The History of Lapland [Laponia] (Illustrated Edition) University of Hawaii Press

Included in the magnificent pages of the Mira calligraphiae monumenta are two alphabets. Executed by an unknown hand, the first consists of Roman capital letters; the other is Gothic lower-case letters. As with the calligraphy of Bocskay described above, these alphabets were embellished by Joris Hoefnagel, a painter at the court of Rudolf II. In embellishing the alphabets,

Hoefnagel employed symbols and heraldic objects--masks, animals, plants, obelisks--to convey the power and greatness of the emperor. An Abecedarium contains the thirty-eight pages from the Mira codex that display Hoefnagel's virtuosity in decorating the alphabets. Calligraphers, graphic artists, and all lovers of beautiful books will delight in Hoefnagel's artistry. Aviation Radio Hassell Street Press

Schefferus (1621-79) was one of the most important Swedish humanists of his time. He was also known as Angelus and is remembered for writing hymns. Born in Strasbourg, then part of the Holy Roman Empire, he came from a patrician family, studied at university there and briefly in Leiden, and was in 1648 made professor Skytteanus of eloquence and government at Uppsala University, a chair he held until his death. He also spent time on philological and archaeological studies. This work, a comprehensive history of Northern Scandinavia topology, environment and Sami living conditions, dwelling places, clothing, gender roles, hunting, child raising, shamanism and pagan religion, was first published

as Lapponia in 1673, with this English translation appearing the following year.

"The approach that has helped thousands of learners memorize

Japanese kanji has been adapted to help students with Chinese characters. Remembering Simplified Hanzi covers the writing and meaning of the 1,000 most commonly used characters in the traditional Chinese writing system, plus another 500 that are best learned at an early stage."

"Of critical importance to the approach found in these pages is the systematic arranging of characters in an order best suited to memory. In the Chinese writing system, strokes and simple components are nested within relatively simple characters, which can, in turn, serve as parts of more complicated characters and so on.

Taking advantage of this allows a logical ordering, making it possible for students to approach most new characters with prior knowledge that can greatly facilitate the learning process."--BOOK JACKET.

The Splendour of the Church; Bloomsbury Publishing

'The Fota Liturgy series represents an important contribution to the new liturgical movement called for by Joseph Ratzinger as early as 1989. This first volume in the series, Benedict XVI and the Sacred Liturgy, brings together the reflections of liturgical scholars, drawn from North America and Europe, on several of the issues central to that renewal of Christian worship desired by the Second Vatican Council's constitution on the sacred liturgy, Sacrosanctum Concilium.' 'Long before his ascent to the papacy, Joseph Ratzinger believed that the celebration of the liturgy was not only central to Catholic life, but that liturgical aberrations contributed mightily to post-Conciliar confusion and decline. Benedict XVI and the Sacred Liturgy is an excellent starting point for exploring the Holy Father's liturgical vision and concerns as the Church moves to purify and renew the liturgy.'

In Book II of the "Aeneid", Aeneas relates to Dido his own account of Troy's destruction and his escape, including the episode of the Wooden Horse. It is some of the best Latin poetry ever written, and thus makes an ideal introduction to the "Aeneid". This completely new edition aims to provide students with help in translation, encourage them to consider the sound of the poetry, and appreciate the emotional impact of the story as Virgil portrays it. The text also includes a general introduction, a select bibliography, notes and a full vocabulary; appendices deal with meter and scansion.

Sakura's dad gets a new job in America, so she and her parents make the move from their home in Japan. When she arrives in the States, most of all she misses her grandmother and the cherry blossom trees, under which she and her grandmother used to play and picnic. She wonders how she'll ever feel at home in this new place, with its unfamiliar language and landscape. One day, she meets her neighbor, a boy named Luke, and begins to feel a little more settled. When her grandmother becomes ill, though, her family takes a trip back to Japan. Sakura is sad when she returns to the States and once again reflects on all she misses. Luke does his best to cheer her up -- and tells her about a surprise he knows she'll love, but she'll have to wait till spring. In the meantime, Sakura and Luke's friendship blooms and finally, when spring comes, Luke takes her to see the cherry blossom trees flowering right there in her new neighborhood.
