Organized around ICG's seven "Success Factors" for great instructional coaching, this book offers * An in-depth guide to the Impact Cycle, ICG's research-based and field-tested model for coaching teachers through issues that matter most to them; * Detailed guidance on how to create a "playbook" of instructional strategies to

share with collaborating teachers—and how to model those strategies under different conditions; * Practical advice on preparing for and engaging in substantive, reflective, and teacher-centered coaching conversations; * Best practices for gathering, analyzing, and responding to data for improved teaching and learning; and * Real-life anecdotes and testimonies from educators and coaches who have reaped the benefits of the Impact Cycle in a diverse array of schools. Who am I and where do I come to write this book? I feel it necessary to address all aspects of motherhood, so I decided to include both the sweetness and delight plus the shadow side of motherhood in this book. Some challenging life situations occur that are vital for us to consider, so I am including some disquieting statistics. Because many women (and men) have refrained from checking within themselves or making an examination on emotional, mental, physical and spiritual planes about having children, hardships have been created, both

personally and planetary.
