NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of the MyLab(TM)and Mastering(TM) platforms exist for each title, and registrations are not transferable. To register for and use MyLab or Mastering, you may also need a Course ID, which your instructor will provide. Used books, rentals, and purchases made outside of Pearson If purchasing or renting from companies other than Pearson, the access codes for the MyLab platform may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase. For courses in Personal Finance. This ISBN is for the MyLab combo card, which includes the MyLab access card, Pearson eText, and loose-leaf print edition (delivered by mail). A hands-on approach to financial planning The main feature of Personal Finance is its hands-on approach keyed to the concepts students need to build their own financial plans. The text's seven parts are all pieces of a financial plan; Chapter 21 is the capstone. A running example throughout the book and a variety of end-of-chapter cases reinforce the practical aspects of planning. The 7th Edition is fully updated with recent financial trends, such as lower interest rates, changing salaries, and rules for credit card use. With case studies and workable examples throughout, this book is an active tool students can use to become comfortable managing their finances into the future. Personalize learning with MyLab Finance By combining trusted author content with digital tools and a flexible platform, MyLab personalizes the learning experience and improves results for each student.

Personal Finance Lampo

Straight-up, jargon-free advice on personal finance for those made nauseous by the phrase "personal finance." What the hell's a stock? A bond? A mutual fund? And why do I need to know? Is it better to start investing, or pay off that lingering credit card balance? Should I borrow money to buy a bungalow? A Jaguar? A jalopy? How? What's so great about compound interest anyway? Is the price of this book tax-deductible? The Green Magazine Guide to Personal Finance answers these questions and provides savvy, sensible money advice for anyone who doesn't want to wade through lots of b.s. Ken Kurson, editor of the critically acclaimed Green magazine, demystifies all types of personal financial matters--investing, retirement planning, credit card debt, student loans, first-time home buying, insurance, taxes--as well as providing valuable information on learning to live within your means, dealing with deadbeat roommates or spendthrift boyfriends, and putting on a cheap wedding. Ken Kurson's engaging yet always pragmatic money-speak is enlivened with real-life examples, pie charts, comics, and dead-on humor. His advice doesn't always sound like Dad's, but it's every bit as solid. The Green Magazine Guide is the only book that speaks to all those who are cynical, intimidated, or simply flummoxed about money matters.

Personal Finance in the United States Rich Brott

Encourage students to apply financial concepts to their own lives. Chapters include explanations and student activities focusing on banking, insurance, and investments.

Personal Financial Literacy John Wiley & Sons

Are you a high school student, soon to be a graduate and heading off to college or to work full time? Or are you a parent looking for a good introduction to personal finance for your son or daughter? Many people wish that they had been given guidance on money matters before they'd finished school. This book answers that need. In "Personal Finance for Teens" Carol H. Cox offers practical advice on how to build a rock-solid financial foundation for life after high school. Now is the time for young adults to get a handle on their finances, before life gets more complicated. Carol covers how to choose, open, and manage a student checking account; network, write resumes, and impress interviewers; control spending and achieve savings goals; build a high-ranking credit score and manage credit cards wisely; assess the cost of car ownership and select an affordable car; evaluate college from a financial perspective; and take advantage of time and start building a retirement account now. This book is a great reference tool for any library and a great graduation present for recent or soon-to-be grads. "Personal Finance for Teens" is the book that every teen should read before leaving home.

The Infographic Guide to Personal Finance Cengage Learning

The modern-day college student is receiving the best education that has ever existed in history. Teaching methods and grading procedures have never been better than they are now. A fact that is reflected by literacy rates across the world. While colleges do a great job producing the professionals that brought us countless scientific revolutions, they do an abysmal job at preparing college students for the "real world." And the terminology usually refers to the lack of personal finance

curriculum in the current education system. A contrary argument could be made for this position, saying that it's the parents' job to teach their children how to be responsible with money. But this point is lost when you consider that parents don't like talking about money with their children. Finances have become a taboo topic at the dinner table. How many of my readers know how much money their parents make? How many know where their parents have their money invested? Lastly, how many are genuinely prepared to enter the workforce and compete with others who have more experience? It is precisely the answers to these questions that this book is meant to rectify. Topics such as paying for college, investing, building wealth, negotiating a raise, and saving money are all covered in this short introduction to personal finance. Topic Covered: - Paying for college- Resume enhancement techniques- Interview preparation- Debt repayment strategies- Credit card churning- Building wealth- Investing- Tax advantage accounts- Real estat
