**Generating Aviation Oxygen For The Army  
Air Forces In North Africa, Bari And Foggia**

R. Barri Flowers

An insider's guide: how to join the Roman  
legions, wield a gladius, storm cities, and  
conquer the world Your emperor needs you  
for the Roman army! The year is AD 100 and  
Rome stands supreme and unconquerable  
from the desert sands of Mesopotamia to the  
misty highlands of Caledonia. Yet the might of  
Rome rests completely on the armored  
shoulders of the legionaries who hold back  
the barbarian hordes and push forward the

frontiers of empire. This carefully researched  
yet entertainingly nonacademic book tells you  
how to join the Roman legions, the best places  
to serve, and how to keep your armor from  
getting rusty. Learn to march under the eagles  
of Rome, from training, campaigns, and battle  
to the glory of a Roman Triumph and  
retirement with a pension plan. Every aspect of  
army life is discussed, from drill to diet, with  
handy tips on topics such as how to select the  
best boots or how to avoid being skewered by  
enemy spears. Combining the latest  
archaeological discoveries with the written  
records of those who actually saw the Roman  
legions in action, this book provides a vivid  
picture of what it meant to be a Roman  
legionary.

Handbook of Sleep Research,  
Volume 30, provides a  
comprehensive review of the  
current status of the neuroscience  
of sleep research. It begins with an  
overview of the neural, hormonal  
and genetic mechanisms of sleep  
and wake regulation before  
outlining the various proposed

functions of sleep and the role it  
plays in plasticity, and in learning  
and memory. Finally, the book  
discusses disorders of sleep and  
waking, covering both lifestyle  
factors that cause disrupted sleep  
and psychiatric and neurological  
conditions that contribute to  
disorders. Emphasizes a  
comparative and multidisciplinary  
approach to the topic of sleep  
Covers the neurobiology and  
physiology of sleep stages,  
mechanisms of waking, and  
dreaming Discusses in detail the  
proposed functions of sleep, from  
health and rest, to memory  
consolidation and synaptic plasticity  
Examines the current state of  
research in mammalian and non-  
mammalian species, ranging from  
primates to invertebrates  
The Autocar Good Press  
A guide to the protection of electrical equipment  
from electrical shock, designed to amplify the  
particular requirements of the 16th Edition Wiring  
Regulations. It is extensively cross-referenced to  
the Regulations thus providing easy access, and  
has been updated to align with BS 7671:2001.

The Official Guide of the Railways and Steam Navigation Lines of the United States, Porto Rico, Canada, Mexico and Cuba

Institution of Electrical Engineers  
This is the Wartime story of Leo Elwood Phillips (1920-2013), one of 11 brothers and sisters that grew up during the Great Depression on a small farm near the Village Of Palestine in Darke County, Ohio. Raised by his mother Bessie after the death of his father Matthew in 1932 from pneumonia, he worked the family farm until graduating from Palestine High School in 1938. He subsequently moved to 19 South Sixth Street in the small Ohio city of Miamisburg to live with his sister Beulah and work as a paper cutter. On 14 May 1942, Leo enlisted as a Private in the Army Air Corps at Patterson Field in Fairfield (Fairborn), Ohio, “ ... For The Duration Of The War Or Other Emergency, Plus Six Months, Subject To The Discretion Of The President Or Otherwise According To The Law ...” On 6 June 1942, Leo started classroom training with 12 students at the Bertram School Of Gases, Independent Engineering Company of O’Fallon, Illinois. It is here he became

an oxygen and acetylene plant operator - learning to pass air through a series of units that compressed it, removed carbon dioxide, moisture, oil content, and separated liquid air into nitrogen and oxygen. Then, moving liquid oxygen or nitrogen into expansion chambers and finally, compressing oxygen into high pressure cylinders for military aviation use. He completed formal classroom instruction in O’Fallon on the 10th of July and then performed on-the-job training in the Company’s factory until the 17th of September, 1942. From the 2nd to the 16th of November Leo traveled on the troopship SS Monterey from Staten Island, New York to Casablanca, French Morocco, as part of Operation Torch. Shortly after arrival his unit started generating oxygen and filling oxygen cylinders for use on Army Air Forces aircraft such as the B-17 Flying Fortress, B- 24 Liberator and P-38 Lightning. On 30 November 1942, Leo and a number of men he trained with at O’Fallon were transferred from Headquarters and Headquarters Detachment to the 41st Service Group, within the XII Air Force Service Command - a part of Twelfth (XII) Air Force. On 12 February

