series follows two children as they learn that sometimes the best way to get what you want is to share. Mike likes Jenny's bike, but he doesn't know how to ride one. He's too afraid to tell her that, so he tries to learn how to ride it on his own. That only makes trouble for them both. *Mike and the Bike* is a book for beginning readers that shows how young people can overcome their fears--together.

A dark and twisted psychological tale, which Kirkus Reviews called "captivating to the very end" in a starred review—perfect for fans of *I Hunt Killers* and *Gone Girl*.

Max Cantrell has never been a big fan of

the truth, so when the opportunity arises to sell forged permission slips and cover stories to his classmates, it sounds like a good way to make a little money. So with the help of his friend Preston and his girlfriend, Parvati, Max starts *Liars, Inc.* Suddenly everybody needs something, and the cash starts pouring in. Who knew lying could be so lucrative? When Preston wants his own cover story to go visit a girl he met online, Max doesn't think twice about it. But then Preston never comes home. And the evidence starts to pile up—terrifying clues that lead to Preston's body. Terrifying clues that point to Max as the killer....

Packed with relevant, real-world illustrations and cases, **QUALITY AND PERFORMANCE EXCELLENCE**, 6e

presents the basic principles and tools associated with quality and performance excellence through cutting-edge coverage that includes the latest thinking and practices from the field. This proven text has three primary objectives: familiarize students with the basic principles and methods, show how these principles and methods have been put into effect in a variety of organizations, and illustrate the relationship between basic principles and the popular theories and models studied in management courses. Extremely flexible and student friendly, the text is organized according to traditional management topics, helping students quickly see the connections between quality principles and management theories. Excellent case studies give students practical experience

working with real-world issues. Many cases focus on large and small companies in manufacturing and service industries in North and South America, Europe, and Asia-Pacific. Karlology McGraw Hill Professional Six Sigma has taken the corporate world by storm and represents the thrust of numerous efforts in manufacturing and service organizations to improve products, services, and processes. Although Six Sigma brings a new direction to quality and productivity improvement, its underlying tools and philosophy are grounded in the fundamental principles of total quality and continuous improvement that have been used for many decades. Nevertheless, Six Sigma has brought

a renewed interest in quality and improvement that few can argue with, and has kept alive the principles of total quality developed in the latter part of the 20th Century. AN INTRODUCTION TO SIX SIGMA AND PROCESS IMPROVEMENT, 2e shows students the essence and basics of Six Sigma, as well as how Six Sigma has brought a renewed interest in the principles of total quality to cutting-edge businesses. Are we all at the mercy of our brain chemistry? Do you think that the amygdala and the hippocampus are fantastical sea monsters? What can an MRI scan tell us? Could you explain to dinner-party guests why we don't giggle when we tickle ourselves? 30-Second Brain is here to fill your mind with the science of exactly what's happening inside your head. Using

no more than two pages, 300 words and an illustration, this is the quickest way to understand the wiring and function of the most complex and intricate mechanism in the human body. Discover how the networks of 90 billion nerve cells work together to produce perception, action, cognition and emotion. Explore how your brain defines your personality, and what it gets up to while you are asleep. Illustrated with mind-bending graphics and supported by biographies of pioneers in the field of neuroscience, it's the book to get your grey matter thinking about your grey matter.

When death washes ashore on reality TV, who's to blame? "When I heard the premise of *Cut Reality*, I almost died...and I wouldn't lie about that." - Jonny Fairplay, *Survivor* NSFW

Join Jason Debord as he seeks clarity following the death of a reality TV co-star and ends up uncovering criminal conspiracy. When Jason returned home from competing on *Beached* he'd lost weight, couldn't sleep, and felt more alone than ever. But, he expected those changes. Jason had no way to predict that one of his fellow competitors would fling himself from a cliff. Unless he didn't. Jason can't believe it, but the network broadcasts the alleged suicide to the world, so he pushes forward in his own amateur investigation. Met with resistance from the cast and crew, he persists only through the support of his developing romance with Blake, a psychologist who observes alarming similarities between her patient and her partner. Events in *Cut Reality* have a variety of interpretations. While under the watchful eye of the public, Jason has to decide: is what he uncovers too coincidental to be true, or so hard to accept because it's his new reality. Buy *Zack Hacker's* anticipated debut novel to find out what Jason discovers... What critics are saying: "On the surface, *Cut Reality* is a murder mystery; but actually it is much

more...Highly recommended for those who like their intrigue steeped in philosophical insights and dilemmas." - Midwest Book Review "[Zack Hacker] makes poignant critiques though subtle plot developments, holding back from judging society at large, but willing to poke holes in some of our accepted values...From the first tension-filled scene...Cut Reality will keep readers guessing, but also leave them with plenty to think about." - SPR "The perfect genre book at the perfect time." - San Francisco Book Review "Cut Reality is the type of thoughtful, provocative work that you don't see much of in the reality TV fanbase anymore. I had a lot of fun reading it." - Mario Lanza, author of When It Was Worth Playing For, The Funny 115, and host of Survivor Historians "????? I have always

loved books that can surprise me - this book did that and more." - Readers' Favorite Reviews
