"Our calling is to drop our egos, commit

to removing barriers, and treat our learners with the unequivocal respect and dignity they deserve." --Mirko Chardin and Katie Novak When it comes to the hard work of reconstructing our schools into places where every student has the opportunity to succeed, Mirko Chardin and Katie Novak are absolutely convinced that teachers should serve as our primary architects. And by "teachers" they mean legions of teachers working in close collaboration. After all, it's teachers who design students' learning experiences, who build student relationships . . . who ultimately have the power to change the trajectory of our students' lives. Equity by Design is intended to serve as a

blueprint for teachers to alter the all-too-predictable outcomes for our historically under-served students. A first of its kind resource, the book makes the critical link between social justice and Universal Design for Learning (UDL) so that we can equip students (and teachers, too) with the will, skill, and collective capacity to enact positive change. Inside you'll find: Concrete strategies for designing and delivering a culturally responsive, sustainable, and equitable framework for all students Rich examples, case studies, and implementation spotlights of educators, students (including Parkland survivors), and programs that have embraced a social justice imperative Evidence-based application of best practices for UDL to create more inclusive and equitable classrooms A flexible format to facilitate use with individual teachers, teacher teams, and as the basis for whole-school implementation "Every student," Mirko and Katie insist, "deserves the opportunity to be successful regardless of their zip code, the color of their skin, the language they speak, their sexual and/or gender identity, and whether or not they have a disability." Consider Equity by Design a critical first step forward in providing that all-important opportunity. Emergency Preparedness

Illustrated by the Author. Contents:

Preface; How to Be Happy Through Rich or Poor; Rocks You are Likely to Bump on; Rovering. 'To sum up in a few words, success does not consist so much in gaining money and power as in gaining happiness. Many young men drift along with the rest of the crowd according to chance, and thus never reach happiness. From being passive be active. Don't drift. Take your own line. Paddle your own canoe. Only mind the rocks Avoid them by cultivating other qualities. Powell explains the 'rocks you are likely to bump on

(Through herd temptation) Horses, betting and looking on at false sports. Wine, and other forms of self indulgence. Women, dangers of a wrong attitude and blessing of the right one. Extremists in politics, irreligion, etc. Powell elaborates on the antidotes to the 'rocks (through individual effort) active hobbies, earning money, self-control, character, chivalry, health of mind and body, service for your fellow-men and for God. 'If you aim for it by practicing these safeguards, instead of being stranded among the rocks, you will win success and happiness. These and dozens of other inspiring maxims make this extraordinary book a useful companion for Scouts and Scout Leaders.
