Ballads are a fascinating subject of study not least because of their endless variety. It is quite remarkable that ballads taken down or recorded from singers separated by centuries in time and by hundreds of kilometres in distance, should be both different and yet recognizably the same. In *The English Traditional Ballad*, David Atkinson examines the ways in which the body of ballads known in England make reference both to ballads from elsewhere and to other English folk songs. The book outlines current theoretical directions in ballad scholarship: structuralism, traditional referentiality, genre and context, print and oral transmission, and the theory of tradition and revival. These are combined to offer readers a method of approaching the central issue in ballad studies – the creation of meaning(s) out of ballad texts. Atkinson focuses on some of the most interesting problems in ballad studies: the 'wit-combat' in versions of *The Unquiet Grave*; variable perspectives in comic ballads about marriage; incest as a ballad theme; problems of feminine motivation in ballads like *The Outlandish Knight* and *The Broomfield Hill*; murder ballads and murder in other instances of early popular literature. Through discussion of these issues and themes in ballad texts, the book outlines a way of tracing tradition(s) in English balladry, while recognizing that ballad tradition is far from being simply chronological and linear.

This title was first published in 2003. This work considers the post-war folk revival in Britain from a popular music studies perspective. Michael Brocken provides a historical narrative of the folk revival from the 1940s up until the 1990s, beginning with the emergence of the revival from within and around the left-wing movements of the 1940s and 1950s. Key figures and organizations such as the Workers' Music Association, the BBC, the English Folk Dance and Song Society, A.L. Lloyd and Ewan MacColl are examined closely. By looking at the work of British Communist Party splinter groups it is possible to see the refraction of folk music as a political

For Broadway audiences of the 1980s, the decade was perhaps most notable for the so-called “British invasion.” While concept musicals such as *Nine* and *Stephen Sondheim's Sunday in the Park with George* continued to be produced, several London hits came to New York. In addition to shows like *Chess*, *Me and My Girl*, and *Les Miserables*, the decade's most successful composer Andrew Lloyd Webber was also well represented by *Cats*, *The Phantom of the Opera*, *Song & Dance*, and *Starlight Express*. There were also many revivals (such as *Show Boat* and *Gypsy*), surprise hits (*The Pirates of Penzance*), huge hits (*42nd Street*), and notorious flops (*Into the Light*, *Carrie*, and *Annie 2: Miss Hannigan's Revenge*). In *The Complete Book of 1980s Broadway Musicals*, Dan Dietz examines in detail every musical that opened on Broadway during the 1980s. In addition to including every hit and flop that debuted during the decade, this book highlights revivals and personal-appearance revues with such performers as *Sid Caesar*, *Barry Manilow*, *Jackie Mason*, and *Shirley MacLaine*. For too long now, the Qur'an and the Sunnah, great sources of strength, purity, knowledge and inspiration for the Ummah, have not been adequately tapped. Skirting their peripheries or over-dwelling on one or two of their multifarious facets and tributaries has done a disservice to the immense potential of the fountainhead, while denying the Ummah- indeed the whole world- innumerable benefits from them. Now that the Ummah is becoming increasingly aware of its own problems as well as latent powers, and yearns to revive its leading role in the forging of history and cilization, the issue of drawing on the wellspring becomes more relevant and urgent. Revisiting these two sources is no longer a scholastic, academic, nostalgic, or escapist indulgence, but a great journey of discovery that promises untold rewards. Paradoxically, the journey through the resplendent pages of the Qur'an and the Sunnah to a time and place in the past should yield a more mature awareness of the dynamics of social and historical change and a human being's role on earth, honing and sharpening the Muslims' capacity to deal with the demands of the present moment and the challenges of the future. Suggestions for a new reading of the Qur'an and the Sunnah have been put forward from Islamic and other angles in the recent years. In this book Dr. Al-Alwani and Dr. Khalil, two well-known Muslim thinkers, contribute their views for a proper approach to these sources from within the Islamic framework.

During the 1990s, Asian pop artists began entering the mainstream of the British music industry for the first time. Bands such as *Black Star Liner*, *Cornershop*, *Fun Da Mental* and *Voodoo Queens*, led those within and without the industry to start asking questions such as what did it mean to be Asian? How did the bands' Asian background affect their music? What did their music say about Asians in Britain? In this book, Rehan Hyder draws on in-depth interviews with musicians from these bands and with critics and record producers, to examine the pressures associated with making music as a young Asian in today's multi-ethnic Britain. As the book reveals, these musicians wish to convey an authentic sense of creativity in their music, while at the same time wanting to assert a positive ethnic identity. Hyder explores these two impulses against the backdrop of a music industry and a society at large that hold a range of confining stereotypes about what it means to be Asian. The experiences of these bands add considerably to the wider debate about the nature of identity in the contemporary world.
