The twentieth anniversary edition of Henry Jenkins's *Textual Poachers* brings this now-canonical text to a new generation of students interested in the intersections of fandom, participatory culture, popular consumption

and media theory. Supplementing the original, classic text is an interview between Henry Jenkins and Suzanne Scott in which Jenkins reflects upon changes in the field since the original release of *Textual Poachers*. A study guide by Louisa Stein helps provides instructors with suggestions for the way *Textual Poachers* can be used in the contemporary classroom, and study questions encourage students to consider fan cultures in relation to consumer capitalism, genre, gender, sexuality, and more.

The Faust Act Image Comics

Across an amazing sweep of the critical areas of business regulation - from contract, intellectual property and corporations law, to trade, telecommunications, labour standards, drugs, food, transport and environment - this book confronts the question of how the regulation of business has shifted from national to global institutions. Based on interviews with 500 international leaders in business and government, this book examines the role played by global institutions such as the WTO, the OECD, IMF, Moody's and the World Bank, as well as various NGOs and significant individuals. The authors argue that effective and decent global regulation depends on the determination of individuals to engage with powerful agendas and decision-making bodies that would otherwise be dominated by concentrated economic interests. This book

will become a standard reference for readers in business, law, politics and international relations.
