On the evening of May 16, 1937, the train doors opened at the Porte Dor é e station in the Paris M é tro to reveal a dying woman slumped by a window, an eight-inch stiletto buried to its hilt in her neck. No one witnessed the crime, and the killer left behind little forensic evidence. This first-ever murder in the Paris M é tro dominated the headlines for weeks during the summer of 1937, as journalists and the police slowly uncovered the shocking truth about the victim: a twenty-nine-year-old Italian immigrant, the beautiful and elusive Laetitia Toureaux. Toureaux

toiled each day in a factory, but spent her nights working as a spy in the seamy Parisian underworld. Just as the dangerous spy Mata Hari fascinated Parisians of an earlier generation, the mystery of Toureaux's murder held the French public spellbound in pre-war Paris, as the police tried and failed to identify her assassin. In *Murder in the M é tro*, Gayle K. Brunelle and Annette Finley-Croswhite unravel Toureaux's complicated and mysterious life, assessing her complex identity within the larger political context of the time. They follow the trail of Toureaux's murder investigation to the Comit é Secret d'Action R é volutionnaire, a secret right-wing political organization popularly known as the Cagoule, or "hooded ones." Obsessed with the Communist threat they perceived in the growing power of labor unions and the French left wing, the Cagoule's leaders aimed to overthrow France's Third Republic and install an authoritarian regime allied with Italy. With Mussolini as their ally and Italian fascism as their model, they did not shrink from committing violent crimes

and fomenting terror to accomplish their goal. In 1936, Toureaux -- at the behest of the French police -- infiltrated this dangerous group of terrorists and seduced one of its leaders, Gabriel Jeantet, to gain more information. This operation, the authors show, eventually cost Toureaux her life. The tale of Laetitia Toureaux epitomizes the turbulence of 1930s France, as the country prepared for a war most people dreaded but assumed would come. This period, therefore, generated great anxiety but also offered new opportunities -- and risks -- to Toureaux as she embraced the identity of a "modern" woman. The authors unravel her murder as they detail her story and that of the Cagoule, within the popular culture and conflicted politics of 1930s France. By examining documents related to Toureaux's murder -- documents the French government has sealed from public view until 2038 -- Brunelle and Finley-Croswhite link Toureaux's death not only to the Cagoule but also to the Italian secret service, for whom she acted as an informant. Their research provides likely answers to

the question of the identity of Toureaux's murderer and offers a fascinating look at the dark and dangerous streets of pre--World War II Paris.

If you just heaved a contented sigh at Mr. Darcy's heartfelt words, then you, dear reader, are in good company. Here is a delightful collection of never-before-published stories inspired by Jane Austen—her novels, her life, her wit, her world. In Lauren Willig's "A Night at Northanger," a young woman who doesn't believe in ghosts meets a

familiar specter at the infamous abbey; Jane Odiwe's "Waiting" captures the exquisite uncertainty of Persuasion's Wentworth and Anne as they await her family's approval of their betrothal; Adriana Trigiani's "Love and Best Wishes, Aunt Jane" imagines a modern-day Austen giving her niece advice upon her engagement; in Diana Birchall's "Jane Austen's Cat," Jane tells her nieces "cat tales" based on her novels; Laurie Viera Rigler's "Intolerable Stupidity" finds Mr. Darcy bringing charges against all the writers of Pride and Prejudice sequels, spin-offs, and retellings; in Janet Mullany's "Jane Austen, Yeah, Yeah, Yeah!" a teacher at an all-girls school invokes the Beatles to help her students understand Sense and Sensibility; and in Jo Beverley's "Jane and the Mistletoe Kiss," a widow doesn't believe she'll have a second chance at love . . . until a Miss Austen suggests otherwise. Regency or contemporary, romantic

or fantastical, each of these marvelous stories reaffirms the incomparable influence of one of history's most cherished authors. The Truths We Hold U of Nebraska Press

Nancy Silverton's Pastries from the La Brea Bakery HarperCollins
The John Edwards – Rielle Hunter affair made headlines for years. "One of the biggest political scandals of all time," "a fall from grace," "a modern-day tragedy"—it's a story that has been reported, distorted, and spun over and over again by the media, by political aides, by the U.S. government, by supposed friends. However, there is someone who actually knows the truth, someone who lived it from day one—the woman at the heart of the story itself: Rielle Hunter. In the New York Times, Wall Street Journal, and Publishers Weekly bestseller What Really Happened, Hunter offers an extremely personal account of her relationship with John Edwards: the facts of how they actually met, how their accidental love started and escalated, what it was like to fall in love with a married man who decided to run for president, the surprise of becoming pregnant during the campaign, how the affair became public, the extensive cover-up, and finally, what happened in the

years after Edwards publicly admitted to being the father of their daughter, Frances Quinn. Meet Edwards's political players and get an intimate look at how they really operated. Learn about the evolution of "friends," enablers, and do-gooders, their involvement with the affair and Edwards's 2008 presidential campaign, and where the money from Rachel "Bunny" Mellon and Fred Baron actually went. This book doesn't spin the truth to achieve a prettier picture or a better story. It isn't about changing anyone's mind. It's simply the facts, the truth of what really happened.

