An Anonymous Girl Center Point

A breathtaking exploration of memory and what it means to be human, *Recursion* is the follow-up novel to the smash-hit thriller, *Dark Matter*, by Blake Crouch. 'Recursion takes mind-twisting premises and embeds them in a deeply emotional story about time and loss and grief and most of all, the glory of the human heart' - Gregg Hurwitz, author of *Orphan X* At first, it looks like a disease.

An epidemic that spreads through no known means, driving its victims mad with memories of a life they never lived. But the force that's sweeping the world is no pathogen. It's just the first shockwave, unleashed by a stunning discovery – and what's in jeopardy is not just our minds. In New York City, Detective Barry Sutton is closing in on the truth – and in a remote laboratory, neuroscientist Helena Smith is unaware that she alone holds the key to this mystery . . . and the tools for fighting back. Together, Barry and Helena will have to confront their enemy – before they, and the world, are trapped in a loop of ever-growing chaos. 'A fantastic read' – Andy Weir, author of *The Martian*.

An ordinary man undergoes a startling transformation—and fears that all of humanity may be next—in the mindblowing new thriller from the New York Times bestselling author of *Dark Matter* and *Recursion* “ You are the next step in human evolution. ” At first, Logan Ramsay isn ' t sure if anything ' s different. He just feels a little . . . sharper. Better able to concentrate. Better at multitasking. Reading a bit faster, memorizing better, needing less sleep. But before long, he can ' t deny it: Something ' s happening to his brain. To his body. He ' s starting to see the world, and those around him—even those he loves most—in whole new ways. The truth is, Logan ' s genome has been hacked. And there ' s a reason he ' s been targeted for this upgrade. A reason that goes back decades to the darkest part of his past, and a horrific family legacy. Worse still, what ' s happening to him is just the first step in a much larger plan, one that will inflict the same changes on humanity at large—at a terrifying cost. Because of his new abilities, Logan ' s the one person in the world capable of stopping what ' s been set in motion. But to have a chance at winning this war, he ' ll have to become something other than himself. Maybe even something other than human. And even as he ' s fighting, he can ' t help wondering: what if humanity ' s only hope for a future really does lie in engineering our own evolution? Intimate in scale yet epic in scope, *Upgrade* is an intricately plotted, lightning-fast tale that charts one man ' s thrilling transformation, even as it asks us to ponder the limits of our humanity—and our boundless potential.

Guilty Minds HarperCollins

“ Three Years with the Rat is a mind-warping thriller that will make you question reality as you conceive of it. One of the most assured and haunting debuts I ' ve read in recent memory. ” —Blake Crouch, author of *Dark Matter* After several years of drifting between school and go-nowhere jobs, a young man is drawn back into the big city of his youth. The magnet is his beloved older sister, Grace: always smart and charismatic even when she was rebelling, and always his hero. Now she is a promising graduate student in psychophysics and the center of a group of friends who take “ Little Brother ” into their fold, where he finds camaraderie, romance, and even a decent job. But it soon becomes clear that things are not well with Grace. Always acerbic, she now veers into sudden rages that are increasingly directed at her adoring boyfriend, John, who is also her fellow researcher. When Grace disappears, and John shortly thereafter, the narrator makes an astonishing discovery in their apartment: a box big enough to crawl inside, a lab rat, and a note that says This is the only way back for us. Soon he embarks on a mission to discover the truth, a pursuit that forces him to question time and space itself, and ultimately toward a perilous confrontation at the very limits of imagination. This kinetic novel catapults the classic noir plot of a woman gone missing into the twenty-first-century city, where so-called reality crashes into speculative science. Jay Hosking's *Three Years with the Rat* is simultaneously a mind-twisting mystery that plays with the very nature of time and the story of a young man who must face the dangerously destructive forces we all carry within ourselves.

This is the second annual edition of the Long List Anthology. Every year, supporting members of WorldCon nominate their favorite stories first published during the previous year to determine the top five in each category for the final Hugo Award ballot. Between the announcement of the ballot and the Hugo Award ceremony at WorldCon, these works often become the center of much attention (and contention) across fandom. But there are more stories loved by the Hugo voters, stories on the longer nomination list that WSFS publishes after the Hugo Award ceremony at WorldCon. The Long List Anthology Volume 2 collects 18 fiction stories from that nomination list, along with 2 essays from the book *Letters to Tiptree* that was also on the nomination list, totaling over 500 pages of fiction by writers from all corners of the world. Within these pages you will find a mix of science fiction and fantasy and horror, the dramatic and the lighthearted, from android caretakers to Lovecraftian romances, from adventures to quests and more. There is a wide variety of styles and types of stories here, and something for everyone. The stories included are: "Damage" by David D. Levine "Pockets" by Amal El-Mohtar "Today I Am Paul" by Martin L. Shoemaker "The Women You Didn't See" by Nicola Griffith (a letter from *Letters to Tiptree*) "Tuesdays With Molakesh the Destroyer" by Megan Grey "Wooden Feathers" by Ursula Vernon "Three Cups of Grief, By Starlight" by Aliette de Bodard "Madeleine" by Amal El-Mohtar "Neat Things" by Seanan McGuire (a letter from *Letters To Tiptree*) "Pocosin" by Ursula Vernon "Hungry Daughters of Starving Mothers" by Alyssa Wong "So Much Cooking" by Naomi Kritzer "The Deepwater Bride" by Tamsyn Muir "The Heart's Filthy Lesson" by Elizabeth Bear "Grandmother-nai-Leylit's Cloth of Winds" by Rose Lemberg "Another Word For World" by Ann Leckie "The Long Goodnight of Violet Wild" by Catherynne M. Valente "Our Lady of the Open Road" by Sarah Pinsker "The Pauper Prince and the Eucalyptus Jinn" by Usman T. Malik "The Sorcerer of the Wildeeps" by Kai Ashante Wilson

