Limited liability companies offer both the personal protection from business debts of a corporation and the tax benefits of a partnership. But LLCs also require careful record keeping, regular meetings and formal minutes-without them, the IRS and the courts could hold LLC members personally liable for LLC debts.

"Making and Being draws on the lived experience of Susan Jahoda and Caroline Woolard, visual arts educators who have developed a framework for teaching art with the collective BFAMFAPhD that emphasizes contemplation, collaboration, and political economy. The authors share ideas and pedagogical strategies that they have adapted to spaces of learning which range widely, from self-organized workshops for professional artists to Foundations BFA and MFA thesis classes. This hands-on guide includes activities, worksheets, and assignments and is a critical resource for artists and art educators today"--Page 4 of

Rethinking Contemporary Art and Multicultural Education  
Walter de Gruyter GmbH & Co KG  
For over a decade, Contemporary Art and Multicultural Education has served as the guide to multicultural art education, connecting everyday experience, social critique, and creative expression with classroom learning. The much-anticipated Rethinking Contemporary Art and Multicultural Education continues to provide an accessible and practical tool for teachers, while offering new art, essays, and content to account for transitions and changes in both the fields of art and education. A beautifully-

---

illustrated collaboration of over one hundred artists, writers, curators, and educators from in and around the contemporary art world, this volume offers thoughtful and innovative materials that challenge the normative practices of arts education and traditional art history. Rethinking Contemporary Art and Multicultural Education builds upon the pedagogy of the original to present new possibilities and modes of understanding art, culture, and their relationships to students and ourselves. The fully revised second edition provides new theoretical and practical resources for educators and students everywhere, including: Educators'

perspectives on contemporary art, multicultural education, and teaching in today ' s classroom Full-color reproductions and writings on over 50 contemporary artists and their works, plus an additional 150 black-and-white images throughout Lesson plans for using art to explore topical issues such as activism and democracy, conflict: local and global, and history and historicism A companion website offering over 250 color reproductions of artwork from the book, a glossary of terms, and links to the New Museum and G: Class websites---

With 30 projects and an introduction to both crafting paper flowers and working with crepe paper, this book is full of inspiration and expert advice for beginners. If you have a Cricut Maker, you can download the templates to your machine so you can enjoy your own homemade bouquets in no time. Crepe paper is the best material for creating paper flowers, especially for beginners. It's forgiving and malleable--easy to cut, bend, curl, and shape into peony

---

petals, daffodil trumpets, chrysanthemum blooms, and more. And if you have a Cricut Maker, you can easily cut out the shapes from templates you download for free on Lia Griffith's website using a code. Then, follow instructions for crafting the flowers to arrange and display in vases and pots and as bouquets and wreaths.

**Local Budgeting** Taylor & Francis

Local budgeting serves important functions that include setting priorities, planning, financial control

over inputs, management of operations and accountability to citizens. These objectives give rise to technical and policy issues that require open discussion and debate. The format of the budget document can facilitate this debate. This book provides a comprehensive treatment of all aspects of local budgeting needed to develop sound fiscal administration at the local level. Topics covered include fiscal administration, forecasting, fiscal discipline, fiscal transparency, integrity of revenue administration,

budget formats, and processes including performance budgeting, and capital budgeting.

**Crepe Paper Flowers** John Wiley & Sons

The authors of the international bestseller **Business Model Generation** explain how to create value propositions customers can't resist. **Value Proposition Design** helps you tackle the core challenge of every business — creating compelling products and services customers want to buy. This highly practical book, paired with its online companion, will teach you the

---

processes and tools you need to create products that sell. Using the same stunning visual format as the authors' global bestseller, *Business Model Generation*, this sequel explains how to use the "Value Proposition Canvas" to design, test, create, and manage products and services customers actually want. *Value Proposition Design* is for anyone who has been frustrated by new product meetings based on hunches and intuitions; it's for anyone who has watched an expensive new product launch fail in the market. The book will help you understand the

patterns of great value propositions, get closer to customers, and avoid wasting time with ideas that won't work. You'll learn the simple process of designing and testing value propositions, that perfectly match customers' needs and desires. In addition the book gives you exclusive access to an online companion on [Strategyzer.com](http://Strategyzer.com). You will be able to assess your work, learn from peers, and download pdfs, checklists, and more. *Value Proposition Design* is an essential companion to the "Business Model Canvas" from *Business Model*

