"A compelling explanation of the deep-seated mechanisms at work in the international credit system" from the coauthor of *Debt*, the IMF, and the World Bank (Counterfire). For as long as there have been rich nations and poor nations, debt has been a powerful force for maintaining the unequal relations between them. Treated as sacrosanct, immutable, and eternally binding, it has become the

yoke of choice for imperial powers in the post-colonial world to enforce their subservience over the global south. In this ground-breaking history, renowned economist Éric Toussaint argues for a radical reversal of this balance of accounts through the repudiation of sovereign debt. "Since 2008 CADTM has campaigned for 'a new doctrine of illegitimate, illegal, odious, and unsustainable debt' cancellation. This doctrine includes considerations of whether the debtor state is democratic,

---

whether it respects human rights, whether the debt is incurred within the framework of 'structural adjustments' (enforced austerity), and includes all debts incurred to pay back previous odious debts. On grounds of global social justice, The Debt System makes a strong case for this new doctrine." —Against the Current "This work has much to commend it; it provides detailed analyses of the impact of indebtedness in several nations . . . The author shows that, contrary to orthodox arguments, debt

repudiation can be both justified and successfully carried out. I recommend the book wholeheartedly."

Presented here are some of the most controversial and poignant questions asked by man: --Is abortion a sin? --What causes cancer? --Who is right: the creationists or evolutionists? --Where is my soul mate? --Is there life on other planets? --Who was Jesus? --What is my purpose?

"Nayeri combines her own experience with those of refugees she meets as an adult, telling their stories with tenderness and reverence." —The New York Times Book Review "Nayeri weaves her empowering personal story with those of the 'feared swarms' . . . Her family's escape from Isfahan to Oklahoma, which involved waiting in Dubai and Italy, is wildly fascinating . . . Using energetic prose, Nayeri is an excellent conduit for these heart-rending stories, eschewing judgment and employing care in threading the stories in with her own . . . This is a memoir laced with stimulus and plenty of heart at a time when the latter has grown elusive." —Star-Tribune (Minneapolis) Aged eight, Dina Nayeri fled Iran along with her mother and brother and lived in the crumbling shell of an Italian hotel-turned-refugee camp. Eventually she was granted asylum in America. She settled in Oklahoma, then made her way to

Princeton University. In this book, Nayeri weaves together her own vivid story with the stories of other refugees and asylum seekers in recent years, bringing us inside their daily lives and taking us through the different stages of their journeys, from escape to asylum to resettlement. In these pages, a couple fall in love over the phone, and women gather to prepare the noodles that remind them of home. A closeted queer man tries to make his case truthfully as he seeks asylum, and a translator attempts to help new arrivals present their stories to officials. Nayeri confronts notions like "the swarm," and, on the other hand, "good" immigrants. She calls attention to the harmful way in which Western governments privilege certain dangers over others. With surprising and provocative questions, *The Ungrateful Refugee* challenges us to rethink how we talk about the refugee crisis. "A writer who confronts issues that are key to the refugee experience." —Viet Thanh Nguyen, Pulitzer Prize-winning author of *The Sympathizer* and *The Refugees*

The global economy has experienced four waves of rapid debt accumulation over the past 50 years. The first three debt waves ended with financial crises in many emerging market and developing economies. During the current wave, which started in 2010, the increase in debt in these economies has already been larger, faster, and broader-based than in the previous three waves. Current low interest rates mitigate some of the risks associated with high debt. However, emerging market and developing economies are also confronted by weak growth prospects, mounting vulnerabilities, and elevated global risks. A menu of policy options is available to reduce the likelihood that the current debt wave will end in crisis and, if crises do take place, will alleviate their impact.

In his latest book, leading educator and author Kevin Kumashiro takes aim at the current debate on educational reform, paying particular attention to the ways that scapegoating public school teachers, teacher unions, and teacher educators masks the real, systemic problems. He convincingly demonstrates how current trends, like market-based reforms and fast-track teacher certification programs are creating overwhelming obstacles to achieving an equitable education for all children. *Bad Teacher!* highlights the common ways that both the public and influential leaders think about the problems and solutions for public education, and suggests ways to help us see the bigger picture and reframe the debate. Compelling, accessible, and grounded in current initiatives and debates, this book is important reading for a diverse audience of policymakers, school leaders, parents, and everyone who cares about education. Dorothea Lange/Paul Taylor Prize in Documentary. Featured on Politico, in the Washington Post, the Daily Mail, and the Huffington Post, USA Today, Business Insider, Refinery29, and Fast Company. Based on the popular online photo series and now published in print for the first time, The Debt Project collects 99 portraits of debt across the United States, featuring people of all different backgrounds and stories, to recontextualize an often stigmatized experience. In 2013, Brittany Powell made the difficult decision to file for bankruptcy for her photography business. In the years following the 2008 economic collapse, she found herself in a significant amount of debt, a position many Americans across the country still share, a common yet isolating and private experience often steeped in shame. Her personal experience, bolstered by the We Are the 99% slogan that came out of the Occupy movement, brought her to start The Debt Project, an exploration of the role debt and finance plays in our personal identity

