This accessible textbook is the only introduction to linguistics in which each chapter is written by an expert who teaches courses on that topic, ensuring balanced and uniformly excellent coverage of the full range of modern linguistics. Assuming no prior knowledge the text offers a clear introduction to the traditional topics of structural linguistics (theories of sound, form, meaning, and language change), and in addition provides

full coverage of contextual linguistics, including separate chapters on discourse, dialect variation, language and culture, and the politics of language. There are also up-to-date separate chapters on language and the brain, computational linguistics, writing, child language acquisition, and second-language learning. The breadth of the textbook makes it ideal for introductory courses on language and linguistics offered by departments of English, sociology, anthropology, and communications, as well as by linguistics departments.

Across an amazing sweep of

the critical areas of business regulation - from contract, intellectual property and corporations law, to trade, telecommunications, labour standards, drugs, food, transport and environment - this book confronts the question of how the regulation of business has shifted from national to global institutions. Based on interviews with 500 international leaders in business and government, this book examines the role played by global institutions such as the WTO, the OECD, IMF, Moody's and the World Bank, as well as various NGOs and significant individuals. The authors argue that effective and decent global regulation depends on the determination of individuals to engage with powerful agendas and decision-making bodies that would otherwise

be dominated by concentrated economic interests. This book will become a standard reference for readers in business, law, politics and international relations.

Vol. 7: Mothering Invention
Cambridge University Press
The twentieth anniversary edition of Henry Jenkins's Textual Poachers brings this now-canonical text to a new generation of students interested in the intersections of fandom, participatory

culture, popular consumption and media theory.

Supplementing the original, classic text is an interview between Henry Jenkins and Suzanne Scott in which Jenkins reflects upon changes in the field since the original release of Textual Poachers. A study guide by Louisa Stein helps provides instructors with suggestions for the way Textual Poachers can be used in the contemporary classroom, and study questions encourage students to consider fan cultures in relation to consumer capitalism, genre, gender, sexuality, and more.
