A New York Times bestseller! The historic race that reawakened the promise of manned spaceflight A Finalist for the PEN/E. O. Wilson Literary Science Writing Award Alone in a Spartan black cockpit, test pilot Mike Melvill rocketed toward space. He had eighty seconds to exceed the speed of sound and begin the climb to a target no civilian pilot had ever reached. He might not make it back alive. If he did, he would make history as the world's first

commercial astronaut. The spectacle defied reason, the result of a competition dreamed up by entrepreneur Peter Diamandis, whose vision for a new race to space required small teams to do what only the world's largest governments had done before. Peter Diamandis was the son of hardworking immigrants who wanted their science prodigy to make the family proud and become a doctor. But from the age of eight, when he watched Apollo 11 land on the Moon, his singular goal was to get to space. When he realized NASA was winding down manned space flight, Diamandis set out on one of the great entrepreneurial adventure stories of our time. If the government wouldn't send him to space, he would create a private space flight industry himself. In the 1990s, this idea was the stuff of science fiction. Undaunted, Diamandis

found inspiration in an unlikely place: the golden age of aviation. He discovered that Charles Lindbergh made his transatlantic flight to win a \$25,000 prize. The flight made Lindbergh the most famous man on earth and galvanized the airline industry. Why, Diamandis thought, couldn't the same be done for space flight? The story of the bullet-shaped SpaceShipOne, and the other teams in the hunt, is an extraordinary tale of making the impossible possible. It is driven by outsized characters—Burt Rutan, Richard Branson, John Carmack, Paul Allen—and obsessive pursuits. In the end, as Diamandis dreamed, the result wasn't just a victory for one team; it was the foundation for a new industry and a new age. *Catch My Fall* Subterranean Press Here is a thing everyone

The history of American Indians on screen can be compared to a light shining through a prism. We may have seen bits and pieces of the genuine culture portrayed, but rarely did we see a satisfying and informative whole picture. *Savages and Saints* deals with the changing image of the American Indian in the Western film genre, contrasting the fictionalized images of native Americans portrayed in classic films against the historical reality of life on the American frontier. The book tells the stories of frontier warriors, Indian and white, revealing

how their stories were often drastically altered on screen according to the times the films were made, the stars involved in the film ' s production, and the social / political beliefs of the filmmakers. Studio correspondence, letters from government files, and passages from western novels adapted for the screen are used to illustrate the various points. Instructors considering this book for use in a course may request an examination copy here.

Broken Hart Knights of Echoes Cove From “ one of the best of the new [Martin Luther] biographers ” (The New Yorker), a portrait of the complicated founding father of the Protestant Reformation, whose intellectual assault on Catholicism transformed Christianity and changed the course of world history. “ Magnificent. ” —The Wall Street Journal “ Penetrating. ” —The New York Times Book Review “ Smart, accessible, authoritative. ” —Hilary Mantel On October 31, 1517, so the story goes, a shy monk named Martin Luther nailed a piece of paper to the door of the Castle Church in the university

town of Wittenberg. The ideas contained in these Ninety-five Theses, which boldly challenged the Catholic Church, spread like wildfire. Within two months, they were known all over Germany. So powerful were Martin Luther 's broadsides against papal authority that they polarized a continent and tore apart the very foundation of Western Christendom. Luther 's ideas inspired upheavals whose consequences we live with today. But who was the man behind the Ninety-five Theses? Lyndal Roper 's magisterial new biography goes beyond Luther 's theology to investigate the inner life of the religious reformer who has been called “ the last medieval man and the first modern one. ” Here is a full-blooded portrait of a revolutionary thinker who was, at his core, deeply flawed and full of contradictions. Luther was a brilliant writer whose biblical translations had a lasting impact on the German language. Yet he was also a strident fundamentalist whose scathing rhetorical attacks threatened to alienate those he might persuade. He had a colorful, even impish personality, and when he left the monastery to get married (“ to spite the Devil, ” he explained), he wooed and wed an ex-nun. But he had an ugly side too. When German peasants rose up against the nobility, Luther urged the aristocracy to slaughter them.

He was a ferocious anti-Semite and a virulent misogynist, even as he argued for liberated human sexuality within marriage. A distinguished historian of early modern Europe, Lyndal Roper looks deep inside the heart of this singularly complex figure. The force of Luther's personality, she argues, had enormous historical effects—both good and ill. By bringing us closer than ever to the man himself, she opens up a new vision of the Reformation and the world it created and draws a fully three-dimensional portrait of its founder.
