The interest and fascination these novel cars generate have made micro vehicles significant collectibles over the past decade, and yet information published on micro trucks has been almost non-existent. Old brochures printed by numerous micro-car builders depict the various truck versions available. In the case of Iso, everything from hook and ladder to vans to pickups were featured, but few if any examples were thought to have been built beyond the prototype stage. Full colour

photography, text and specs describe previously unseen Iso production micro trucks, as well as featuring the changes necessary for converting the production Iso into a micro truck. Also featured are rare Topolino Fiat vans, as well as more common production micro trucks from Autobianchi, Moto Guzzi, Vespa Ape, New Map Solyto and Diahatsu. Rare Topolino Fiat vans ready for full restoration are also shown. Whereas very few 1950 Fiat 500 Topolino C Furgone models exist, there is only one known 1948 Fiat 500 Topolino B Furgone believed to have survived. As well, this volume covers the somewhat more familiar production versions built by Moto Guzzi and New Map Solyto. For micro car enthusiasts wanting to expand their collection, this volume includes the more commonly available micro trucks from Autobianchi, Vespa and Diahatsu along with helpful hints on restoration. Illustrated with 91 colour photos, many of never-before-seen micro trucks. Micro Trucks - Tiny utility vehicles from around the world Roli Books Private Limited "Once a common sight in our towns and cities, microcars were ingenious solutions to the post war demand for economical and accessible motoring. Nowadays they are making a celebrated comeback with all of the big car manufacturers featuring at least one flagship small car, from DaimlerChrysler's Smart and BMW's Mini to Nissan's Micra. But what are the factors, now and then, that turned the microcar into a viable alternative to the 'normal' car? How have the aspirations and ideas behind the microcar changed over the decades? The cars themselves have undoubtedly undergone a radical transformation." "Whereas the current trend in small cars is led by

---

environmental concerns, the first phase of the microcar phenomenon was determined by economic necessity: many manufacturers of planes, trains, and white goods had to re-invent themselves as producers of automobiles. The result was a proliferation of small, cheap and extraordinary looking three- and four-wheeled vehicles." "This book looks at the social and cultural conditions behind the rise, the fall and the ultimate resurrection of the small car, and features some of the most fascinating and best-loved examples. With the debate over transport, sustainability, congestion, fuel consumption, taxation and the environment high on the agenda, there has never been a better time than now to examine the role of the microcar."--BOOK JACKET.

Guy Martin can't sit still. He has to keep pushing - both himself and whatever machine he is piloting - to the extreme. He's a doer, not a talker. That applies whether Guy's competing in a self-supported 750-mile mountain bike race across Arizona, or trying to reach 300mph in a standing mile on the 800-horsepower motorbike he built in his shed. And during his TV adventures, travelling through Japan, winning records for the world's fastest tractor, re-creating the famous Steve McQueen Great

Escape jump, discovering the toil and sacrifice of the D-Day landings and trying to cut the mustard as a Battle of Britain pilot. Guy's become a dad now and he's hoping that one day his daughter will grow up to be a better welder than he is. Oh, and he's still getting up at 5am to work on trucks in for service or to be out on his tractor, working the Lincolnshire land he's always called home. This is Guy Martin's latest book, in his own words, on the last four years of his life that make the rest of us look like we're in slow motion. We're here for a good time, not a long time. To Guy, if it's worth doing, it's worth dying for.

Plunkett Research, Ltd. Easy Rider. Motocross Grand Prix. James Dean in Rebel Without a Cause. The motorcycle is a global icon of untamed freedom, symbolizing a daring and reckless lifestyle of adventure. Yet there are few books that chronicle how and when this legendary vehicle roared down the open road. Motorcycle explores the roots of the rebel's ultimate ride. After early incarnations as a nineteenth-century steam-powered bicycle and multi-wheeled vehicles, the modern motorcycle came into its own

as a cheap, mobile military asset during World War I. From there, it rapidly spread through modern culture as a symbol of rebellion and subversive power, and Motorcycle tracks the symbolic role that the bike has played in literature, art, and film. The authors also investigate the international subcultures that revolve around the motorcycle and scooter. They chart the emergence of American biker culture in the 1950s, when decommissioned fighter pilots sought new ways to satiate their desire for thrill and danger, and explore how the motorcycle came to represent the untamed nonconformity of the American West. In contrast, smaller scooters such as the Vespa and moped became the utilitarian vehicle of choice in space-starved metropolises across Europe and Asia. Ultimately, the authors argue, the motorbike is the exemplary Modernist object, dependent on the perfect balance of man and machine. An unprecedented and wholly engrossing account, Motorcycle is an essential reading for the Harley-Davidson roadhog, bike collector, or anyone who's felt the power of the unmistakable king of the road.

Montefalcione as different from any other isolated mountain village in southern Italy. It has ancient customs and its own saints and feast days -- yet Montefalcione, in Campania, is the setting for this meditation on the Italian Diaspora, reconstructing three generations of village life through myth, superstition, and the anecdotal history of the author ' s own family. The drama unfolds amidst a landscape of peasant riots, vicious landlords, religious festival, feuds, the collapse of the Fascist party, and the tarantella - a world lost to the changing face of the 21st Century.

