And it was the year he met Nonno Frankie Vivona, who became his Pigman. Every word of his story is true. Maria Fermoyle is a strong but vulnerable divorced woman whose loneliness and ambition for her children make her easy prey for dangerous con man Omar Duvall. Marie's children are Alice, seventeen—involved with a young priest; Norm, sixteen—hotheaded and idealistic; and Benny, twelve—isolated and misunderstood, and so desperate for his mother's happiness that he hides the deadly truth he knows about Duvall. We also meet Sam Fermoyle, the children's alcoholic father; Sam's brother-in-law, who makes anonymous "love" calls from the bathroom of his failing appliance store; and the Klubock family, who—in contrast to the Fermoyles—live an orderly life in the house next door. Songs in Ordinary Time is a masterful epic of the everyday, illuminating the kaleidoscope of lives that tell the compelling story of this unforgettably family.

Moderne Diplomatie wirkt heute in viele Bereiche des modernen Lebens hinein. Sie ist zugleich selbst neuen Einflüssen ausgesetzt. Faktoren, die unsere Gesellschaften verändern, verändern auch unser Regierungshandeln, auch in der Außenpolitik, seien es Digitalisierung, emotionalisierte Sensibilitäten unserer Öffentlichkeiten oder nicht-staatliche internationale Akteure. Derartige Entwicklungen müssen von der Diplomatie aufgenommen werden, damit sie weiter als Instrument einer Regierung funktionieren kann. Regierungen sollten Wege finden, zwischen den neuen Bedürfnissen der Gesellschaft und den Notwendigkeiten legitimen Regierungshandelns zu vermitteln. Das Ziel sollte sein, als souveräner Staat handeln zu können und zugleich das Potential der tiefgreifenden gesellschaftlichen Veränderungen zu nutzen. Forever . . . Routledge

From the author of Guns, Germs and Steel, Jared Diamond's Collapse: How Societies Choose to Fail or Survive is a visionary study of the mysterious downfall of past civilizations. Now in a revised edition with a new afterword, Jared Diamond's Collapse uncovers the secret behind why some societies flourish, while others founder - and what this means for our future. What happened to the people who made the forlorn long-abandoned statues of Easter Island? What happened to the architects of the crumbling Maya pyramids? Will we go the same way, our skyscrapers one day standing derelict and overgrown like the temples at Angkor Wat? Bringing together new evidence from a startling range of sources and piecing together the myriad influences, from climate to culture, that make societies self-destruct, Jared Diamond's Collapse also shows how - unlike our ancestors - we can benefit from our knowledge of the past and learn to be survivors. 'A grand sweep from a master storyteller of the human race' - Daily Mail 'Riveting, superb, terrifying' - Observer 'Gripping ... the book fulfils its huge ambition, and Diamond is the only man who could have written it' - Economist 'This book shines like all Diamond's work' - Sunday Times

This book explores the paradoxes and unique characteristics of the World Economic Forum, highlighting contemporary issues and debates on global governance, economic development and corporate social responsibility. The Forum is one of the most influential, but least understood, global institutions. Its annual meeting in Davos, Switzerland and its regional summits held around the world attract a significant and powerful audience from the worlds of business, economics, politics and civil society. The participants, who include business and political leaders, representatives of international institutions and civil society organizations,

academia and the media, meet to debate issues of global concern and to develop possible solutions. Forum members see the organization as an innovative venue bringing together different types of stakeholders to solve global problems. To its critics, however, the Forum's public face conceals a private venue for making business deals. With clear and concise sections, including boxes containing key ideas and arguments, The World Economic Forum is a much needed introduction to an important and controversial organization and will be of considerable interest to students and practitioners of international business, international political economy, economics, development, international relations, and globalization.
