The book of Hebrews appeared during a

critical time in the history of the early church. The destruction of Jerusalem was impending and many of the believers believed the end of the world was near. However, Paul warned the church against entertaining a false hope, for he knew they were misguided with their beliefs. It was a critical time—the apostles were passing away, and soon the church would be left alone. It was in this hour of perplexity that the book of Hebrews appeared with needed light and comfort. The people needed a clear conception of the work Christ was doing for them in the courts above, and this book explained the delay in His return, and restored their wavering faith. The conditions and problems which the church then had to meet are not unlike those facing the church today. While the early church was living at the time of the fulfillment of the first part of Christ's prophecy—the destruction of the city of Jerusalem and the temple, we are living at the time of the fulfillment of the second part of the prophecy—the coming of the Lord Jesus in the clouds of heaven. As there was misconceptions of Christ's work in the sanctuary then, so there are those now who likewise err. There is as much need today of a thorough study of the Scriptures as there was then, and more so. The book of Hebrews was a great factor in stabilizing the apostolic church in the crisis hour before the fall of Jerusalem,

and it is hoped that a discussion of the mighty themes of the book of Hebrews will be of some help to the church of God today. All need to have their eyes fastened on our great High Priest and the work He is doing in the sanctuary above. And may it be the blessed privilege of many with “ boldness to enter into the holiest by the blood of Jesus, by a new and living way, which he hath consecrated for us, through the veil, that is to say, his flesh. ” (Heb. 10:19, 20.) This was the prayer and hope of the author of Hebrews, and this also is the hope of the author of this volume.

This book is about representations of the devil in English and European literature. Tracing the fascination in literature, philosophy, and theology with the irreducible presence of what may be called evil, or comedy, or the carnivalesque, this book surveys the parts played by the devil in the texts derived from the Faustus legend, looks at Marlowe and Shakespeare, Rabelais, Milton, Blake, Hoffmann, Baudelaire, Goethe, Dostoevsky, Bulgakov, and Mann, historically, speculatively, and from the standpoint of critical theory. It asks: Is there a single meaning to be assigned to the idea of the diabolical? What value lies in thinking diabolically? Is it still the definition of a good poet to be of the devil's party, as Blake argued?

The Book of Tobias HarperCollins Australia Starman is the third title in Sara Douglass's epic fantasy Wayfarer Redemption series. A sprawling tale of love and magic, enormous battles and true monsters Axis is the StarMan of prophecy and legend, destined to lead the three races of his world to unite as one people. The people of his world all know the Prophecy of the Destroyer, despite the failed attempts of the Seneschal to suppress it in the name of the god Artor the Ploughman, and it predicts and dictates Axis's path through war and destruction to the creation of Tencendor. The Prophecy foretold that Axis

would defeat his half-brother and lay claim to the land that Tencendor will be created upon. The Prophecy told of the traitor in Axis's camp-Faraday's champion, Timozel. And the Prophecy foretold many a choice that Axis must make in order to fulfill his destiny . . . but neglected to mention the choice between the beautiful and courageous Faraday, his late half-brother's wife, and the feisty and hauntingly enchanting Azhure. To Faraday, he had pledged his love and a place by his side as ruler of Tencendor; to Azhure, he had given his children, his time, and his devotion. His love for both women is what the last twist of the Prophecy relies on. While Azhure explores her newfound powers as an Icarii Enchantress, and Faraday replants the ancient forests of the Mother, the evil Gorgrael is plotting Axis's downfall, invading the sky with ice and terror and the flesh-hungry Gryphons. His most daring move is to follow prophecy, to taunt Axis with the pain of his beloved. But which beloved woman will Gorgrael choose . . . and will she be the one whose death will distract Axis from saving the world? Jewish customs and traditions about death, burial and mourning are numerous, diverse and intriguing. They are considered by many to have a respectable pedigree that goes back to the earliest rabbinic period. In order to examine the accurate historical origins of many of them, an international conference was held at Tel Aviv University in 2010 and experts dealt with many aspects of the topic. This volume includes most of the papers given then, as well as a few added later. What emerges are a wealth of fresh material and perspectives, as well as the realization that the high Middle Ages saw a set of exceptional innovations, some of which later became central to traditional Judaism while others were gradually abandoned. Were these innovations influenced by Christian practice? Which prayers and poems reflect these innovations? What do the sources tell us about changing attitudes to death and life-after death? Are tombstones an important guide to historical developments? Answers to these questions are to be found in this unusual, illuminating and readable collection of essays that have been well documented, carefully edited and well indexed.

Abi Talib, son-in-law and cousin of the Prophet Muhammad, first Shi'i imam and fourth caliph, is a monumental figure within the Islamic tradition. But despite the immense importance of Ali, there is a dearth of literature in Western languages about his life and thought. This book - the first serious engagement in English with the intellectual principles underpinning his teachings - is therefore a welcome and valuable addition to the sources available. It consists of three parts. Part one introduces the person of Ali in a general manner, and focuses particularly on the spiritual and ethical content of his teachings. Part two evaluates Ali's 'sacred conception of justice'. Part three addresses the theme of spiritual realization through the remembrance of God, the central mystical practice of the Sufis. Justice and Remembrance will be of great value to students and scholars of Islamic thought, as well as to those interested in the relationship between spirituality and ethics.

The study of South Asian music falls under the purview of ethnomusicology, whereas that of South Asian literature falls under South Asian studies. As a consequence of this academic separation, scholars rarely take notice of connections between South Asian song and poetry. Modernizing Composition overcomes this disciplinary fragmentation by examining the history of Sinhala-language song and poetry in twentieth-century Sri Lanka. Garrett Field describes how songwriters and poets modernized song and poetry in response to colonial and postcolonial formations. The story of this modernization is significant in that it shifts focus from India's relationship to the West to little-studied connections between Sri Lanka and North India.

This book discusses the common principles of

morality and ethics derived from divinely endowed intuitive reason through the creation of al-fitr' a (nature) and human intellect (al- ' aql). Biomedical topics are presented and ethical issues related to topics such as genetic testing, assisted reproduction and organ transplantation are discussed. Whereas these natural sources are God's special gifts to human beings, God's revelation as given to the prophets is the supernatural source of divine guidance through which human communities have been guided at all times through history. The second part of the book concentrates on the objectives of Islamic religious practice – the maqa' sid – which include: Preservation of Faith, Preservation of Life, Preservation of Mind (intellect and reason), Preservation of Progeny (al-nasl) and Preservation of Property. Lastly, the third part of the book discusses selected topical issues, including abortion, assisted reproduction devices, genetics, organ transplantation, brain death and end-of-life aspects. For each topic, the current medical evidence is followed by a detailed discussion of the ethical issues involved.
