 Modified Physical Performance Test | RehabMeasures Database
 In this study, a shortened physical performance tool, the mini-PPT, was developed and validated as an assessment tool to evaluate physical function in older adults with and without mild dementia. The mini-PPT is a brief physical assessment tool that can be administered in a clinical office without the need for additional props or equipment (only a penny and a chair are required).

Physical Performance Test - YouTube
 PPT is a shorter form of Physical Performance Test. PPT means Physical Performance Test. PPT is an acronym for Physical Performance Test. Search for abbreviation meaning, word to abbreviate, or lists of abbreviations. You may combine abbreviation and category.

Abstract. Oncologists usually base treatment decision on the assessment of patients' performance status (PS). This study was undertaken to explore the ability of KPS to correctly assess the PS of elderly cancer patients, comparing it to a validated geriatric tool named Physical Performance Test (PPT). One single examiner assessed elderly cancer patients' PS at registration in our institution and performed the PPT on patients with KPS ? 60.