1943, Leo and his unit were transferred from Detachment XII Air Force Service Command (AFSC) to the 37th Air Depot Group (ADG). On 24 August they were again transferred, this time from Air Force General Depot #3 to Depot #5 within the 37th ADG, XII AFSC. On 26 September 1943, they were transferred (without travel) from the 37th ADG to Headquarters and Headquarters Squadron, 17th Air Depot Group, as part of their anticipated move to recently liberated southern Italy. By August of 1943, newly promoted Sergeant Phillips was generating and filling aviation oxygen in Tunisia and by December was doing the same in southern Italy. All but four of the next 22 months Leo was stationed in and around Bari and Foggia. By mid-1944, all oxygen plant operators in the Mediterranean Theatre of Operations were now attached to the 15th Air Force Service Command (AFSC) Oxygen Detachment, or one of the many Service Groups part of the 15th Air Force. Leo and his men were part of the Oxygen Detachment. From January through October of 1944, the 15th AFSC Oxygen Detachment and Service Groups stationed in Italy collectively filled 225,119 (standard

---

220 cubic foot) cylinders. The Oxygen Detachment alone was responsible for filling 109,804 – almost half of the total number of cylinders in the Theatre. On 19 November 1944, Leo was promoted to his highest rank, Staff Sergeant (Temporary), while attached to the 18th Air Depot Group. From December 1944 to March 1945, Phillips was sent stateside to Patterson Field near Dayton, Ohio. During this time Leo reported on the status of oxygen generation and use in the Mediterranean Theatre of Operations. While at the Field he also learned how to operate a moisture collector for testing oxygen. He had furloughs during this period from 22 to 29 December 1944 and 22 January to 5 February 1945. For much of this time Leo stayed on Oxford Avenue in Dayton, thus, was able to spend much of his free time with his mother, brothers and sisters now living nearby. Leaving for home permanently on 26 September 1945, Phillips traveled from Naples to New York on the refitted former Italian cruise liner Vulcania. This diesel-powered ship, on its maiden voyage as an allied troopship, was manned by Italian officers and crew. The ship carried 4,057

Americans, including 3,200 Army officers and enlisted men, 557 members of the WAC and 300 nurses. After arriving at Staten Island on 4 October, every soldier was transported to Camp Kilmer in New Brunswick, New Jersey - the largest processing center for troops heading overseas and returning home from World War II. Next, Leo left for Camp Atterbury, Indiana. After further processing to complete the transition from soldier to civilian, Staff Sergeant Phillips received an Honorable Discharge from the 41st Depot Replacement Squadron located at the Separation Center, on 10 October 1945. Soon after coming back home to Miamisburg Leo married Audrey Constance (Case) Phillips and had two children. Audrey was the sister of one of Leo's closest friends during the War - Ronald A. Case. Leo worked for Burdett Oxygen Company and retired from the Dayton-headquartered bicycle manufacturer Huff Corporation after 17 years of faithful service. Leo passed on 4 September 2013, after living a rich life which also included tenure as President of the Moose Lodge in Miamisburg, member of St. George's

Episcopal Church, Centerville and the love of family, friends, golf, and traveling.

King Philip's War--one of America's first and costliest wars--began in 1675 as an Indian raid on several farms in Plymouth Colony, but quickly escalated into a full-scale war engulfing all of southern New England. At once an in-depth history of this pivotal war and a guide to the historical sites where the ambushes, raids, and battles took place, King Philip's War expands our understanding of American history and provides insight into the nature of colonial and ethnic wars in general. Through a careful reconstruction of events, first-person accounts, period illustrations, and maps, and by providing information on the exact locations of more than fifty battles, King Philip's War is useful as well as informative. Students of history, colonial war buffs, those interested in Native American history, and anyone who is curious about how this war affected a particular New England town, will

find important insights into one of the most seminal events to shape the American mind and continent.

### **American Book Publishing Record Cumulative, 1876-1949** Elsevier Health Sciences

The Complete Book of Classic MG Cars covers all the marque's collectible production saloons and sports cars, from the 14/28 and 14/40 sports cars to the iconic postwar convertibles like the MGA and MGB, as well as latter-day takes on the classic MG formula, such as the RV8. First produced in Oxford, England, in 1924, MG cars proved instantly appealing, with a cheeky spirit that would win the hearts of millions around the globe, not least of all in the United States. This was due in no small part to the fact that the price was as

attractive as the styling and the performance. Inexpensive and fun became quintessential MG traits. In this installment of Motorbooks' Complete Book series, author Ross Alkureishi offers a chronological model-by-model marque history. Narratives discuss design, production, and technology, while specification tables highlight key technical and performance data. Hundreds of photos illustrate the vehicles and even include detail shots of engine bays and interiors. Originally formed as a side business, MG became one of the world's most recognized car brands. From prewar saloons to fast and affordable two-seat sports cars in the pre- and postwar periods, MG has exuded fun, thanks to models like the Midgets and Magnettes, the traditionally styled T-Types, and the vehicles that would become the marque's most recognizable: the MGA, MGB, and MGC. MG would undergo several ownership changes throughout the years, and Alkureishi expertly shows how different ownership groups affected MG cars, good or bad. Along the way, the company competed on racetracks around the world, and Alkureishi describes the most successful of these exploits in complementary sidebars. The Complete Book of Classic MG Cars is the essential guide to this important chapter in the history of motoring.

