Health planning reports subject index. pt. 4, 1980
In this volume, leading researchers and trainers in multicultural counselling and psychology address the issues of what makes a counsellor multiculturally competent and how to create more culturally competent counsellors. The contributors consider ways to evaluate counsellors for their awareness, knowledge and skills in working with a broad spectrum of populations. Chapters also examine in detail the pedagogical implications of establishing competencies, including training philosophies and models as well as course and curriculum development.
