The U.S. is in deep trouble. America's financial house of cards is beginning to concern informed individuals (and foreigners) while the vast majority appear either indifferent or unaware of our nation's serious vulnerability. America's Financial Reckoning Day is a wake-up call to the baby-boom generation that a hyperinflationary depression and America's loss of leadership in the world is a distinct possibility in the near future. Chuck Copes has carefully researched and skillfully presented a compelling case for America's obsolescence and political paradigms that will help redefine the 21st Century. This is a hard-hitting book about banking intrigue, political malfeasance, treachery, and a prophetic odyssey that reads like an Orwellian novel. It is also a book about survival that will challenge your personal and financial priorities as you read through the final chapters. This book serves as a good reminder that our lives have meaning and significance in God's plan for the future. For a thorough understanding of the critical times we are living in, it is recommended that you find a quiet place on a peaceful weekend and read this fascinating book in its entirety - and then pass it along to someone you care about.

This soup-to-nuts collection of recipes covers everything you need to know to perform your job as a Linux network administrator, whether you're new to the job or have years of experience. With Linux Networking Cookbook, you'll dive straight into the gnarly hands-on work of building and maintaining a computer network. Running a network doesn't mean you have all the answers. Networking is a complex subject with reams of reference material that's difficult to keep straight, much less remember. If you want a book that lays out the steps for specific tasks, that clearly explains the commands and configurations, and does not tax your patience with endless ramblings and meanderings into theory and obscure RFCs, this is the book for you. You will find recipes for: Building a gateway, firewall, and wireless access point on a Linux network Building a VoIP server with Asterisk Secure remote administration with SSH Building secure VPNs with OpenVPN, and a Linux PPTP VPN server Single sign-on with Samba for mixed Linux/Windows LANs Centralized network directory with OpenLDAP Network monitoring with Nagios or MRTG Getting acquainted with IPv6 Setting up hands-free networks installations of new systems Linux system administration via serial console And a lot more. Each recipe includes a clear, hands-on solution with tested code, plus a discussion on why it works. When you need to solve a network problem without delay, and don't have the time or patience to comb through reference books or the Web for answers, Linux Networking Cookbook gives you exactly what you need.

Are you young, eager, smart, and heading off to LA to make it big in the entertainment business? Time for a reality check: Leave your diploma at home, put your grandiose dreams on hold (where hopefully they'll get tired and hang up), and start by repeating the first rule of the industry: Who you work for is more important than

who you are. Then leapfrog over everyone else by reading [The Hollywood Assistants Handbook](#). Written by two very sharp and successful assistants to HPPs (Hollywood Power Players), here are 86 lessons packed with a combination of blunt truth, insider humor, and juicy secrets that explain the unwritten rules of how to get a foot in the door and make all the right moves as you climb to the top. Here are the minimum-wage jobs that will put you in the path of HPPs. An annotated resume roundup. The clubs to frequent and the cocktails to order. Movies to watch and books to read (it's called homework). Dressing do's and don'ts. How to get on the Free List. A lineup of boss genres—the Horror Show, the Romantic Comedy, Mr. Action—and how to dodge the tirades that will soon be hurled your way, along with the proper outlets for venting. Plus, the ins and outs of your most important tool, the telephone—when to listen in (always!), who to put through and who to put off, and your new best friend forever, the Plantronics CS70 cordless headset. With its hilariously snarky tone—the gate-keeping quiz "How to Tell if You're a Moron Who Should Pack Up the Corolla and Move Back Home"—[The Hollywood Assistants Handbook](#) is as baldly entertaining for everyone who loves reading about Hollywood as it is indispensably practical for the job-seeker.

A stirring, witty, and poignant glimpse into the bewildering American immigrant experience from someone who has lived it. Hakakian's "love letter to the nation that took her in [is also] a timely reminder of what millions of human beings endure when they uproot their lives to become Americans by choice" (The Boston Globe). Into the maelstrom of unprecedented contemporary debates about immigrants in the United States, this perfectly timed book gives us a portrait of what the new immigrant experience in America is really like. Written as a "guide" for the newly arrived, and providing "practical information and advice," Roya Hakakian, an immigrant herself, reveals what those who settle here love about the country, what they miss about their homes, the cruelty of some Americans, and the unceasing generosity of others. She captures the texture of life in a new place in all its complexity, laying bare both its beauty and its darkness as she discusses race, sex, love, death, consumerism, and what it is like to be from a country that is in America's crosshairs. Her tenderly perceptive and surprisingly humorous account invites us to see ourselves as we appear to others, making it possible for us to rediscover our many American gifts through the perspective of the outsider. In shattering myths and embracing painful contradictions that are unique to this place, [A Beginner's Guide to America](#) is Hakakian's candid love letter to America.