and social structure. This book presents an intimate look into 99 different lives: each shares an arrestingly honest portrait in the person ' s home, surrounded by all their belongings, accompanied by a handwritten note of the amount of debt that person is in and the story behind the numbers. The Debt Project, with a foreword by writer and filmmaker Astra Taylor plus resources at the back of the book to support people in debt, examines the social and personal hold financial debt has on us and invites others into a private world, while at the same empowering people to share their stories and overcome the shame they may feel.

Since the beginning of the transition in 1990, the state has pursued a national project of reconciliation construed as debts owed to the population. rights violations. *Life in Debt* invites us into lives and world of a poor urban neighborhood in Santiago. Tracing relations and lives between 1999 and 2010, Clara Han explores how the moral and political subjects imagined and asserted by poverty and mental health policies and reparations for human rights violations are refracted through relational modes and their boundaries. Attending to intimate scenes and neighborhood life, Han reveals the force of relations in the making of selves in a world in which unstable work patterns, illness, and pervasive economic indebtedness are aspects of everyday life. Lucidly written, *Life in Debt* provides a unique meditation on both the past inhabiting actual life conditions but also on the difficulties of

Algernon Blackwood (1869-1951) was an English short story writer and novelist, one of the most prolific writers of ghost stories in

---

the history of the genre. Though Blackwood wrote a number of horror stories, his most typical work seeks less to frighten than to induce a sense of awe. Good examples are the novels *The Centaur*, which climaxes with a traveler's sight of a herd of the mythical creatures; and *Julius LeVallon* and its sequel *The Bright Messenger*, which deal with reincarnation and the possibility of a new, mystical evolution in human consciousness.

The Ungrateful Refugee Good Press  
The Federal Trade Commission receives more complaints about rogue debt collecting than about any activity besides identity theft. Dramatically and entertainingly, *Bad Paper* reveals why. It tells the story of Aaron Siegel, a former banking executive, and Brandon Wilson, a former armed robber, who become partners and go in quest of "paper"—the uncollected debts that are sold off by banks for

---

pennies on the dollar. As Aaron and Brandon learn, the world of consumer debt collection is an unregulated shadowland where operators often make unwarranted threats and even collect debts that are not theirs. Introducing an unforgettable cast of strivers and rogues, Jake Halpern chronicles their lives as they manage high-pressure call centers, hunt for paper in Las Vegas casinos, and meet in parked cars to sell the social security numbers and account information of unsuspecting consumers. He also tracks a "package" of debt that is stolen by unscrupulous collectors, leading to a dramatic showdown with guns in a Buffalo corner store. Along the way, he reveals the human cost of a system that compounds the troubles of hardworking Americans and permits banks to ignore their former customers. The result is a vital exposé that is also a bravura feat of storytelling.

This book, first published in 1984, analyses the institutions and decision-making processes that

determined agricultural production in the Soviet Union. It addresses the crisis in Soviet agriculture of the early 1980s, examining the problems of low productivity, adverse natural conditions and an underdeveloped infrastructure. The book's analysis of the 'crisis' focuses on the growing gap between demand and supply of agricultural produce, and the pressures on the government to alleviate the food shortages.

A clear, authoritative guide to the crisis of 2008, its continuing repercussions, and the needed reforms ahead. The U.S. economy lost the first decade of the twenty-first century to an ill-conceived boom and subsequent bust. It is in danger of losing another decade to the stagnation of an

---

incomplete recovery. How did this happen? Read this lucid explanation of the origins and long-term effects of the recent financial crisis, drawn in historical and comparative perspective by two leading political economists. By 2008 the United States had become the biggest international borrower in world history, with more than two-thirds of its \$6 trillion federal debt in foreign hands. The proportion of foreign loans to the size of the economy put the United States in league with Mexico, Indonesia, and other third-world debtor nations. The massive inflow of foreign funds financed the booms in housing prices and consumer spending that fueled the economy until the collapse of late 2008. This was the most serious international economic crisis since the Great Depression of the 1930s. Menzie Chinn and Jeffrey Frieden explain the political and economic roots of this crisis as well as its long-term effects. They explore the political strategies behind the Bush administration ' s policy of funding massive deficits with foreign borrowing. They show that the crisis was foreseen by many and was avoidable through appropriate policy measures. They examine the continuing impact of our huge debt on the continuing slow recovery from the recession. Lost Decades will long be regarded as the standard account of the crisis and its aftermath.
