Georges Perec, novelist, filmmaker and essayist, was one of the most inventive and original writers of the twentieth century. A fascinating aspect of his work is its intrinsically geographical nature. With major projects on space and place, Perec's writing speaks to a variety of geographical, urban and architectural concerns, both in a substantive way, including a focus on cities, streets, homes and apartments, and in a methodological way, experimenting with methods of urban exploration and observation, classification, enumeration and taxonomy.

Publisher's description: Quickly changing concepts on gender roles are a pivotal issue in after-colonial African societies. Many women (and men) are calling for a radical change as they feel traditional gender concepts as being oppressive, inhuman and un-Christian. Gender equality, gender fairness is on their agenda. On the other hand, for many men (and women) these societal changes are painful "gender troubles" and seem to be dangerous for gender-based identity, threatening traditional African values. Volume 22 of the BiAS series deals with this central topic by asking what gender troubles have to do with the Bible. Are biblical texts an obstacle for women's liberation? Is the Bible a divine guaranty for male supremacy or rather an advocate for gender equality? What are "redemptive masculinities" and how do they relate to a new, truly Christian understanding of the role of women in church, society and state? - Scholars from different disciplines and several countries are dealing with these urgent questions to help scholars, students, pastors, politicians and members of Christian churches to find a way to more gender fairness and "gender joy."
