How to Have More Women and Take Back Your Manhood
Simon and Schuster

The 48 Laws of Power was written by Robert Greene and first published in 1998. It is often praised as one of the best books to read if you want to get ahead in life. This got me to thinking, "why isn't there anything like this for our community?" We have a lot of people talking about what we need to do, what we should do, and what we could do as a community, but nothing concrete that we could all sit down with, learn from, and relate to on an individual level. The 48 Laws of Black Empowerment was written to bridge the gap between individual action and a united black community. This book is broken down into six areas of importance to the black community. 1. Personal 2. Family 3. Finance 4. Community 5. Philanthropy 6. Activism Working to individually improve ourselves in these areas will automatically result in a shift in black community consciousness. While The 48 Laws of Power is a great book, it just wasn't written with our community or needs in mind. The 48 Laws of Black Empowerment is about cultivating success in business and life, while also helping our friends, family and community succeed with us.

Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In The 48 Laws of Power, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends.
