Alpi Giulie Touring Editore

Located in northern Italy, the 'Pale Alps' contain climbing of every shape and size. The area is particularly renowned for its via ferrata, cabled routes pre-dating the Great War. This guide covers everything you need for a climbing trip, regardless of ability.

Qui touring Touring Editore

A popular guidebook to short walks in the Dolomites of north east Italy. The guide describes 50 walks, graded from easy to strenuous, and varying in length from 5 km strolls to 20km full-day expeditions. The Dolomites are suitable for summer walking, and the mountains are easily accessible, just across the border from Austria and easily reached from Verona, Treviso, Venice and Innsbruck airports. The Dolomites are blessed with vast forests, high-altitude rocky landscapes and seas of beautiful wildflowers and the range is now a designated Unesco World Heritage Site encompassing a national park - Parco Nazionale Dolomiti Bellunesi - and several other protected areas. Highlights include the Tre Cime di Lavaredo, the Civetta, the Piz Boè circuit on the Sella massif and the Sentiero delle Odle. This guide offers something for every walking ability and preference, and includes all the background and planning information you

need to plan a trip, including an Italian-German-English glossary and a list of accommodation providers and websites and details of all rifugios on or near the routes.

Southern Dolomites, Brenta and Lake Garda Cicerone Press Limited  
Schroffe Felszacken, zum Greifen nahe Gletscher und unglaubliche Panoramablicke – wer auf dem Sentiero della Pace – zu deutsch Friedensweg – unterwegs ist, wird überwältigt sein von dieser Bergwelt. Durch größtenteils einsame Alpenregionen führt der fast 700 Kilometer lange Weitwanderweg vom Vinschgau in die Dolomiten. Ein absoluter Traum für Bergwanderer! Und doch ist er noch weitaus mehr: Er ist ein Erinnerungsweg, der auf alten Kriegspfaden aus dem Ersten Weltkrieg verläuft. Der Rother Wanderführer »Sentiero de la Pace« stellt diese spektakuläre Alpendurchquerung mit allen wichtigen Informationen umfassend vor. Wer auf einem der mehr als 30 Aussichtsgipfel oder Pässe des Sentiero della Pace steht, entlang blühender Almwiesen, rauschender Wasserfällen und zu hübschen Bergdörfern wandert, bekommt unvergessliche Glückse Gefühle. Nur, um im nächsten Moment ehrfürchtig durch einen Schützengraben zu laufen, einen Kriegsstollen mit Taschenlampe zu durchschreiten oder mit hallenden Schritten eine Festungsanlage aus dem Ersten Weltkrieg zu erkunden. Der historisch bedeutendste Fernwanderweg Italiens weckt Emotionen wie kaum ein anderer Weg und besticht durch eine außergewöhnlich abwechslungsreiche Wegführung auf alten Kriegspfaden aus dem Ersten Weltkrieg. Der Rother Wanderführer »Sentiero della Pace« beschreibt ausführlich die 45 Etappen vom Stilfser Joch bis nach Sexten und liefert Informationen zu Anforderungen, Übernachtungsmöglichkeiten und vielem mehr. Jede Etappe verfügt über ein Wanderkärtchen mit eingetragener Route und ein Höhenprofil. GPS-Tracks stehen zum Download von der Internetseite des Rother Bergverlags bereit. Zudem gibt Autorin Romy Robst Tipps zum Wandern mit Hund und macht sinnvolle Vorschläge, welche Etappen sich als Tageswanderungen oder mehrtägige Hüttentouren für jeden Schwierigkeitsgrad anbieten. Nicht zuletzt liefert sie interessante Einblicke in einen unbegreiflichen Krieg inmitten der Alpen. Mehr über die Autorin auf [www.etappen-wandern.de](http://www.etappen-wandern.de)

Riuso Bruckmann Verlag

This guidebook describes 25 hut-to-hut treks in the Dolomites of northern Italy, covering 15 regions including Cortina, Sella, Sesto, Marmolada and Latemar. Ranging from 11.3km to 40.8km and from two to four days, the graded routes are suitable for walkers with a reasonable level of fitness and experience of mountain terrain, and some feature exposed sections which demand a good head for heights. This edition includes a number of treks in less frequently visited rugged districts, as well as the more popular trips, all of which take advantage of the region's network of mountain refuges and efficient public transport system, with the majority of routes accessible by public bus. Detailed route description is presented alongside mapping and stunning colour photography and the guide also suggests alternative access and exit routes, and options for linking routes to create a longer trek. There is plenty of advice to help make the most of a trip as well as background information on the region's geology, plants and wildlife and local cuisine. The Dolomites - a UNESCO World Heritage Site - are characterised by striking volcanic and sedimentary rock formations. Walking is an ideal way to discover this breathtaking landscape of angular peaks, towering pinnacles and jagged ridges, and the carefully chosen routes in this guide will exhilarate, challenge and inspire.

Rifugi e bivacchi in Trentino Rockfax Limited

Guidebook to the via ferrata routes of the southern Italian Dolomites. This guide covers via ferrata routes in the major mountain ranges of Civetta, Schiara and Pala as well as those to the west in the Brenta. A significant addition (and, as far as we are aware, not previously published in any English language guidebook) is the inclusion of routes around the northern end of Lake Garda and the Piccole Dolomites north of Vicenza. Here the mountains are generally lower and you can enjoy ferrata climbing over a much extended season, with some routes accessible for most of the year. This is the second in a series of two guidebooks to the via ferratas of the Italian Dolomites. (Volume One covers the eastern, northern and central areas of the Dolomites, while Volume Two completes the picture, focusing on the southern, Brenta and Lake Garda areas.)

Alta Via 1 and Alta Via 2 with Alta Via 3 - 6 in outline Touring Editore

Northern Italy's famous Alta Via long-distance walking routes are spread across the Dolomites, running roughly north to south and reaching as far as the Austrian border. There are six of these routes, and they increase in difficulty: Alta Via 1 has few exposed sections and is suitable for novice alpine trekkers; AV2 is much more challenging, only suitable for experienced alpine trekkers with a good head for heights, while AVs 3-6 have extended via ferrata sections and considerable exposure. AVs 1 and 2 are described in detail in this guidebook. The 120km AV1 is described over 11 day stages; AV2 covers

160km in 13 days and is more strenuous and technical. Overnight stops are at mountain huts or guesthouses. The demanding AV3-6 routes are described in outline. Now a World Heritage Site, the Italian Dolomites make a first-rate trekking destination. There is an excellent network of paths dotted with welcoming 'rifugi' (mountain huts) in stunning locations, and efficient public transport serving key trekking points. Written by an expert in Italian trekking, with information on the fascinating wartime history of the region, plants and wildlife and also practical considerations such as the best time to go, what to take and hut protocol, this guide offers trekkers all the information they need to enjoy the mountains to the full.
