A survey of South African history from the formation of early human communities to the present. The Making of South Africa provides a detailed understanding of all the forces that have shaped South Africa to date. It represents a valuable and unique addition to the field by emphasizing African voices as well as recent developments in South Africa, including analyses on the post-transition political change, the World Cup of soccer, and pubic health issues. The text incorporates important new perspectives on South African geography and the spatial dimensions of segregation and apartheid. It also covers environmental studies and the dynamic literature on identities and

ethnicity while highlighting how Europeans and Africans shaped the environment, politics, and the economy to develop a complex multi-ethnic nation. Learning Goals Upon completing this book readers will be able to: Understand how South Africa became the nation it is today View South African history from the point of view of Africans as well as Europeans who have settled there Assess the impact of cultural, political, social, economic, geographical, environmental, and health-related forces on South African history Note: MySearchLab does not come automatically packaged with this text. How does technology alter thinking and action without our awareness? How can instantaneous information access impede understanding and wisdom? How does technology alter conceptions of education, schooling, teaching and what learning entails? What are the implications of these and other technology issues for society? Meaningful technology education is far more than learning how to use technology. It entails an understanding of the nature of technology — what technology is, how and why technology is developed, how individuals and society direct, react to, and are sometimes unwittingly changed by technology. This book places these and other issues regarding the nature of technology in the context of learning, teaching and schooling. The nature of technology and its impact on education must become a significant object of inquiry among educators. Students must come to understand the nature of technology so that they can make informed decisions regarding how technology may influence thinking, values and action, and when and how technology should be used in their personal lives and in society. Prudent choices regarding technology cannot be made without understanding the issues that this book raises. This book is intended to raise such issues and stimulate thinking and action among teachers, teacher educators, and education researchers. The contributions to this book raise historical and philosophical issues regarding the nature of technology and their implications for education; challenge teacher educators and teachers to promote understanding of the nature of technology; and provide practical considerations for teaching the nature of technology.

Andrew McCarthy grows concerned for his family after he catches a young man, Zachary Denton, photographing his daughter, Grace McCarthy, and other children at a park. To his dismay, Zachary talks his way out of trouble when he's confronted by the police. He hopes that's the end of it. Then he finds Zachary at a diner and then at a grocery store. He knows their encounters aren't coincidences. And just as Andrew prepares to defend his family, Grace vanishes. As the police search stalls and the leads dry up, Andrew decides to take matters into his own hands. He starts by searching for sex offenders in the area and researching enhanced interrogation techniques... He convinces himself he'll do anything to rescue his daughter, unaware of the pure evil he'll face in his journey. He's willing to hurt-to torture-anyone to save his family. Jon Athan, the author of *Into the Wolves' Den* and *The Abuse of Ashley Collins*, delves into the underworld of internet predators in this disturbing horror novel. Are your children safe? An Instant #1 New York Times Bestseller A Goop Book Club Pick "If you want your breath to catch and your heart to stop, turn to Kate Baer."--Joanna Goddard, Cup of Jo A stunning and honest debut poetry collection about the beauty and hardships of being a woman in the world today, and the many roles we play - mother, partner, and friend. "When life throws you a bag of sorrow, hold out your hands/Little by little, mountains are climbed." So ends Kate Baer's remarkable poem "Things My Girlfriends Teach Me." In "Nothing Tastes as Good as Skinny Feels" she challenges her reader to consider their grandmother's cake, the taste of the sea, the cool swill of freedom. In her poem "Deliverance" about her son's birth she writes "What is the word for when the light leaves the body?/What is the word for when it/at last, returns?" Through poems that are as unforgettably beautiful as they are accessible, Kate Bear proves herself to truly be an exemplary voice in modern poetry. Her words make women feel seen in their own bodies, in their own marriages, and in their own lives. Her poems are those you share with your mother, your daughter, your sister, and your friends.

This book is an in-depth analysis of three of the most crucial years in twentieth-century Italian history, the years 1943-46. After more than two decades of a Fascist regime and a disastrous war experience during

which Italy changed sides, these years saw the laying of the political and cultural foundations for what has since become known as Italy's First Republic. Drawing on texts from the literature, film, journalism, and political debate of the period, Antifascisms offers a thorough survey of the personalities and positions that informed the decisions taken in this crucial phase of modern Italian history.
