Unstoppable is a word defined as "difficult or impossible to preclude or stop." As a human quality, it is something that we associate with people such as sports superstars, those who do whatever it takes to inspire others and lead teams to the greatest of victories. Sometimes, an idea or person can become unstoppable. Unstoppable, like Charles Lindbergh crossing the Atlantic in a solo flight when no one had thought it was possible, or track star Roger Bannister breaking the four-minute mile barrier. Not everyone can be an explorer or a great athlete, but anyone can be unstoppable in their chosen endeavors in life. If you are willing to possess an unwavering determination to succeed and a consistent willingness to learn and evolve, you can become unstoppable and triumph too. This book is about a personal struggle, one in which the author awoke from a coma after a terrible accident and faced a life of permanent paralysis. A long battle of driven determination resulted in Yanni Raz regaining his health and becoming a self-made millionaire after migrating from his native Israel to the United States. Through careers as a musician, a Starbucks barista, a salesman, a real estate whiz, a professional poker player and a hard money lender, Yanni learned reliable principles and the skills necessary for success. Unstoppable covers many topics including controlling your life, making the best decisions, creating new opportunities, properly assessing signals, expertly negotiating, and succeeding by storytelling across the media landscape. You'll learn about integrity in business, asset diversification, and many other life tips that thousands of people learn from Yanni on a daily basis. It is time to become fearless and lead a powerful life. With Yanni's new book Unstoppable, you can do just that.

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Stories are basic to life. Everybody loves a good story. We have been reading, listening to, or watching stories all of our lives, so we intuitively know a lot about how they work. Yet, more and more, Christians are unfamiliar with the stories of the Bible and how the grand narrative of God's Word fits together. Indeed, God gave us the stories of the Bible to reveal great truth about

Himself and about our lives, and He wants to draw us into the ongoing story of what He is doing in the world. By focusing on the narrative framework of Scripture we can better understand what the Bible teaches and live out its instruction more effectively. Reading God's Story takes that clear narrative approach to the Bible, arranging the complete text into a fresh chronological reading plan developed for the Read the Bible for Life biblical literacy initiative. In this plan the books, chapters, and verses of the Bible are thoughtfully arranged so readers can track the story of Scripture, day by day, from beginning to end, understanding the flow of events and how all the different parts fit together to make sense. Reading God's Story features two-color interior page layout and is organized into 52 weeks of readings (six readings per week). It presents Scripture in three main acts (God's Plan for All People; God's Covenant People; God's New Covenant People) and seventeen total scenes, providing an introduction for each act and scene to orient the reader to its importance in the grand story. Unlike other chronological Bibles, this arrangement is not date specific (e.g. "January 1"), so a person can begin using this edition at any point in the calendar year.

There?s a lot of conversation about how to make schools better. Unfortunately, the nature of those conversations often makes things worse. Evocative Coaching: Transforming Schools One Conversation at a Time maps out a way to change that. By taking a teacher-centered, no-fault, strengths-based approach to performance improvement, the Evocative Coaching model generates the motivation and movement that enables teachers and schools to achieve desired outcomes and enhance quality of life. Viewed as a dynamic dance, the model is choreographed in four steps ? Story, Empathy, Inquiry, Design ? which are each laid out in its own chapter with powerful illustrative materials and end-of-chapter discussion questions to prompt further reflection. Bringing together the best research and wisdom in educational leadership and professional coaching, authors Bob and Megan Tschannen-Moran have developed a simple yet profound way of facilitating new conversations in schools through Story Listening, Expressing Empathy, Appreciative Inquiry, and Design Thinking. It?s an iterative process that moves beyond old ways of thinking, doing, and being. It?s an inspirational process that reinvigorates the passion for making schools better, one conversation at a time. This happens when coaches: give teachers our full, undivided attention; accept and meet teachers where they are right now, without making them wrong; ask and trust teachers to take charge of their own learning and growth; make sure teachers are talking more than we are; enable teachers to appreciate the positive value of their own experiences; harness the strengths teachers have to meet challenges and overcome obstacles; reframe difficulties and challenges as opportunities to learn and grow; invite teachers to discover possibilities and find answers for themselves; dialogue with teachers regarding their higher purpose for teaching; uncover teachers? natural impulse to engage with colleagues and students; assist teachers to draw up a personal

blueprint for professional mastery; support teachers in brainstorming and trying new ways of doing things; maintain an upbeat, energetic, and positive attitude at all times; collaborate with teachers to design and conduct appropriate learning experiments; enable teachers to build supportive environments and teams; use humor to lighten the load; and inspire and challenge teachers to go beyond what they would do alone. Each chapter provides a research-based theory to support the strategies presented, and includes specific suggestions and anecdotes. The Evocative Coaching model makes coaching enjoyable by getting people to focus on what they do best, and it invites larger, more integral conversations so that people talk about their work in the context of other things they care about. Resting on strong, evidence-based practices, the Evocative Coaching model offers educators the help they need to meet the challenges of increased accountability and expectations. This model can also be used effectively by coaches and leaders in other organizational contexts. Table of Contents: Chapter 1: What Is Evocative Coaching? Chapter 2: Coaching Presence Loop I: The No-Fault Turn Chapter 3: Story Listening Chapter 4: Expressing Empathy Loop II: The Strengths-Building Turn Chapter 5: Appreciative Inquiry Chapter 6: Design Thinking Chapter 7: Aligning Environments Chapter 8: Coaching Conversations Chapter 9: The Reflective Coach To learn more about Evocative Coaching and to sign up for the Evocative Coach Training Program, visit [w](#)

This highly accessible and enjoyable guide is full of practical and fascinating information about how to enjoy whisky. All whisky styles are covered, including (just whisper it) blends. Along the way a good few myths are exploded, including the idea that whisky has to be taken neat. In 'What to Drink', Dave Broom explores flavour camps - how to understand a style of whisky - and moves on to provide extensive tasting notes of the major brands, demonstrating whisky's extraordinary diversity. In 'How to Drink', he sets out how to enjoy whisky in myriad ways - using water and mixers, from soda to green tea; and in cocktails, from the Manhattan to the Rusty Nail. He even looks at pairing whisky and food. In this spirited, entertaining and no-nonsense guide, world-renowned expert Dave Broom dispels the mysteries of whisky and unlocks a whole host of exciting possibilities for this magical drink.

The visual recognition problem is central to computer vision research. From robotics to information retrieval, many desired applications demand the ability to identify and localize categories, places, and objects. This tutorial overviews computer vision algorithms for visual object recognition and image classification. We introduce primary representations and learning approaches, with an emphasis on recent advances in the field. The target audience consists of researchers or students working in AI, robotics, or vision who would like to understand what methods and representations are available for these problems. This lecture summarizes what is and isn't possible to do reliably today, and overviews key concepts that could be employed in systems requiring visual categorization.
