My specialties as a Custom Systems Integrator have always been in the designs of Hi-End Home Stereo Systems, Home Theaters and Acoustically Shaped Listening Rooms. Today, I incorporate my extensive background experiences into the material I write in each of my Step-By-Step books. Over the years several of my Home Theater and Acoustically Shaped Room Designs have been published in Audio/Video Interiors Magazine

including a commissioned request by this same magazine to write a three part series on the topic of Room Acoustics. In recent years I realized that there was a need for an instructional Step-By-Step informational setup guide for those do-it-yourselfers who want to build or improve their Home Theater Systems. As a result I now have a complete series of Step-By-Step book guides all of which are incorporated in this Master Guide.