The Philadelphia Chromosome Ballantine Books

Philadelphia, 1959: A scientist scrutinizing a single human cell under a microscope detects a missing piece of DNA. That scientist, David Hungerford, had no way of knowing that he had stumbled upon the starting point of modern cancer research—the Philadelphia chromosome. It would take doctors and researchers around the world more than three decades to unravel the implications of this landmark discovery. In 1990, the Philadelphia chromosome was recognized as the sole cause of a deadly blood cancer, chronic myeloid leukemia, or CML. Cancer research would never be the same. Science journalist Jessica Wapner reconstructs more than forty years of crucial breakthroughs, clearly explains the science behind them, and pays tribute—with extensive original reporting, including more than thirty-five interviews—to the dozens of researchers, doctors, and patients with a direct role in this inspirational story. Their curiosity and determination would ultimately lead to a lifesaving treatment unlike anything before it. The Philadelphia Chromosome chronicles the remarkable change of fortune for the more than 70,000 people worldwide who are diagnosed with CML each year. It is a celebration of a rare triumph in the battle against cancer and a blueprint for future research, as doctors and scientists race to uncover and treat the genetic roots of a wide range of cancers.

ONE OF THE SUNDAY TIMES' BUSINESS BOOKS OF THE YEAR Technology is putting our humanity at risk to an unprecedented degree. This book is not for engineers who write the code or the policy makers who claim they can regulate it. This is a book for you. Because, believe it or not, you are the only one that can fix it. — Mo Gawdat Artificial intelligence is smarter than humans. It can process information at lightning speed and remain focused on specific tasks without distraction. AI can see into the future, predicting outcomes and even use sensors to see around physical and virtual corners. So why does AI frequently get it so wrong? The answer is us. Humans design the algorithms that define the way that AI works, and the processed information reflects an imperfect world. Does that mean we are doomed? In Scary Smart, Mo Gawdat, the internationally bestselling author of Solve for Happy, draws on his considerable expertise to answer this question and to show what we can all do now to teach ourselves and our machines how to live better. With more than thirty years' experience working at the cutting-edge of technology and his former role as chief business officer of Google [X], no one is better placed than Mo Gawdat to explain how the Artificial Intelligence of the future works. By 2049 AI will be a billion times more intelligent than humans. Scary Smart explains how to fix the current trajectory now, to make sure that the AI of the future can preserve our species. This book offers a blueprint, pointing the way to what we can do to safeguard ourselves, those we love and the planet itself.

"Silas Williams is the brilliant geneticist in charge of preparing the U.S. entry into the Olympic Gladiator competition, an internationally sanctioned bloodsport with only one rule: no human DNA is permitted in the design of the entrants. Desperate to maintain America's edge in the upcoming Games, Silas's boss engages an experimental supercomputer to design the genetic code for a gladiator that cannot be beaten. The result is a highly specialized killing machine, its genome never before seen on earth. Not even Silas, with all his genius and experience, can understand the horror he had a hand in making. And no one, he fears, can anticipate the consequences of entrusting the act of creation to a computer's cold logic. Now Silas races to understand what the computer has wrought, aided by a beautiful xenobiologist, Vidonia Joao."--from publisher's description.

The Long List Anthology Volume 2 Thomas & Mercer

A stunning new novel from the two-time Man Booker shortlisted author of The Secret Scripture. Sebastian Barry's latest novel, A Thousand Moons, is now available. Irishman Jack McNulty is a “ temporary gentleman ” —an Irishman whose commission in the British army in World War II was never permanent. Sitting in his lodgings in Accra, Ghana, in 1957, he ’ s writing the story of his life with desperate urgency. He cannot take one step further without examining all the extraordinary events that he has seen. A lifetime of war and world travel—as a soldier in World War II, an engineer, a UN observer—has brought him to this point. But the memory that weighs heaviest on his heart is that of the beautiful Mai Kirwan, and their tempestuous, heartbreaking marriage. Mai was once the great beauty of Sligo, a magnetic yet unstable woman who, after sharing a life with Jack, gradually slipped from his grasp. Award-winning author Sebastian Barry ’ s The Temporary Gentleman is the sixth book in his cycle of separate yet interconnected novels that brilliantly reimagine characters from Barry ’ s own family.
