profoundly different in

content and in quality. The book concludes in analysis of Kant's controversial view of history to rescue it from the idea that his belief in progress is at best over-optimistic and at worst dogmatic. Congratulations to Professor Luigi Caranti and his book 'Kant's Political Legacy' which has been given a 'honorable mention' by the North American Kant Society in the competition for the best 2018 book on Kant!!
