The Veiled Suite Crown Books for Young Readers Repurposing the sad, comical and seemingly trivial minutiae of everyday life into pie charts, flow charts and other forms of visual data sorting, New York-based artist Andrew Kuo transforms the idlest of days into a witty analysis in color and pattern. Among the many itemizations he has rendered into charts: "Some Things I am Scared of in November 2007"; "My Ideal Slacker Tuesday on March 27, 2008"; "Being Accused of Being an Asshole (Via Instant Messenger) on June 21, 2009." The brilliance and charm of these works lies not only in their balance of what might be called "cool content in geek form," but also in the criteria and gradations they measure--for example, a chart analyzing "My Selected History with The Boredoms" takes the band's chronological discography along its horizontal axis, and runs from "Potheads" to "Mindblowing!" along its vertical axis. Kuo's obsessive charts, which resemble Op art, Concrete art or the abstractions of Josef Albers (sometimes in deliberate homage), have reached a wide audience through his music reviews for The New York Times, as well as through numerous solo shows over the past ten years. What Me Worryadopts Madmagazine's slogan to gently poke fun at the artist's compulsive record-keeping, and compiles a range of charts, some of which are also made into colorful sculptures, alongside figurative paintings, diary musings and a series of recipes. The New York music critic Kelefa Sanneh contributes an essay. Andrew Kuo graduated with a Bachelor of Fine Arts from Rhode Island School of Design in 1999, and now lives in New York, where his first solo exhibition was held in 2001; his most recent solo exhibition, All Over Again, was held at The 33 Bond Gallery in October, 2007. Kuo's charts of bands and concerts are regularly featured in The New York Times' music section.

Renal Diet Cookbook Taylor & Francis
Unwind with 150 relaxed, multicultural dishes from the award-winning celebrity chef and New York Times–bestselling author! Born in Ethiopia, raised in Sweden, and trained in European kitchens, Marcus Samuelsson is a world citizen turned American culinary icon—the youngest chef ever to receive three stars from the New York Times, a five-time James Beard Award recipient, a winner of Top Chef Masters, and a judge on Chopped. This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

Extraordinary Stories from Ordinary Visitors to the Kruger National Park Elektor International Media

Los Angeles, 1978. Skateboarding and tanned bods rule the SoCal landscape. Compared to his groovy peers, 13-year-old Adam Lipsitz is an outcast. He is too skinny, too pale, too brainy. To make matters worse, just as his parents are separating, he's cast off to Kamp Kickapoo, where he faces the prospect of being tormented by a bully named "Worm" for six interminable weeks. Then... a horrific event rocks Adam's world. And there's no turning back. How Adam deals with being bullied forms the core of Skinny White Freak. By summer's end, Adam will make the journey from kid to young adult, striving to replace fear with courage, cynicism with empathy, and low self-esteem with self-acceptance.

From Aintree to York Taylor & Francis

With the growth of practitioner research, this book leads the way by addressing key issues faced by 'insider researchers' — those doing research projects in the organizations and communities in which they themselves work, or where they are already familiar with the setting. The authors explore the implications of these research contexts, and discuss approaches and methodologies that researchers in these contexts might adopt, with a particular focus on ethics — one of the key concerns for students undertaking a research project of this type.

This textbook provides comprehensive and in-depth explanations of all topics related to spatial analysis and spatiotemporal simulation, including how spatial data are acquired, represented digitally, and spatially aggregated. Also features the nature of space and how it is measured. Descriptive, explanatory, and inferential analyses are covered for point, line, and area data. It captures the latest developments in spatiotemporal simulation with cellular automata and agent-based modelling, and through practical examples discusses how spatial analysis and modelling can be implemented in different computing platforms. A much-needed textbook for a course at upper undergraduate and postgraduate levels.

The Bill of Rights and Subsequent Amendments Timber Press

A thousand years before the Winter War, Elgo, prince of the Vanadurin, killed the Dragon Sleeth and returned home with the fabulous wealth from the dead beast's lair. But there was more in the bounty than gems and gold, for the treasure was cursed, and in time it brought death to noble and peasant, war between Man and Dwarf, strife and destruction beyond reckoning. Now, generations later, as the conflict continues, the great Dragon Black Kalgalath, in league with the Wizard Andrak, appears to avenge Sleeth's death and claim the Dragon-cursed hoard. Against this unholy alliance, two sworn enemies set forth to find a legendary long-lost weapon: a warhammer of incalculable power that may be the only hope of victory. But neither the Warrior Maiden Elyn nor the Dwarf Thork is prepared for the dangers awaiting them on this quest....

Translation in Francophone Contexts Candlewick Press (MA)

Translation—as a concept—has become central to postcolonial theory in recent decades, offering useful insights and metaphors for the processes explored within the framework of postcolonial studies. But translation itself is still an underexplored activity within this discipline. Intimate Enemies rights this wrong, weaving together reflections on translation by translators, authors, and academics working in regions of Africa, the Caribbean, and nations in the Indian Ocean. Moving beyond the traditional view of translation as betraying, at some level, original texts, the contributors instead highlight the potential for translation to counter the destructive effects of globalization, promote linguistic diversity, and reveal the dynamic political and economic contexts in which books are written, sold, and read.