*Generation*, a tool embraced globally by startups and large corporations such as MasterCard, 3M, Coca Cola, GE, Fujitsu, LEGO, Colgate-Palmolive, and many more. *Value Proposition Design* gives you a proven methodology for success, with value propositions that sell, embedded in profitable business models." The ROV Manual: A User Guide  
for Observation-Class Remotely  
Operated Vehicles is the first  
manual to provide a basic "How  
To" for using small observation-  
class ROVs for surveying,  
inspection and research  
procedures. It serves as a user  
guide that offers complete  
training and information about  
ROV operations for technicians,  
underwater activities enthusiasts,  
and engineers working offshore.  
The book focuses on the  
observation-class ROV and  
underwater uses for industrial,  
recreational, commercial, and  
scientific studies. It provides

information about marine robotics  
and navigation tools used to  
obtain mission results and data  
faster and more efficiently. This  
manual also covers two common  
denominators: the technology and  
its application. It introduces the  
basic technologies needed and  
their relationship to specific  
requirements; and it helps identify  
the equipment essential for a cost-  
effective and efficient operation.  
This user guide can be invaluable  
in marine research and surveying,  
crime investigations, harbor  
security, military and coast  
guarding, commercial boating,  
diving and fishing, nuclear energy  
and hydroelectric inspection, and  
ROV courses in marine and  
petroleum engineering. \* The first

book to focus on observation class

Vehicle) underwater deployment  
in real conditions for industrial,  
commercial, scientific and  
recreational tasks \* A complete  
user guide to ROV operation with  
basic information on underwater  
robotics and navigation  
equipment to obtain mission  
results quickly and efficiently \*

The ROV Manual National  
Geographic Books

For all being interested in  
astronautics, this translation  
of Hermann Oberth ' s  
classic work is a truly historic  
event. Readers will be  
impressed with this  
extraordinary pioneer and  
his incredible achievement.  
In a relatively short work of  
1923, Hermann Oberth laid  
down the mathematical laws  
governing rocketry and  
spaceflight, and he offered

practical design  
considerations based on those  
laws.

Field and Stream Farrar,  
Straus and Giroux

This book contains not only  
extracts from the constitution  
of the Rosicrucian order, but a  
complete outline and  
explanation of all the customs,  
habits and terminology of the  
Rosicrucians, with diagrams  
and explanations of the  
symbols used in the teachings,  
an outline of the subjects  
taught, a dictionary of the  
terms, a complete presentation  
of the principles of cosmic  
consciousness, and

biographical sketches of  
important individuals  
connected with the work. There  
are also special articles on the  
Great White Lodge and its  
existence, how to attain psychic  
illumination, the Rosicrucian  
code of life with twenty-nine  
Laws and regulation and a  
number of portraits of  
prominent mystics. Technical  
matter in the text and the  
numerous diagrams makes this  
book a real encyclopaedia of  
Rosicrucian explanations, aside  
from the dictionary of  
Rosicrucian terms.

"Programming Mobile Robots with Aria and Player" provides a guide to creating object-oriented C++ programs for robots using the Player and Aria APIs within a Linux environment. The book is supported throughout with examples, diagrams, sample programs, and configuration files. MobileRobot ' s Pioneers are used as vehicles throughout the book, but most of the techniques and programs that are demonstrated for Player are applicable to the other makes and models that the API supports. In addition, the Aria section is also appropriate for other robots made by MobileRobots. The book discusses how to install the various pieces of software needed and also

describes how to: configure robots; control robots remotely; program each individual sensor and actuator; and set up and control robots. "Programming Mobile Robots with Aria and Player" serves as a complete text for undergraduate and postgraduate robotics programming modules, and is also an invaluable reference source for students, teachers and researchers.