Essential reading for our times, as women are pulling together to demand their rights— A landmark portrait of women, men, and power in a transformed world. "Anchored by data and aromatized by anecdotes, [Rosin] concludes that women are gaining the upper hand." — The Washington Post
Men have been the dominant sex since, well, the dawn of mankind. But Hanna Rosin was the first to notice that this long-held truth is, astonishingly, no longer true. Today, by almost every measure, women are no longer gaining on men: They have pulled decisively ahead. And "the end of men"—the title of Rosin's Atlantic cover story on the subject—has entered the lexicon as dramatically as Betty Friedan's "feminine mystique," Simone de Beauvoir's "second sex," Susan Faludi's "backlash," and Naomi Wolf's "beauty myth" once did. In this

landmark book, Rosin reveals how our current state of affairs is radically shifting the power dynamics between men and women at every level of society, with profound implications for marriage, sex, children, work, and more. With wide-ranging curiosity and insight unhampered by assumptions or ideology, Rosin shows how the radically different ways men and women today earn, learn, spend, couple up—even kill—has turned the big picture upside down. And in The End of Men she helps us see how, regardless of gender, we can adapt to the new reality and channel it for a better future.

When Jose Canseco burst into the Major Leagues in the 1980s, he changed the sport -- in more ways than one. No player before him possessed his mixture of speed and power, which allowed him to become the first man in history to belt more than forty home runs and swipe more than forty bases in the same season. He won Rookie of the

Year, Most Valuable Player, and a World Series ring. Canseco shattered the mold of the out-of-shape baseball player and ushered in a new era of superathletes who looked like bodybuilders, made outrageous salaries, and enjoyed rock-star lifestyles. And the ticket for this ride? Steroids. Behind the gaudy stats and the glamour of his public life, Canseco cultivated a secret just about everyone in MLB knew about, one that would alter the game of baseball and the way we view our heroes forever. Canseco made himself a guinea pig of the performance-enhancing drugs that were only just beginning to infiltrate the American underground. Anabolic steroids, human growth hormones -- Canseco mixed, matched, and experimented to such a degree that he became known throughout the league as "The Chemist." He passed his knowledge on to trainers and fellow players, and before long, performance-enhancing drugs were

running rampant throughout Major League Baseball. Sluggers scooping up pitches at their ankles and blasting them out of the park, pitchers cranking fastballs inning after inning -- Canseco showed the players how to customize their doses to sculpt the bodies they wanted, and baseball as we know it was the result. Today, this issue has crept out of the closet and burst into the headlines as players balloon to herculean proportions and hundred-year-old records are not only broken, but also demolished. In this shocking memoir, Canseco sheds light on a life of dizzying highs and debilitating lows, provides the answers to questions about steroids that millions of fans are only now beginning to ask -- and suggests that, far from being a passing trend, the steroid revolution is only a taste of things to come. Who's juiced? According to Canseco's authoritative account, more than you think. And baseball will never be the same.

NEIL GAIMAN: 'Glorious. A story that will be found and enjoyed and dreamed about for years to come' A celebration of friendship, courage and imagination inspired by Alice in Wonderland, The Chronicles of Narnia and The Wizard of Oz.

It all starts on the morning the letter D disappears from the language. First, it vanishes from her parents' conversation at breakfast, then from the road signs outside. Soon the local dentist and the neighbour's Dalmatian are missing, and even the Donkey Derby has been called off. Though she doesn't know why, Dhikilo is summoned to the home of her old history teacher Professor Dodderfield and his faithful Labrador, Nelly Robinson. And this is where our story really begins. Set between England and the wintry land of

Liminus, a world enslaved by the monstrous Gamp and populated by fearsome, enchanting creatures, D (Tale of Two Worlds) is a mesmerising tale of friendship and bravery in an uncertain world. Told with simple beauty and warmth, its celebration of moral courage and freethinking is a powerful reminder of our human capacity for strength, hope and justice. 'Dhikilo is a splendid heroine for our time: She stands for kindness, honesty and humanity' DIANE SETTERFIELD 'Young adult readers will love it, but Faber's brio and bubbly ingenuity will delight adult readers too.' James Naismith was teaching physical education at the Young Men's Christian Association Training College in Springfield, Massachusetts, and felt

discouraged because calisthenics and gymnastics didn't engage his students. What was needed was an indoor wintertime game that combined recreation and competition. One evening he worked out the fundamentals of a game that would quickly catch on. Two peach half-bushel baskets gave the name to the brand new sport in late 1891.

Basketball: Its Origin and Development was written by the inventor himself, who was inspired purely by the joy of play. Naismith, born in northern Ontario in 1861, gave up the ministry to preach clean living through sport. He describes Duck on the Rock, a game from his Canadian childhood, the creative reasoning behind his basket game, the eventual refinement of rules and development of equipment, the spread of amateur and professional teams throughout the world, and the growth of women's basketball (at first banned to male spectators because the players wore bloomers). Naismith lived long enough to see basketball included in the Olympics in 1936.

Three years later he died, after nearly forty years as head of the physical

education department at the University of Kansas. This book, originally published in 1941, carries a new introduction by William J. Baker, a professor of history at the University of Maine, Orono. He is the author of *Jesse Owens: An American Life and Sports in the Western World*.
