the chair by Eames – designers

---

make things into cult objects and become icons themselves. But who knows which coupé was designed by Frua, which limousine by Engel, which station wagon by Opron? For a long time, car design was considered to be anonymous, the designers stood in the shadow of the perception of the design, even though their designs can be found on the roads in millions. This richly illustrated book captures the origin of a profession and maps the development of car design based on a comprehensive introduction and the career biographies of over 200

selected designers who contributed to the design of cars and many different associated products in the USA, Europe, and Japan between 1900 and 2000.

## TWENTY-FIRST CENTURY'S FUEL SUFFICIENCY ROADMAP

Penguin UK

Singapore's best homegrown car magazine, with an editorial dream team driving it. We fuel the need for speed! Parentology Maggioli Editore  
La contabilizzazione dei costi del personale rappresenta, anche per gli addetti ai lavori, un'operazione non sempre

facile e spesso fonte di dubbi: la presente guida ha l'obiettivo di illustrare, in maniera semplice e mediante l'ausilio di esempi pratici, come contabilizzare il costo del personale, evitando problematiche legate al non corretto appostamento delle voci nel bilancio di esercizio – soprattutto in presenza di eventi particolari, come la malattia, gli infortuni e così via – e alle conseguenti ripercussioni, in termini di imposizione fiscale. In virtù di questa considerazione, al fine di appostare correttamente tutte quelle voci di bilancio utili al

---

calcolo delle imposte, è necessario valutare gli aspetti relativi agli oneri contributivi ed assicurativi, al fine dell' eventuale deduzione dalla base imponibile IRAP. La disamina, alle cui fondamenta soggiacciono i principi contabili, si caratterizza per il gran numero di esempi – che, di fatto, rappresentano una sintesi delle casistiche più comuni che possono incontrarsi in azienda – volti a consentire un rapido approccio al lettore, soprattutto in quelle situazioni di particolare urgenza, come nel caso di dover calcolare il costo per esigenze di budget.

Viene, infine, proposto un caso concreto di contabilizzazione del costo, partendo dal cosiddetto “ cedolone ” , vale a dire il riassunto avvenuto nel periodo di lavoro considerato. Andrea Sergiacomo Dottore commercialista, Revisore legale dei conti, Mediatore civile, componente della Commissione cooperative O.D.C.E.C. di Roma e componente della Commissione diritto societario O.D.C.E.C. di Tivoli. Svolge attività pubblicistica per riviste specializzate in materia di bilancio, fisco e operazioni straordinarie.

This e-book details

---

the most interesting and important characteristics of the automobiles, car maintenance, styling features, car body style, the standard classification of the cars, an history of the automobiles, introduction in the automotive industry, and the traffic code, rules and signs. An automobile, usually called a car (an old word for carriage) or a truck, is a wheeled vehicle that carries its own engine. Older terms include horseless carriage and motor car, with "motor" referring to what is now usually called the engine. It has seats for the driver and, almost without exception, for at least one passenger. The automobile was hailed as an environmental improvement over horses when it was first introduced. Before its introduction, in New York City, over 10,000 tons of manure had to be removed from the streets daily. However, in 2006 the automobile is one of the primary sources of worldwide air pollution and cause of substantial noise and health effects.

Communications: A  
Brand Narrative  
Approach is a  
mainstream, student-  
driven text which  
gives prominence to  
the driving force  
of all Marketing  
Communications: the  
imperative of  
Branding. The book  
aims to engage  
students in an  
entertaining,  
informative way,  
setting the  
conceptual  
mechanics of

---

Marketing Communications in a contemporary, dynamic context. It includes key current trends such as: Brand narrative approach - Cases such as Dove, Harley-Davidson, Nike and World of War Craft feature real-life, salient examples which are engaging for students and reflect the growth of co-authored brand 'stories' to help build and maintain brands by customer engagement through meaningful dialogues. Media neutral/multi-media approach - This text has a sound exploration of online and offline synergy combining one-message delivery and multi-media exposures, through examples of companies and political campaigns using 'non-traditional' media to reach groups not locking into 'normal channels'. This brand new text features an impressive mixture of real-life brand case studies underpinned with recent academic research and market place dynamics. The format is structured into three sections covering analysis,

---

planning and  
implementation and  
control of  
Marketing  
Communications.  
Using full colour  
examples of brands,  
and student-  
friendly diagrams,  
the book  
acknowledges that  
the modern student  
learns visually as  
well as through  
text.