Stay on top of the latest scientific and therapeutic advances with the new edition of Leibel and Phillips Textbook of Radiation Oncology. Dr. Theodore L. Phillips, in collaboration with two new authors, Drs. Richard Hoppe and Mack Roach, offers a multidisciplinary look at the presentation of uniform treatment philosophies for cancer patients emphasizing the "treat for cure" philosophy. You can also explore the implementation of new imaging techniques to locate and treat tumors, new molecularly targeted therapies, and new types of treatment delivery. Supplement your reading with online access to the complete contents of the book, a downloadable image library, and more at expertconsult.com.

Gather step-by-step techniques for assessing and implementing radiotherapeutic options with this comprehensive, full-color, clinically oriented text. Review the basic principles behind the selection and application of radiation as a treatment modality, including radiobiology, radiation physics, immobilization and simulation, high dose rate, and more. Use new imaging techniques to anatomically locate tumors before and during treatment. Apply multidisciplinary treatments with advice from experts in medical, surgical, and radiation oncology. Explore new treatment options such as proton therapy, which can facilitate precise tumor-targeting and reduce damage to healthy tissue and organs. Stay on the edge of technology with new chapters on IGRT, DNA damage and repair, and molecularly targeted therapies.

Poor's Manual of Railroads DigiCat

An excellent value atlas featuring fully updated cartography from Philip's digital database, which has been voted Britain's clearest and most detailed mapping in an independent consumer survey and now includes speed camera locations. This atlas includes all the mapping features normally included only in more expensive road atlases. The front section includes route-planner, distance table, legend, London street map, chart of motorway junctions with restricted access, and key map. The road map section includes 96 pages of large-scale

mapping covering Britain at 3 miles to 1 inch (north Scotland at 4 miles to 1 inch), marking all fixed speed cameras as well as full road network and town and village details. The town plan section includes 53 town centre maps, marking car parks and places of interest. The comprehensive index includes 28,000 names. Main map scale: 3 miles to 1 inch

From award-winning criminologist R. Barri Flowers and bestselling author of *Murder During the Chicago World's Fair*, *Murder of the Doctor's Wife*, *Murder at the Pencil Factory*, and *The Pickaxe Killers*, comes the gripping historical true crime short, *Murderess on the Loose: The 1922 Hammer Wrath of Clara Phillips*. On the evening of Wednesday, July 12, 1922, Los Angeles, California, was the scene of a shocking and deadly assault. The victim was an attractive twenty-one-year-old widow named Alberta Meadows. Her death came as the result of a vicious hammer and boulder attack on a twisting dirt road at the bottom of a hill in the subdivision of Montecito Heights on the city's northeast side. The violent act was perpetrated by a romantic rival named Clara Phillips, who lured the unsuspecting victim to the unlikely crime scene. The twenty-three-year-old murderesses' actions were spurred by jealous rage as Mrs. Meadows was the mistress of Clara's husband, Armour Phillips, an oil stock salesman who was

three years her senior. The heinous crime was witnessed by Peggy Caffee, a friend, who was too frightened to lift a finger to stop the attack. Afterward, Clara and Peggy fled the murder scene in the victim's brand-new Ford automobile. Surprisingly, the killer's husband Armour came to her aide in ditching the vehicle and fleeing Los Angeles by train, before self-preservation kicked in and he reconsidered his own actions after the fact, alerting authorities as to her whereabouts, leading to an arrest. Clara Phillips was given the moniker, "Tiger Woman," by the overzealous L.A. press of the day after a police detective on the case suggested that Alberta Meadows looked like "she had been mauled by a tiger." But Clara didn't go away quietly, proving to be not only a cold-hearted killer, but a fabricator and masterful escape artist before justice for the victim finally had a chance to be served in what proved to be one the 20th century's most disturbing acts of homicidal violence. Included are bonus excerpts of R. Barri Flowers' bestselling historical true crime book, *The Dreadful Acts of Jack the Ripper and Other True Tales of Serial Murder and Prostitutes*, and

historical true crime shorts, *The Pickaxe Killers*, *Murder at the Pencil Factory*, *Murder of the Doctor's Wife*, and *Murder During the Chicago World's Fair*.
