#1 New York Times Bestseller Over 10 million copies sold In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be "positive" all the time so that we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. "F**k positivity," Mark Manson says. "Let's be honest, shit is f**ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. The Subtle Art of Not Giving a F**k is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f**k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, The Subtle Art of Not Giving a F**k is a refreshing slap for a generation to help them lead contented, grounded lives.

In answer to this timeless question, award winning documentary filmmaker, Lois Farfel Stark, takes the reader on a remarkable journey from tribal ceremonies in Liberia and the pyramids in Egypt, to the gravity-defying architecture of modern China. Drawing on her experience as a global explorer, Stark unveils a crucial, hidden key to understanding the universe: Shape itself. The Telling Image is a stunning synthesis of civilization's changing mindsets, a brilliantly original perspective urging you to re-envision history not as a story of kings and wars but through the lens of shape. In this sweeping tour through time, Stark takes us from migratory humans, who imitated a web in round-thatched huts and stone circles, to the urban ladder of pyramids and skyscrapers, organized by hierarchy and measurements, to today's world of interconnected networks. In The Telling Image Stark reveals how buildings, behaviors, and beliefs reflect humans' search for pattern and meaning. We can read the past and glimpse the future by watching when shapes shift. Stark's beautifully illustrated book asks of all its readers: See what you think.

The Brown Sisters presents a photographic project as compelling in effect as it is simple in conception: four women, 25 years. Each year since 1975 photographer Nicholas Nixon has made a group portrait of his wife and her three sisters facing the camera in the same order: Heather, Mimi, Bebe, and Laurie. The series now measures a quarter century in the lives of the sisters, who in 1975 ranged in age from 15 to 25; each picture is dense with allusions to the year of experience that separates it from the one before.

Loving: A Photographic Story of Men in Love, 1850-1950 portrays the history of romantic love between men in hundreds of moving and tender vernacular photographs taken between the years 1850 and 1950. This visual narrative of astonishing sensitivity brings to light an until-now-unpublished collection of hundreds of snapshots, portraits, and group photos taken in the most varied of contexts, both private and public. Taken when male partnerships were often illegal, the photos here were found at flea markets, in shoe boxes, family archives, old suitcases, and later online and at auctions. The collection now includes photos from all over the world: Australia, Bulgaria, Canada, Croatia, France, Germany, Japan, Greece, Latvia, the United States, the United Kingdom, Russia, and Serbia. The subjects were identified as couples by that unmistakable look in the eyes of two people in love - impossible to manufacture or hide. They were also recognized by body language - evidence as subtle as one hand barely grazing another - and by inscriptions, often coded. Included here are ambrotypes, daguerreotypes, glass negatives, tin types, cabinet cards, photo postcards, photo strips, photomatics, and snapshots - over 100 years of social history and the development of photography. Loving will be produced to the highest standards in illustrated book publishing. The photographs - many fragile from age or handling - have been digitized using a technology derived from that used on surveillance satellites and available in only five places around the world. Paper and other materials are among the best available. And Loving will be manufactured at one of the world's elite printers. Loving, the book, will be up to the measure of its message in every way. In these delight-filled pages, couples in love tell their own story for the first time at a time when joy and hope - indeed human connectivity - are crucial lifelines to our better selves. Universal in reach and overwhelming in impact, Loving speaks to our spirit and resilience, our capacity for bliss, and our longing for the shared truths of love.

There are three editions of this book:1. The facsimile edition, a photocopy of the original book (this edition).2. A re-created edition, newly typeset and with high-quality images scanned from Adams's original prints.3. An eBook, based on the re-created edition. Ansel Adams visited Manzanar at the invitation of his friend, Ralph Merritt, its second director. He published about 65 of his photographs in a 1944 book, "Born Free and Equal," which was generally reviled, even burned, as the War was still ongoing. Adams didn't renew the copyright on the book and turned all of his Manzanar negatives and prints over to the Library of Congress. The LoC website has digital images of all 112 pages of the book, but the scanning was poorly done. I straightened the pages and cropped them slightly to fit the page size of this edition, but did not otherwise alter them in any way. This edition is exactly the same as the original, although it may be of a different physical size, as I don't know the size of the original. Copies of the original book are extremely rare and, judging from the one that the LoC scanned, even their copy is in terrible condition. This edition will make the book more accessible. To keep the cost of this book as low as possible, the resolution of the printed pages is fairly coarse, but it's still quite readable and provides the same reading experience as the original book. The re-created edition, at a higher price, is of correspondingly higher quality.

A cultural "biography" of Robert Frost's beloved poem, arguably the most popular piece of American literature "Two roads diverged in a yellow wood . . ." One hundred years after its first publication in August 1915, Robert Frost's poem "The Road Not Taken" is so ubiquitous that it's easy to forget that it is, in fact, a poem. Yet poetry it is, and Frost's immortal lines remain unbelievably popular. And yet in spite of this devotion, almost everyone gets the poem hopelessly wrong. David Orr's The Road Not Taken dives directly into the controversy, illuminating the poem's enduring greatness

while revealing its mystifying contradictions. Widely admired as the poetry columnist for the New York Times Book Review, Orr is the perfect guide for lay readers and experts alike. Orr offers a lively look at the poem's cultural influence, its artistic complexity, and its historical journey from the margins of the First World War all the way to its canonical place today as a true masterpiece of American literature. "The Road Not Taken" seems straightforward: a nameless traveler is faced with a choice: two paths forward, with only one to walk. And everyone remembers the traveler taking "the one less traveled by, / And that has made all the difference." But for a century readers and critics have fought bitterly over what the poem really says. Is it a paean to triumphant self-assertion, where an individual boldly chooses to live outside conformity? Or a biting commentary on human self-deception, where a person chooses between identical roads and yet later romanticizes the decision as life altering? What Orr artfully reveals is that the poem speaks to both of these impulses, and all the possibilities that lie between them. The poem gives us a portrait of choice without making a decision itself. And in this, "The Road Not Taken" is distinctively American, for the United States is the country of choice in all its ambiguous splendor. Published for the poem's centennial—along with a new Penguin Classics Deluxe Edition of Frost's poems, edited and introduced by Orr himself—The Road Not Taken is a treasure for all readers, a triumph of artistic exploration and cultural investigation that sings with its own unforgettably poetic voice. Praise for The Road Not Taken: "The most satisfying part of Orr's fresh appraisal of 'The Road Not Taken' is the reappraisal it can inspire in longtime Frost readers whose readings have frozen solid. The crossroads between the poet and the man is where Frost leaves his poems for us to discover, turning what seems like a fork in the road into a site of limitless potential." —The Boston Globe

The US was in the midst of the Depression when Dorothea Lange (1895-1965) began documenting its impact through depictions of unemployed men on the streets of San Francisco. Her success won the attention of Roosevelt's Resettlement Administration (later the Farm Security Administration), and in 1935 she started photographing the rural poor under its auspices. One day in Nipomo, California, Lange recalled, she "saw and approached [a] hungry and desperate mother, as if drawn by a magnet." The woman's name was Florence Owens Thompson, and the result of their encounter was seven exposures, including *Migrant Mother*. Curator Sarah Meister's essay provides a fresh context for this iconic work.
