Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration

In the first full-length economic history of pre-Confederation Nova Scotia, Julian Gwyn challenges the popular myth that the British colony prospered before it became a province of Canada. Through his discussion of three periods in Nova Scotia's development (1740-1815, 1815-53, and 1853-70) and four themes regionalism, imports and the standard of living, reciprocity, and the balance of payments) he shows that the colony's pre-

Confederation economy was anything but glorious. Gwyn argues that Nova Scotia's economy suffered from numerous disadvantages and had few strengths. The 1755 deportation of Acadians destroyed a flourishing agriculture, and the limited extent of arable soil inhibited continuous, interconnected settlement: the colony's regions remained sparsely connected even at Confederation. During the generation it took agriculture to recover from the Deportation, lumber came to provide both an export in its own right and the basis for shipping and shipbuilding. However, thanks in part to the colonial assembly's neglect, the availability of ships did not lead to a prosperous fishing industry. Throughout the period under study, Nova Scotia remained very vulnerable to shifts in the North Atlantic economy and to changes in Britain's military spending and its relations with Nova Scotia's American and Canadian neighbours. British industrialization, changing patterns of trade with the West Indies, and the advent of steamships all challenged Nova Scotia's natural resource sectors and its shipping and shipbuilding, and Confederation necessitated yet another reorientation. While some sectors of the economy displayed real expansion during the early nineteenth century, Gwyn finds that overall the growth was "extensive" rather than "intensive" - it merely kept pace with expanding population, providing no base for the often-predicted glowing economic future. Excessive Expectations sheds light on the current economic problems faced by the Maritimes and will be of great interest to anyone seeking to understand the historical background of this part of the

Atlantic's economy.

Thank you for reading our PRINCE2 Foundation Training Manual. The main objective of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with PRINCE2," is an

excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are new to project management. The official PRINCE2 manual also covers the complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people wishing to learn about PRINCE2 and prepare for the foundation exam.

I've been taking care of my little sister for a long time. When Mom was gone, she suddenly became my responsibility. The best years of my life were spent being a caretaker to someone else...with no one to take care of me. So I moved to Paris for my study-abroad program and ended up staying, getting a French Literature degree, studying the classics while sipping the best wine I'd ever had. My sister never makes the best decisions, always makes messes to clean up, and it's finally time for me to have my own life. But when she comes to Paris for a

---

visit...she brings trouble with her. She gets herself into a bad situation, and of course, I come to her rescue...like I always do. Now we're in a labor camp in the middle of nowhere, surrounded by endless snow and mountains, processing drugs for a group of men that never show their faces. There's no chance of escape in this wilderness. Except for my guard. He's not a saint, but he's the only man that's kind to me. He knows I want to escape, but he never reports me. When I've had a hard day, he brings me extra things to make my life easier. He tells me not to run because I'll never make it...but he brings me little hidden tools...as if he's giving me the means. Like he wants me to be free.
