This accessible, practice-oriented and compact text provides a hands-on introduction to market research. Using the market research process as a framework, it explains how to collect and describe data and presents the most important and frequently used quantitative analysis techniques, such as ANOVA, regression analysis, factor analysis and cluster analysis. The book describes the theoretical choices a market researcher has to make with regard to each technique, discusses how these are converted into actions in IBM SPSS version 22 and how to interpret the output. Each chapter concludes with a case study that illustrates the process using real-world data. A comprehensive Web appendix includes additional analysis techniques, datasets, video files and case studies. Tags in the text allow readers to quickly access Web content with their mobile device. The new edition features: Stronger emphasis on the gathering and analysis of secondary data (e.g., internet and social networking data) New material on data description (e.g., outlier detection and missing value analysis) Improved use of educational elements such as learning objectives, keywords, self-assessment tests, case studies, and much more Streamlined and simplified coverage of the data analysis techniques with more rules-of-thumb Uses IBM SPSS version 22 101 Projects for Your Porsche Boxster Chilton's Total Service

Georges Perec, novelist, filmmaker and essayist, was one of the most inventive and original writers of the twentieth century. A fascinating aspect of his work is its intrinsically geographical nature. With major projects on space and place, Perec ' s writing speaks to a variety of geographical, urban and architectural concerns, both in a substantive way, including a focus on cities, streets, homes and apartments, and in a methodological way, experimenting with methods of urban exploration and observation, classification, enumeration and taxonomy.

Publisher's description: Quickly changing concepts on gender roles are a pivotal issue in after-colonial African societies. Many women (and men) are calling for a radical change as they feel traditional gender concepts as being oppressive, inhuman and un-Christian. Gender equality, gender fairness is on their agenda. On the other hand,

for many men (and women) these societal changes are painful "gender troubles" and seem to be dangerous for gender-based identity, threatening traditional African values. Volume 22 of the BiAS series deals with this central topic by asking what gender troubles have to do with the Bible. Are biblical texts an obstacle for women's liberation? Is the Bible a divine guaranty for male supremacy or rather an advocate for gender equality? What are "redemptive masculinities" and how do they relate to a new, truly Christian understanding of the role of women in church, society and state? - Scholars from different disciplines and several countries are dealing with these urgent questions to help scholars, students, pastors, politicians and members of Christian churches to find a way to more gender fairness and "gender joy."
