Peterson's Master the Police Officer Exam prepares readers for the written exam, educates them on the physical skills they need, and gives them valuable tips to succeed during their interview and psychological screening. They will find an overview of the duties of police officers and the qualifications required. Test takers can prepare with five practice tests and comprehensive review material covering the three types of questions that appear on the written police examination: practice judgment, reading-based, and observation and memory. The guide also includes indispensable appendixes that give a comprehensive outline of what to expect once trainees are accepted into the police academy, along with a sample physical fitness course. Peterson's Master the Police Officer Exam helps readers navigate the police application and screening process.

This volume collects the papers accepted for presentation at MIRAGE 2009.

The MIRAGE conference is continuing to receive international recognition, with this year's presentations coming from 25 countries despite the large worldwide financial crisis. This time Asia submitted far fewer papers than previously and fewer than Europe. France proved to be the most active scientifically with a total of 16 submitted papers. Germany came second (10 submitted papers) and China third (8 papers). We received a total of 83 submissions and accepted 41 as oral presentations, over the three-day event. All papers were reviewed by three to four members of the Program Committee. The final selection was made by the Conference Chairs. At this point, we wish to thank the Program Committee and additional referees for their timely and high-quality reviews. We also thank the invited speakers Luc Van Gool, Frank Multon and Raquel Urtasun for kindly accepting to present very interesting
