Partners in Literacy describes the  
process, research, relationships,

and theories that guided a three-  
year partnership between the  
Purdue University Writing Lab  
and two community organizations  
in Lafayette, Indiana: the  
Lafayette Adult Resource  
Academy and WorkOne Express.

This partnership resulted in a new  
section of the globally known  
Purdue Online Writing Lab  
(OWL) and the Community  
Writing and Education Station  
(CWEST), which featured adult  
literacy resources in the areas of  
GED preparation, English as a  
Second Language, and workplace  
and job search literacy. Using an  
empirical and iterative design  
process, the authors worked  
closely with their community  
partners to develop, test, revise,

and launch these resources. In  
Partners in Literacy, the authors  
argue that writing centers can be  
effective spaces from which to  
work with the community and  
that writing centers ' missions of  
sustainability, outreach, and  
research-driven practice can offer  
valuable philosophies for civic  
engagement. To support this  
argument, the book discusses the  
research methods and findings,  
the process behind developing and  
sustaining the three-year  
engagement project, and the  
personal relationships that  
ultimately held the project  
together.
