International
Perspectives on
Inclusion within
Society and

Education

Samman Technical Coaching is an approach to Agile training that focuses on technical questions concerning how code is written. It is a highly effective way of increasing agility in your software development

organization. The first part of the Samman method involves the coach working in an ensemble with development teams, programming in their production codebase. This hands-on mentoring is accompanied by daily "learning hour" sessions for mastering particular techniques. In this book you will discover how to put Samman into practice, improve your coding procedures and how you collaborate. It is a practical guide for aspiring and experienced coaches looking for fresh ideas and new ways of teaching Agile. It is both challenging and fun for developers

and coaches alike.

Technical Agile Coaching with the Samman Method

International Perspectives on Inclusion within Society and Education explores how the theme of inclusion in education and society plays out across different nations and cultures. Covering topics like dual citizenship, political loyalty, and migration, it includes important discussions around poverty, educational disadvantage, youth radicalisation and inequality. With perspectives from a wide range of countries, including the USA, UK, Finland, Kosovo, Albania, Poland, Lithuania, Latvia, Hungary, the Czech Republic, Slovakia and India, this book explores how issues of inclusion are often decided by a majority for the majority, which can lead to included minorities feeling disadvantaged and paradoxically excluded. While setting up a strong case for inclusion in society and

education, it considers factors such as poverty and mental health both nationally and internationally and evaluates the effectiveness of additional financial resources and educational support in creating an inclusive world. This book will be of great interest for academics, researchers, and post graduate students in the fields of comparative education, inclusive education, sociology, political sciences and social work.
