In the late 1970s, Richard convinced his wife, Sandra, that they should leave their promising professional careers and comfortable suburban lifestyle to start an azalea nursery in the foothills of the Blue Ridge Mountains. With no horticultural training or business experience, few mechanical skills, and absolutely no idea what they were getting themselves into, numerous adventures followed. In the second book in the planned four-book series, Richard continues the couples colorful story, a story of triumph and despair, of high expectations and harsh reality, and of the people who touched their lives along the way. In the tradition of such classics as *The Little House on the Prairie* and *Waltons Mountain*, *Mountain of My Dreams* shares the true story of two ordinary people and their memorable, often remarkable 25-year journey. Much more than just another back-to-the-land chronicle, this is a heartwarming tale of a man, a woman, and their belief in each other. If youve ever wondered why the less-traveled road is less traveled, you need to read their story.
