"PETSTM (Primary Education Thinking Skills) is a systematized enrichment and diagnostic thinking skills program. Lessons are presented in convergent analysis, divergent synthesis, visual/spatial thinking, and evaluation, suitable for grades K-3. The program aligns to the higher levels of Bloom's Taxonomy. PETSTM 1, the red book, introduces the six thinking specialists of Crystal Pond Woods: Dudley the Detective, the convergent/deductive thinker, Isabel the Inventor, the divergent/inventive thinker, Sybil the Scientist, the convergent/analytical thinker, Yolanda the Yarnspinner, the

divergent/creative thinker, Max the Magician, the visual/spatial thinker, Jordan the Judge, the evaluative thinker. Included in the 24 lessons are encounters with the animal characters who are engaged in problem-solving scenarios calling for their types of thinking -- four lessons involving each character (two whole class lessons to help identify talented learners with accompanying reproducible activities, and two small group lessons for identified students and accompanying reproducible activities). PETSTM helps build behavioral portfolios for talented learners that support a differentiated approach to their education, integrates flexibly into any existing primary curriculum, and offers opportunities for learners with different strengths to shine"--Amazon.com.

This gentle and heartwarming story captures the love between a boy and his dog, and the sadness that follows

---

after his cherished dog passes away. Written in the form of a letter from the dog to the boy, the letter shares relatable, real life examples of how the boy (and therefore anybody who has lost a dear pet) may be feeling and suggestions on what he can do to help himself get through this most difficult time. The letter also touches on simple acts of kindness that can follow the reader throughout his or her lifetime. The message in this story is applicable to young and old, girl or boy, and to any family pet that has stolen your heart. Story starters, drawing pages, and a place to add pictures of your own beloved pet are also included in the back of the book. "This sweet and meaningful book is sure to support the whole family. The author has taken care to capture what it's like for a child to lose a friend and impart a message of hope." --Kathleen Cooney, Veterinarian and end of life specialist "Dear Brave Friend is a beautiful way to talk with children about pet loss. The story line and illustrations are powerful tools that give a child's heart permission to know that they might feel a certain way, and it's perfectly acceptable. Coupled with the practical workbook at the end, this book has it all--not only for children and parents, but for all ages! This is a "highly recommend" read for every pet lover!" --Coleen A. Ellis, Pet Loss Pioneer Two Hearts Pet Loss Center

Leader Effectiveness Training: L.E.T. (Revised)  
Cambridge University Press

In the world of dogs, there is now more awareness than ever of the need to provide enrichment, especially in shelters. But what exactly is

enrichment? The concept is pretty straightforward: learn what your dog 's needs are, and then structure an environment and routine that allows them to engage in behaviors they find enriching. To truly enrich your dog 's life, you should offer them opportunities to engage in natural or instinctual behaviors. Aside from the limitations we have to place on a dog in today 's modern, busy world, the biggest constraint to enriching your dog 's life is your imagination! What the experts say about Canine Enrichment: Don 't let the word "enrichment" in the title fool you into thinking that the scope of this book is too narrow or not something you will find valuable. It focuses comprehensively on meeting your dog 's needs and is written in a holistic, science-based, practical, straightforward, and easy-to-understand way. I love this book! Ken Ramirez, author of Animal Training: Successful Animal Management Through Positive Reinforcement Canine Enrichment is a deep dive into what dogs really need and how we can provide it. It 's a great book for dog lovers who want to go beyond the standard superficialities of "dogs need exercise." Just the chapter on agency is worth the price of the book! Patricia McConnell, Ph.D., CAAB Emeritus, author of The Other End of the Leash and The Education of Will The scope of this book is ambitious and the authors deliver, navigating the subject of enrichment with depth and relevance. Caregivers will gain critically