During the middle of the twentieth century, a plethora of small economy cars – often quirky and bizarre – emerged to meet the needs of the cash-strapped motorist. This book charts the history and development of these microcars, from the lean period after the Second World War right up to the present day. Covering a wide range of vehicles, from the well-known models to the more obscure, and complemented throughout by colour photographs and period images, this a fascinating book on a little-known subject.

For fans of James Rollins and Matthew Reilly comes a gripping, globe-spanning adventure in Andy McDermott's thrilling series featuring American archaeologist Nina Wilde and ex-SAS bodyguard Eddie Chase. History's most sought after treasure is now mankind's worst fear. In Los Angeles, a desperate man seeks out renowned archaeologist Nina Wilde and her husband, ex – SAS soldier Eddie Chase—only to be gunned down in front of them. The assassin is soon identified as a ninety-year-old Nazi war criminal—with the body of a healthy forty-year-old. Following the victim's final warnings, Nina and Eddie travel to Cairo to inspect the newly discovered tomb of Alexander the Great. But the real find is hidden in one of its treasures—a mechanical guide leading to one of antiquity's most tantalizing myths: a spring of water said to give eternal life to those who drink it. Nina, Eddie, and a team of Mossad agents realize that the

myth is real, and that a group of former SS men who have tasted this water are now hunting for its source. But before they can act, Nina is kidnapped and spirited away to a secret Nazi enclave in Argentina, igniting a fierce, fateful, globe-spanning struggle in which her life hangs in the balance. All the while a terrifying possibility emerges—that the world's darkest evil could live on forever. Praise for the novels of Andy McDermott “Raises the bar to please adventure junkies who prefer to mainline their action.” —Publishers Weekly (starred review), on *The Hunt for Atlantis* “A fun, action-filled James Bond/Indiana Jones – esque story.” —Geek Speak Magazine, on *Return to Atlantis* “Adventure stories don't get much more epic than this.” —Daily Mirror (U.K.) Praise for *Kingdom of Darkness* “When it comes to archaeological adventure thrillers, I'm not sure that there's anyone writing in the genre today who is stronger, smarter, or more consistent than Andy McDermott. His Nina Wilde and Eddie Chase series is like a mixture of Indiana Jones, James Bond, Dirk Pitt, and Jack Bauer. . . . *Kingdom of Darkness* is smart, clever, and exciting stuff. . . . If you're looking for a solid archaeological adventure that is as committed to the history as to the thrills, then this is definitely worth a read.” —Beauty in Ruins “Nonstop, relentless extreme action . . . [McDermott's] thrillers have become increasingly accomplished, confident and rounded. The characters of Nina and Eddie are so well developed

they appear almost to have a life of their own and their story has become arguably the most important aspect of the books. The plots are always exciting, pacy and gobsmacking [and] the runaway train action is matched by heart, with many laugh-out-loud lines as well as other scenes of devastating sadness or cruelty. What a fantastic series!” —For Winter Nights “As ever, Andy McDermott mixes high-action car chases, gun battles and mysterious quests, then shakes them well to provide an explosive cocktail. A breakneck running battle on a speeding train is an absolute classic, reminiscent of Bond films at their best.” —Crime Review “An excellent thriller, exhausting, laugh-out-loud funny and gobsmackingly heartbreaking. If you like high octane thrillers then you cannot miss this book.” —Parmenion Books Vespa Taylor & Francis The book presents the select peer-reviewed proceedings of the International Conference on Emerging Trends in Design, Manufacturing, Materials and Thermal Sciences (ETDMMT 2020). The contents focus on latest research in product design, CAD/CAE/CFD, robotic systems, neural networks, thermal systems, alternative fuels, propulsion systems, environmental issues related to combustion, autonomous vehicles and alternative energy applications. In addition, the book also covers recent advances in automotive engineering and aerospace technologies. A feel-good, uplifting opposites attract summer romance from Leonie Mack 'A delicious Italian escape - perfect summer reading' Mandy Baggot Jenn has always prided herself on being a city girl – she insists on easy access to good coffee, great food from around the globe, not to mention an easy commute. So, when her job takes her to one of the most famous Italian wine regions in search of the perfect Prosecco, travelling to meetings on a tractor is a bit of a culture shock. Tiziano hates the city. He was made for the mountains and vineyards of Veneto, and generations of his family have earned their living from the land. But times are changing even in the Italian countryside, and the arrival of Jenn at his grandmother's B&B opens up a window on a different world. Jenn has two months to persuade the Prosecco producers to trust her with their business, and Tiziano has one summer to persuade Jenn that there's more to life than the rat race. But can a city girl and a country boy ever find enough in common to see a future beyond one long summer of sun... Praise for Leonie Mack:

Authors love Leonie Mack: 'As funny as it is emotional, the story is full of tender moments and hilarious escapades' Helen Hawkins 'A wonderfully escapist read about second chances' Carryl Church 'I love her beautiful settings and brooding heroes!' Sarah Bennett 'A masterclass in how to put characters in near-impossible situations and bring them out on the other side in a totally believable way. A treat of a book – knotty premise, vivid characters and deft plot all equally good' Sue Moorcroft 'An addictive, emotional rollercoaster of a romance, drenched in sunshine and laughter' Emma Jackson 'I love Leonie's books - so romantic!'
